For eyes, get medical attention immediately. Harmful if swallowed. Avoid contamination of food. Use goggles or face shield when using. Remove and wash contaminated clothing before reuse. Avoid alcohol.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Do not apply in marine and/or estuarine oil fields. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with a NPDES permit. For guidance, contact your Regional Office of the Environmental Protection Agency.

STATEMENT OF PRACTICAL TREATMENT: IF SWALLOWED: Do not induce vomiting. Drink large quantities of fluid and call a physician immediately. **IF ON SKIN:** Wash immediately with plenty of water. **IF IN EYES:** Causes severe eye irritation. Wash with plenty of water and get medical attention immediately.

PHYSICAL AND CHEMICAL HAZARDS: Never mix chemicals together, but apply each separately as directed.

STORAGE AND DISPOSAL: Keep from freezing. Keep container closed when not in use. Disposal: Do not reuse container. Thoroughly rinse empty container with water then destroy by placing in trash collection. In case of spill or leak, flush with plenty of water.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Read all directions carefully before using.

For control of algae and sparkling clear water free from algae growth -- Algaegone liquid is unsurpassed. Algaegone liquid quickly and chemically treats pool water to effectively kill and prevent development of many swimming pool algae. Algaegone liquid is odorless and colorless. Will not attack rubber parts or any pool equipment when used in proportion of 1 gallon to 36,000 gallons of pool water. Excellent for complete pool algae control.

ODORLESS -- EFFECTIVE

General Sanitation: Use a solution of 1 oz. of Algaegone liquid to 2 gallons of water to sanitize locker rooms, walls, runways and other areas around swimming pool. For initial treatment use 9 oz. Algaegone liquid to 2500 gallons of water in pool to effectively control algae and to assure clean, sparkling water. For larger pools, use 1 gal. of Algaegone liquid to each 36,000 gallons of water for initial treatment.

FOLLOW-UP TREATMENT

1 qt. to each 36,000 gallons of water every 4th day. Use 2-1/4 oz. of Algaegone liquid to each 2500 gallons every 4th day. For heavy bather load and exceptionally sunny days use 2-1/4 oz. every 2nd day to each 2500 gallons of pool capacity.

KEEP FROM FREEZING

TREATMENT CHART

Pool Capacity	Initial Treatment	Follow-Up Treatment
500 gal.	2 oz.	1/2 oz.
1000 gal.	4 oz.	1 oz.
5000 gal.	18 oz.	4-1/2 oz.
