

US ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (TS-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

DATE OF ISSUANCE

41134-5

TERM OF ISSUANCE

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION

(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

SDIC Granular

41134-5
pg 1/5

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Elf Atochem S.A.
4 Cours Michelet
La Defense 10 Cedex 42
92091 Paris la Defense
France

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Refer to the enclosed Attachment A for the necessary revisions to the Precautionary Statements for the subject product.
2. Revise the Environmental Hazards to read as follows:

"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

authority. For guidance, contact your State Water Board or Regional Office of the EPA".

3. Revise "For end use as a disinfectant, algicide or sanitizer" to read "For use as a disinfectant algicide or sanitizer in swimming pools, spas and hot tubs".
4. Revise the disposal statement in accordance with the Pest/DIS-1 enclosure.

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

Submit a revised Confidential Statement of Formula. The nominal concentration of 99% should be cited in Column 13(b) of the CSF. The inert ingredients of 1% should be cited on product CSF. The product density and pH should be cited in boxes 7 and 8 of the CSF.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS:

Danger: highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nasal and throat. Avoid breathing dust. Store in and use only in accordance with label directions.

ENVIRONMENTAL HAZARDS

Do not discharge effluent containing this product into streams, rivers, ponds, or other bodies of water. Do not discharge into sewers. Do not discharge into waterways. Do not discharge into streams, rivers, ponds, or other bodies of water. Do not discharge into streams, rivers, ponds, or other bodies of water. Do not discharge into streams, rivers, ponds, or other bodies of water.

PHYSICAL AND CHEMICAL HAZARDS

Strong Oxidizing Agent. May cause fire or explosion. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. May cause skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. May cause skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing.

Net Weight 300 lbs.
MANUFACTURED IN FRANCE

SDIC Granular
Eif Atochem S.A.
1 Place
Industrielle de France
93151 Noisy-le-François

This pesticide is toxic to fish and aquatic organisms

Active Ingredient: Sodium dichloro-s-triazin-5(1H)-ylate
Inert Ingredients: ...
Aerial Application

NET WT 300 LBS

DIRECTIONS FOR USE

Use in accordance with label directions. Do not use for purposes other than those specified on the label.

For use as a disinfectant, sanitizer, or sanitizer. Do not use for purposes other than those specified on the label.

STORAGE AND DISPOSAL: Do not store in water. Do not use for purposes other than those specified on the label.

PERSONAL PROTECTION: Persons wearing eye safety glasses. Avoid contact with eyes, nose, mouth, or skin.

CONTAINER DISPOSAL: Completely empty container by shaking and pouring into a suitable container. Do not reuse.

ADVICE TO BUYER

See separate sheet for detailed directions. Do not use for purposes other than those specified on the label.

KEEP OUT OF REACH OF CHILDREN
DANGER!

PRACTICAL TREATMENT (FIRST AID)

IF SWALLOWED: Do not induce vomiting. Drink large amounts of water. Do not induce vomiting. Drink large amounts of water. Do not induce vomiting. Drink large amounts of water.

IF SWALLOWED, drink large amounts of water. DO NOT induce vomiting. Avoid alcohol. Call a physician or poison control center immediately.

For end-use as a disinfectant, Algicide or sanitizer

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR SWIMMING POOLS

1. **STABILIZE** pool with Isocyanuric Acid. Follow directions for use on label of Isocyanuric Acid Stabilizer. Omit if it has been done previously.

2. **CHECK RESIDUAL CHLORINE** with a reliable test kit. If below 1.0 parts per million (ppm), add 10 ounces S.D.I.C. Granular per 10,000 gallons. Repeat this dosage until a chlorine residual of 1.0 - 1.5 ppm has been established. Add product to water by broadcasting over pool surface preferably at deep end.

3. **MAINTAIN RESIDUAL CHLORINE:** Add S.D.I.C. Granular daily or as needed to maintain 1.0 - 1.5 ppm residual chlorine (Two ounces of S.D.I.C. Granular supply 1.0 ppm chlorine to 10,000 gallons of water). Additional dosages may be required during exceptionally hot weather or when many people are using the pool.

4. **MEASURE pH** immediately and at least once each week with a reliable pool test kit. Adjust pH to 7.2 - 7.6 if necessary. pH can be decreased by adding a suitable agent such as sodium bisulphite or increased by adding a suitable agent such as soda ash. Follow directions for use on labels of those products.

NOTE: Reentry into treated pool is prohibited above levels of 3 ppm chlorine.

FOR SPAS AND HOT TUBS

1. **CHLORINATE:** Add one-half ounce S.D.I.C. Granular per 500 gallons of water. Wait 5 minutes, then check chlorine residual. Chlorine residual must read between 2.0 - 3.0 ppm. If it does not, additional amounts of S.D.I.C. Granular should be added until it does. Once the chlorine level is established in the 2 - 3 ppm range, the pool may be entered.

2. **MAINTAIN:** S.D.I.C. Granular should be added daily or as necessary to maintain 2 - 3 ppm residual chlorine. Frequent checks should be made of residual chlorine using a reliable test kit. The S.D.I.C. Granular should be broadcast over the surface of the water and allowed at least 5 minutes of time before sampling.

NOTE: Reentry into treated pool is prohibited above levels of 3 ppm chlorine. Heavy bather usage or the use of oils or lotions may increase the chlorine demand of the pool resulting in the need for more frequent checks on residual.

3. **CHECK pH:** pH should be measured with a reliable kit and maintained in the 7.2 - 7.6 range for clean sparkling water. pH can be decreased by adding a suitable agent such as sodium bisulphite or increased by adding a suitable agent such as soda ash. Follow instructions on the label of the product used.

GENERAL NOTES

S.D.I.C. Granular is a concentrated form of chlorine designed for chlorination of swimming pools, spas and hot tubs. S.D.I.C. Granular provides the acidity to lower pH of water which assists in increasing the effectiveness of residual chlorine.

Attachment A - Batch 26 Products

Labeling:

1. The signal word is "Danger".

2. The Precautionary Statements should read:

"Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".

3. The Statements of Practical Treatment should read:

"If in eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention".

"If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth-to-mouth. Get medical attention".

"If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists".

"If swallowed: Drink promptly large quantities of water. Avoid alcohol. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage. Get medical attention".
