

Sunshine Algaecide Formula B is efficient, economical and stable in use dilution. Sunshine Algaecide Formula B is compatible with most chemicals used in pool water and will not damage tile, concrete, metal or plastics. Continued useage as directed will keep pool water sparkling clear and free of visible green algae, blue green algae and slime. It improves filter operation and cuts down the need for other chemicals.

Sunshine Algaecide Formula B imparts tone and a pleasant "feel" to swimming pool water. Sunshine Algaecide Formula B is stable. It may be stored for prolonged periods of time without losing strength or effectiveness.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Keep out of reach of children. Corrosive. Causes eye damage and skin irritation. Do not get in eyes, on skin or on clothing. Protect eyes and skin when handling. Harmful if swallowed. Avoid contamination of food.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician. Remove and wash contaminated clothing before reuse. If swallowed, promptly drink a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician immediately.

NOTE TO PHYSICIAN: Probable mucosal damage may contrindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not discharge into lakes, streams, ponds or public waters unless in accordance with a NPDES. For guidance, contact your regional office of the Environmental Protection Agency.

Manufactured by: Sunshine Chemical Corporation
Commack, NY 11725

EPA Reg No. 41200-3

EPA Est No 41260-NY-01

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.
Open dumping is prohibited.
Do not reuse empty container.

CONTAINER DISPOSAL

Triple rinse (or equivalent) and dispose in an incinerator or landfill approved for pesticide containers, or bury in a safe place. Consult federal, state or local disposal authorities for approved alternative procedures such as limited open burning.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

INITIAL DOSE: One (1) gallon Algaecide for each 37,500 gallons of water or 12 oz (1 1/2 cups) for each 3,000 gallons of water. Apply to freshly filled, clean pools.

MAINTENANCE DOSE: One (1) quart for each 37,500 gallons of water every 2 days in warm, sunny or humid weather, or if pool has unusually heavy use. Every 3 to 5 days in cool or cloudy weather.

BOOSTER DOSE: Add one (1) quart for every 37,500 gallons of water or 3 oz for each 3,000 gallons of water after a heavy or prolonged rainfall.

When swimming season is over add one (1) gallon for each 37,500 gallons of water in treating water left in pool. This does help provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

IMPORTANT: Follow above directions without fail, even when pool is not used. Algae growth must be fought at all times.

Sunshine Algaecide Formula B requires no special equipment for applications. It may be poured directly into the water from any point around the pool or through any water circulating system. Wait 10 to 15 minutes before entering pool.
