

U.S. ENVIRONMENTAL PROTECTION AGENCY
OFFICE OF PESTICIDES PROGRAMS
REGISTRATION DIVISION (75-767)
WASHINGTON, DC 20460

EPA REGISTRATION NO.

41702-7

DATE OF ISSUANCE

SEP 13 1995

TERM OF ENDORSEMENT

NOTICE OF PESTICIDE: REGISTRATION
 REREГИSTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT

Clear Day Small Tablets
Stabilized Pool Chlorinating
Concentrate

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Steelcrete Company
P.O. Box 636
Novi, MI 48376-0636

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.

Make the following labeling changes before you release the product for shipment:

1. Revise the Precautionary Statements and Statement of Practical Treatment in accordance with Attachment A for Batch 31 products.
2. Revise the Environmental Hazards to read as follows:

"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge.

ATTACHMENT IS APPLICABLE

SIGNATURE OF APPROVING OFFICIAL

DATE

Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA".

3. On the front center panel after the word "Danger" remove "Practical Treatment" and place it in front of "First Aid".
4. Place the "Directions for Use" statement above "It is a violation...".
5. Delete "Instructions".
6. Include the following re-entry statement: "Reentry into treated swimming pools is prohibited above levels of 3 ppm of chlorine".

A stamped copy of the product label is enclosed for your records. Note that the name on the submitted label has been edited to reflect the basic product name for this registration.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Antimicrobial Program Branch
Registration Division (7505C)

Enclosure

ACCEPTED
with COMMENTS
in EPA Letter Dated:

June 13, 1995

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, this pesticide
is registered under EPA Reg. No.

41702-7

Clear Day

ITEM NO. ST13-320

SMALL TABLETS

STABILIZED POOL CHLORINATING CONCENTRATE

ACTIVE INGREDIENT:

TRICHLORO-S-TRIAZINETRIONE 99%

INERT INGREDIENTS 1%

Available Chlorine 89%

**Trichlorosocyanuric Acid Dry*

KEEP OUT OF REACH OF CHILDREN
DANGER PRACTICAL TREATMENT

FIRST AID

If swallowed: Drink large quantities of water. Do not induce vomiting. Call a physician immediately.

If on skin: Brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation persists, get medical attention.

If in eyes: Flush with cold water for at least 15 minutes. Call a physician immediately.

If inhaled: Remove person to fresh air. Call a physician immediately.

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

DANGER

Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Do not handle with bare hands. Wear goggles or face shield and use rubber gloves and only thoroughly clean, dry utensils when handling. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARD.

This product is toxic to fish. Do not contaminate lakes, ponds or streams by cleaning of equipment or disposal of wastes.

CHEMICAL HAZARDS: DANGER:
STRONG OXIDIZING AGENT.

Use only clean, dry utensils. Mix only with water. Contamination with moisture, dirt, organic matter or other chemicals (including other pool chemicals) or any other foreign matter may start a chemical reaction with generation of heat, liberation of hazardous gases and possible generation of fire and explosion. Avoid any contact with flaming or burning material, such as a lighted cigarette. Do not use compounds (e.g., calcium hypochlorite). Such use may cause fire or explosion.

STORAGE AND DISPOSAL

Keep product dry in tightly closed container when not in use. Store in a cool, dry, well-ventilated area away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material before discarding. Securely wrap container in several layers of newspaper and discard in trash.

EMERGENCY HANDLING: In case of contamination or decomposition do not reseal container. If possible, isolate container in open and well-ventilated area. Flood with large volumes of water. Dispose of contaminated material in an approved landfill area.

FEATURES

A SOLID GERMICIDE AND ALGAECIDE THAT DISSOLVES SLOWLY PROVIDING EFFECTIVE LONG LASTING TREATMENT.

INSTRUCTIONS

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**DO NOT HANDLE THIS PRODUCT WITH BARE HANDS.
USE GLOVES OR THOROUGHLY CLEAN, DRY UTENSILS.**

STARTUP

When starting up a reopened or freshly filled swimming pool, make sure the filtration system is clean and operating properly. Then adjust and maintain the pH in the range of 7.2-7.6 using a Minus or a Plus as indicated by a reliable test kit. Adjust and maintain total alkalinity at 90-125 ppm based on the test kit results and the label directions on an Alkalinity Control. Superchlorinate with a Booster or a Superchlorinator and Shock Treatment. Follow label precautions and directions. The next day add a Conditioner to provide a minimum of 30 ppm of stabilizer. Follow label directions.

DAILY

Adjust the chlorine dispensing rate of the floater or in-line feeder to provide 1.0-1.5 ppm of free chlorine residual as determined by a reliable test kit. A suggested dosage is one tablet per 1,800 gallons. This dosage may vary due to unusual conditions such as heavy bather loads, wind, heavy rains and high temperatures; therefore, frequent use of a reliable test kit is recommended. Using the test kit as a guide maintain the pH at 7.2-7.6 and total alkalinity at 90-125 ppm. Pool chlorinating concentrate tablets are intended for use in the floater or in-line feeder only. Do not add these tablets directly to the pool or mix with any other chemicals. One tablet weighs approximately 1/2 oz. (14 grams).

**SUPERCHLORINATE USING A BOOSTER OR A BURN
SUPERCHLORINATOR AND SHOCK TREATMENT.
FOLLOW LABEL PRECAUTIONS AND DIRECTIONS.**
