OFFICE OF CHEMICAL SAFETY AND POLLLUTION PREVENTION

Christina M. Swick Celeste Industries Corporation 8221 Teal Drive, Suite 405 Easton, MD 21601

Subject: GLYCO-SAN EPA Registration No.: 42048-1 Application Date: August 10 2010 Receipt Date: August 11 2010

Dear Ms Swick:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c) 9.

#### **Proposed Notification:**

Removal of conflicting language on product label

#### **General Comment:**

Based on a review of the material submitted, the language revisions dated 8/10/10 are acceptable.

Should you have any questions or comments concerning this letter, you may contact me by telephone at (703) 308-6416 or by e-mail at <u>Campbell-mcfarlane.Jacqueline@epa.gov</u> or Glen McLeod by telephone at (703) 347-0181 or by e-mail at mcleod.glen@epa.gov during the hours of 8:00am to 4:00pm EST. When submitting information or data in response to this letter, a copy of this letter should accompany the submission to facilitate processing.

Sincerely,

Jacqueline McFarlane Product Manager (34) Regulatory Management Branch II Antimicrobials Division (7510P)

#### ATTN: **Jaqueline Campbell-McFarlane Product Manager, Team 34**

#### SUBJECT: **Celeste Industries Corporation** Glyco-San (EPA Reg. No. 42048-1) Notification of Label Changes per PR Notice 98-10

Dear Ms. Campbell-McFarlane:

On behalf of Celeste Industries Corporation, we are notifying the Agency of changes to the *Glyco*-San label in accordance with PR Notice 98-10. The purpose of these changes is to remove conflicting language that is confusing to the user.

Please find enclosed the following documents to support this notification:

- 1) Pesticide Application Form;
- 2) One (1) copy of the proposed product label with the changes marked; and,
- 3) Three (3) copies of the proposed product label.

If you have any questions or comments, please contact me at 202-393-3903 ext. 16 or cswick@lewisharrison.com.

Sincerely,

Christing M. Sunch

## KEEP OUT OF REACH OF CHILDREN CAUTION

#### First Aid

<u>If in eyes</u>: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing. Call a poison control center or doctor for treatment advice.

<u>If on skin</u>: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

Hot Line Number

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-424-9300 for emergency medical treatment information.

EPA Reg. No. 42048-1 EPA Est. No. 42048-MD-001

Net Contents (32 fl. oz. (946 mL)] [1 US Gallon (3.78 Litres)] [5 US Gallon (18.93 Litres)] [55 US Gallon (207.9 Litres)]

Manufactured By: Celeste Industries Corporation, 8221 Teal Drive, Suite 405, Easton, MD 21601

#### **Precautionary Statements**

Hazards to Humans and Domestic Animals

Caution. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wear protective eyewear and gloves when handling. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco, or using the toilet.

#### **Environmental Hazards**

[If container size is 5 gallons or greater the following statement will be used:]

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of contact the EPA.

#### **Directions for Use**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling  $\mathring{g}_{c}$ 

Use Glyco-San to disinfectant on-board potable water storage tanks and components associated with these tanks such as pipes, plumbing fixtures, aircraft water trucks and carts, and hoses. Glyco-San is an effective disinfectant against Staphylococcus aureus (ATCC 6538), Salmonella enterica (ATCC 10708) and Escherichia coli (ATCC 11229).

### **Application Instructions:**

Prior to disinfection, pre-clean water storage tanks and associated components with Glyco-San by preparing a use-solution consisting of 1 part Glyco-San to 3 parts of water (1996). Prepare the Glyco-San cleaning solution by either pumping the appropriate amount of water into the water storage tank or system followed by Glyco-San addition, or by making up the Glyco-San cleaning solution in a tank, drum or water cart and then pumping the Glyco-San cleaning solution into the potable water tank. Pre-clean for a minimum of 30 minutes and, when necessary, up to 4 hours. After the pre-cleaning period is completed, thoroughly rinse the storage tank and associated components with potable water.

To disinfectant, prepare a use-solution of 1 part of Glyco-San to 7 parts of water water water and by either pumping the appropriate amount of water into the potable water tank followed by Glyco-San addition, or by making up the Glyco-San disinfectant solution in a tank, drum or water cart and then pumping the disinfectant use-solution into the potable water tank. After the disinfectant use-solution has filled the potable water tank, flush through the potable water system for 1 minute by opening all taps, including the coffee maker and vacuum toilets (where appropriate). This will allow the disinfectant use-solution to come into contact with all surfaces that contact potable water. Flush the lavatory 1-2 times. Allow the use-solution to soak in-place for at least 30 minutes and then flush to a sanitary sewer drain. Once drained, flush the potable water system with water to remove any traces of the disinfectant use-solution. In order to determine whether the system is completely flushed, half-fill a small jar with the rinse water, cap and shake. If the water in the jar DOES NOT FOAM, the system has been thoroughly flushed.

Glyco-San can also be used to disinfectant the aircraft coffee maker during shop cleaning. If heavily soiled, pre-clean the coffee maker with a suitable detergent or a prepared use solution of 1 part of Glycosan to 3 parts of water had all the same of a same solution of 1 part of Glyco-San to 7 parts of water . Make a full pot of hot water using the Glyco-San use-solution and allow to soak in-place for at least 30 minutes. Continue to make pots of hot water using only tap water until hot water DOES NOT FOAM when shaken in a small, capped jar. Absence of foam indicates that the disinfectant solution has been flushed from the coffee maker.

## STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store in a cool, dry, well-ventilated area inaccessible to children. If leak or spill occurs – ventilate area of leak or spill. Remove all sources of ignition. Dilute with water and mop-up or absorb with an inert material (e.g., vermiculite, dry sand, earth) and place in a chemical waste container.

**Pesticide Disposal:** Wastes resulting from the use of this product must be disposed of on-site or at an approved waste disposal facility. 000

[If container size is 5 gallons or less the following statement will be used:]

Container Disposal: Nonrefillable container. Do not reuse or refill this container. Triple rinse 00 container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the refraining contents into application equipment or mix tank and drain for 10 seconds after the flow begins to drip." Fill the container <sup>1</sup>/<sub>4</sub> full with water and recap. Shake for 10 seconds after the flow begins to drip. Ecococc Repeat this procedure two more times. Then offer for recycling or dispose of in a sanitary landfill.

60000

....

· Page 2

[If container size is greater than 5 gallons the following statement will be used:]

**Container Disposal:** Nonrefillable container. Do not reuse or refill this container. Triple rinse container (or equivalent) promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or mix tank. Fill the container <sup>1</sup>/<sub>4</sub> full with water. Replace and tighten closures. Tip the container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds. Stand container on its end and tip back and forth several times. Turn the container over onto its other end and tip it back and forth several times. Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Repeat the procedure two more times. Then offer for recycling or dispose of in a sanitary landfill.

#### [Optional Marketing Language]

. ..

- Disinfectant for Potable Water Tanks
- For use in conjunction with EPA guidance for Aircraft Drinking Water
- Eliminates slimy buildup and removes scale.
- Kills bacteria in potable water tanks.
