

POOL-CIDE

ACTIVE INGREDIENT

Poly [oxyethylene (dimethyliminio) ethylene
(dimethyliminio) ethylene dichloride] 10.0%

INERT INGREDIENT 90.0%

This product contains 0.85 lb. of active ingredient per gallon and weighs 8.49 lb. per gallon.

KEEP OUT OF REACH OF CHILDREN
CAUTION

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes or clothing.

FIRST AID: If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

POOL-CIDE is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using POOL-CIDE.

For pools having just visible algae growth add an initial dose of 75 to 116 fluid ounces of POOL-CIDE per 10,000 gallons of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 41 to 75 fluid ounces of POOL-CIDE per 10,000 gallons of water.

To maintain pools free of visible algae growth, subsequent additions of 13.6 to 27 fluid ounces of POOL-CIDE per 10,000 gallons of water should be made every 5 to 7 days after the initial treatment.

POOL-CIDE is compatible with those chemicals normally used to treat pools and effective at both acid and alkaline pH. POOL-CIDE can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix POOL-CIDE with concentrated dry or liquid chlorine products.

STORAGE & DISPOSAL: Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. The container must be triple rinsed (or equivalent) and offered for recycling, reconditioning, or disposal in an approved landfill or buried in a safe place. Rinsate that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.
