DANGER — Hazard to Humans and Domestic Animals

DIRECTION FOR USE:

It is a violation of Federal Law to Use this Product in a manner inconsistent with its labeling.

CHEMPRO IODOPHOR CONCENTRATE — 20 has been designed to be used to formulate germicides and detergent sanitizers, regulated under the Federal Insecticide, Fungicide and Rodenticide Act, as Amended (FIFRA). Use of this product as a component of products regulated by FIFRA requires that such finished products must comply with that regulation to quality, and all additional detergents, as well as all other added ingredients must be within the specification limits of that regulation.

CHEMPRO IODOPHOR CONCENTRATE — 20 has also been designed to be used in products regulated by the Food Drug and Cosmetic Act, OTC Microbials. Products manufactured for topical use on humans or animals, must comply with the specifications, limits of that regulation, and all additional detergents, as well as other ingredients must be within these limits. **CHEMPRO IODOPHOR CONCENTRATE — 20** can be used in surgical scrub soaps, shampoos, wound sprays and topical dressings where the antimicrobial properties of available iodine can be realized.

CHEMPRO IODOPHOR CONCENTRATE — 20 is Manufactured with Biodegradable Surfactants. In order to maintain this characteristic, all additional surfactants must be themselves Biodegradable.

STORAGE AND DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Open dumping is prohibited. Do not reuse container. Pesticide or rinsate that cannot be used or chemically processed should be disposed of in a landfill-area approved for disposal of pesticides. Triple rinse empty container and offer for recycling or reconditioning or disposal in a approved landfill. Consult Federal, State or Local Disposal Authorities for an Approved Alternate Procedures.
