

DASCOCIDE 2824

ACTIVE INGREDIENT

Poly(oxyethylene (dimethyliminio) ethylene
(dimethyliminio) ethylene dichloride 60.0%

INERT INGREDIENT 40.0%

This product contains 5.76 lb. of active ingredient per gallon and weighs 9.6 lb per gallon

KEEP OUT OF REACH OF CHILDREN

CAUTION

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes, or clothing.

FIRST AID If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

ENVIRONMENTAL HAZARDS This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permits may be required for discharges containing this pesticide into lakes, streams, ponds or public water. For guidance, contact the regional office of the Environmental Protection Agency.

DIRECTIONS FOR USE GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DASCOCIDE 2824 is used to inhibit the growth of bacteria in cutting fluids and oils employed as lubricants or coolants in the machining and processing of metals.

It is recommended that **DASCOCIDE 2824** be added to the diluted cutting fluid at a concentration of 0.01 to 0.10 percent based on total weight of the cutting fluid. When added to the undiluted cutting fluid, **DASCOCIDE 2824** should be added at a concentration which will provide 0.01 to 0.10 percent concentration when diluted with water for use.

Treatment of the diluted cutting fluid should be repeated every four weeks as long as the cutting fluid is used. More frequent treatment may be required if excessive contamination occurs.

STORAGE & DISPOSAL Keep container closed when not in use. Do not contaminate water, food, or feed by storage, disposal, or cleaning of equipment. The container must be triple rinsed (or equivalent) and offered for recycling, reconditioning, or disposal in an approved landfill or buried in a safe place. Residue that cannot be used or reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.
