 statements.

MANUFACTURED BY: FMC CORP., St. Joseph, Mo. 64501
 EPA EST. NO. 41824-1 MO
 1 GALLON (3.8 liter)

91A

Chempro Twenty is designed for animal hospitals, animal laboratories, and kennels. When used as directed, Chempro Twenty is formulated to disinfect, deodorize and clean inanimate hard surfaces (such as walls, floors, sink tops, kennel runs, operating tables, cages, feeding and watering equipment and furniture).

In addition, Chempro Twenty deodorizes those areas which generally are hard to keep fresh smelling such as garbage storage areas, empty garbage bins and cans, and any other areas which are prone to odors caused by microorganisms.

CLEANER, DEODORIZER: When used at the disinfection dilution rate, Chempro Twenty cleans light soils and deodorizes. For difficult cleaning, use 1/2 oz. per gal. dilution.

DISINFECTION: When used as directed, Chempro Twenty demonstrates effective disinfection against the following:

Pseudomonas aeruginosa	Salmonella schuttmuelleri	Shigella dysenteriae
Escherichia coli	Salmonella choleraesuis	Enterobacter aerogenes
Klebsiella pneumoniae	Streptococcus faecalis	Staphylococcus aureus

ANIMAL HOSPITAL DISINFECTION: When used as directed, Chempro Twenty is an effective disinfectant against Pseudomonas aeruginosa in animal hospitals and laboratories for operating tables and equipment.

Virucidal Activity: The product when used at the disinfection dilution rates on environmental inanimate hard surfaces exhibits effective virucidal activity against Canine Distemper, Pseudorabies virus, Vaccinia virus, Influenza A₂, Herpes simplex, and Adeno virus Type 5.

Efficacy tests have demonstrated that Chempro Twenty is an effective bactericide, fungicide (pathogenic fungi) and virucide in the presence of organic soil (5% blood serum).

Mold and Mildewstat—Chempro Twenty prevents and controls mold and mildew and the odors they cause on hard non-porous inanimate surfaces.

STORAGE AND DISPOSAL
 — DO NOT CONTAMINATE WATER FOOD OR FEED BY STORAGE OR DISPOSAL
 — OPEN DUMPING IS PROHIBITED
 — DO NOT REUSE EMPTY CONTAINER.
Pesticide Disposal—Pesticides that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticide or buried in a safe place.
Container Disposal—Triple rinse (or equivalent) and dispose in a recycler or landfill approved for pesticide containers, or bury in a safe place.
