 Do... apply directly to food. In commercial food
 handling facilities, cover or remove any food and food
 processing equipment during application. Do not apply
 to any food processing is under way. After space
 spraying is completed at packing plants, bakeries, and other
 food processing plants, wash with potable water all
 equipment, benches, shelving, etc., where exposed food
 will be handled. In the home, all food processing
 surfaces and utensils should be covered during treat-
 ment and thoroughly washed before use.
 ...ve pets and birds, and cover fish aquariums before
 spraying
