

CCC DISINFECTANT CLEANER is an industrial cleaner which disinfects as it cleans. It is especially designed for schools, institutions, and industry. A single application removes dirt and grime, disinfects, and is virucidal. When used as directed, the hard surface disinfecting action of CCC DISINFECTANT CLEANER will reduce the hazard of cross-infection.

CCC DISINFECTANT CLEANER is an extremely effective one-step sanitizer. It cleans and sanitizes in waters up to 1000 ppm hardness with no potable water rinse required. This hard water tolerance is in excess of most potable waters and will insure complete sanitizing action when used as directed.

When used as directed, CCC DISINFECTANT CLEANER will deodorize toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas, and other places where bacterial growth can cause mal odors.

DIRECTIONS FOR USE

GENERAL CLASSIFICATION

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

Add two ounces per gallon water.

Apply CCC DISINFECTANT CLEANER to walls, floors, and other hard surfaces such as tables, chairs and bed frames with a cloth or mop.

At two ounces per gallon use level, CCC DISINFECTANT CLEANER is effective against Staphylococcus aureus, Salmonella choleraesuis, Escherichia coli, and Trichophyton interdigitale, the athlete's foot fungus. Germicidal performance against the first three organisms has been confirmed by the AOAC Use-Dilution Test. Fungicidal performance against T. interdigitale was determined by the AOAC Fungicidal Test.

*At two ounces per gallon use-level, CCC DISINFECTANT CLEANER is virucidal against Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), and Influenza A₂, as represented by the strains commonly called the Hong Kong Flu and the London Flu Virus, on inanimate environmental surfaces

Note, this product is not effective against Ps. aeruginosa at this use-level.

For sanitizing add one ounce per gallon of water.

Use CCC DISINFECTANT CLEANER for sanitizing and cleaning utensils, equipment and other hard surfaces. When sanitizing food processing equipment and utensils and food contact surfaces, no potable water rinse is required.
