 Fungicide, and Rodenticide Act,  
 as amended, for the pesticide

# ALGAETRON CONCENTRATE

**ACTIVE INGREDIENT**  
 Poly(oxyethylene (dimethylamino) ethylene  
 (dimethylamino) ethylene dichloride) 95

**INERT INGREDIENT** 5

This product contains \_\_\_\_\_ of active ingredient per gallon  
 and weighs \_\_\_\_\_ per gallon

**KEEP OUT OF REACH OF CHILDREN  
 CAUTION**

**PRECAUTIONARY STATEMENTS  
 HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Avoid breathing dusts or contact with skin, eyes, or clothing.

**FIRST AID:** If swallowed, immediately drink milk, egg whites, gelatin solution, or water. Do not induce vomiting. Drink a gallon of water. Avoid food. Call a physician immediately.

**ENVIRONMENTAL HAZARDS:** This pesticide is highly toxic to aquatic insects, crustaceans, mollusks, and fish. Persistence in water is long. Do not apply to streams, rivers, or other bodies of water. Do not apply to areas where water is used for drinking.

USE THIS LABEL FOR METAL CONTAINERS

**DIRECTIONS FOR USE  
 GENERAL CLASSIFICATION**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

ALGAETRON CONCENTRATE is used to control the growth of algae in swimming pools, exterior heated pools, whirlpools, and hot baths. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using ALGAETRON CONCENTRATE.

For pools having just visible algae growth add an initial dose of 18 to 27 fluid ounces of ALGAETRON CONCENTRATE per 10,000 gallons of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 10 to 15 fluid ounces of ALGAETRON CONCENTRATE per 10,000 gallons of water.

To maintain pools free of visible algae growth, subsequent additions of 5 to 10 fluid ounces of ALGAETRON CONCENTRATE per 10,000 gallons of water should be made every 5 to 7 days after the initial treatment.

ALGAETRON CONCENTRATE is compatible with those chemicals normally used to treat pools and effective at both acid and alkaline pH. ALGAETRON CONCENTRATE can be used in pools treated with chlorine tablets and may reduce the amount of those chemicals normally required. However, do not mix ALGAETRON CONCENTRATE with concentrated dry or liquid chlorine products.

**STORAGE & DISPOSAL:** Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning. The container must be triple rinsed (or equivalent) and labeled for recycling, re-conditioning, or disposal in an approved landfill. Store in a safe place. Rinsate that cannot be used or recycled should be disposed of in a landfill approved for pesticides. Store in a safe place away from water supplies. Open dumping is prohibited.
