This is in response to the above-mentioned amendment. The Agency has reviewed your submission and has made the following recommendations and comments:

1. Each amendment to each product must be identified by using a correct EPA Registration Number for each submission. Without an EPA Registration Number, we may not determine which alternate formulation is for the product under EPA Registration No. 417501-1 and which ones are for EPA Registration No. 41750-2.
2. Submit a revised Confidential Statement of Formula on EPA Form 8570-4 (copy enclosed), and for each alternate formula include the correct EPA Registration Number.
