Ms. Brenda J. Pett
Morgro Chemical Company
145 West Central Avenue
Salt Lake City, Utah 84107

Dear Ms. Pett:

Subject: Label & Product Name Change
Morgro Rose Food Systemic
EPA Registration No. 42057-51
Your Submission dated October 14, 1993

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Five copies of the finished labeling must be submitted prior to releasing the product for shipment.

1. Under Precautionary Statements, following the sentence "May be fatal if swallowed" insert the following text:
.....Wash thoroughly with soap and water after handling and before eating, drinking and using tobacco. Harmful if absorbed through skin.

2. Under the Statement of Practical Treatment, for the captions "If Inhaled" and "If on skin" add "Get medical attention".

3. In reference to the Confidential Statement of Formula(CSF) please provide the upper and lower certified limits based on the pure active ingredients rather than the technical or concentrate. If you declare 1% as the nominal concentration for this product then the upper certified limit can be no greater than 10% of nominal (1.1%) and the lower limit no less than 10% of the nominal (0.99%). Please rectify and revise your CSF accordingly. Refer to CFR 40 Section 158.175 for an explanation of certified limits.

We have no objection to your request for the following additional brand for the subject product:
"Morgro Flower Food Plus System"

FLOWER FOOD
plus SYSTEMIC

FLOWERS, SHRUBS, BULBS, ROSES

Guaranteed Fertilizer Analysis
Total Nitrogen (N) 6.20% Ammoniacal Nitrogen 3.74% Urea Nitrogen Available Phosphoric Acid (P₂O₅) Soluble Potash (K₂O) Derived from Urea, Diammonium Phosphate, and Murate of Potash.

Morgro Flower Food plus Systemic Insecticide enters the plant by the roots and is translocated to all parts of the plant, killing insects, spider mites, and thrips feeding on the plant.

DIRECTIONS FOR USE
It is a violation of Federal law to use this product in a manner inconsistent with the label.
Flowers and Bulbs: (Dahlias, Iris Corms) Broadcast 4 lbs per 210 sq. ft. or 1 lb. per 60 sq. ft. of area. Work into soil before planting. Water normally after planting. Repeat before July 15 if feeding is needed.

4-lbs of Morgro-Flower-Food plus Systemic treats 240 sq ft of flower beds, 32 rose bushes, or shrubs 18" to 24" in height.

Roses: Apply 2 oz. per hybrid tea bush (18 to 24 inches in height) around drip area of application.
Chimera: Apply 2 oz. per foot of cane in early spring. Repeat before July 15th if needed.
New Plantings: Mix 2 oz. in bottom of hole before planting. Water normally after planting.
Shrubs and Evergreens: Apply as follows, based on height of plant:
1 to 3 feet 2 oz.
3 to 6 feet 4 oz.
6 to 12 feet 6 oz.

Use a shovel or pointed object (such as a stick) to make holes 4 to 6 inches deep with a spacing of approximately 12 to 18 inches apart around the plant.

STORAGE AND DISPOSAL

Precautionary Statements
(Hazards to Humans and Domestic Animals)

WARNING
Poisoning may occur as a result of exposure. **MAY BE FATAL IF SWALLOWED**. May be absorbed through skin. Do not breathe dust. Do not get on skin, in eyes or clothes. Wash hands thoroughly after handling. Keep children and pets off treated area until insecticide has been washed into soil completely. **DO NOT APPLY TO PLANTS TO BE USED FOR ANIMAL OR HUMAN CONSUMPTION** over lawn or turf areas.

STATEMENT OF PRACTICAL TREATMENT
If Swallowed — Call a physician or Poison Control Center immediately. Drink water to induce vomiting by touching back of throat with finger. Repeat until vomit fluid is clear or give anything by mouth to an unconscious person.
If Inhaled — Remove victim to fresh air. Apply artificial respiration if indicated.
If on Skin — Remove contaminated clothing and wash affected areas with soap and water.
If in Eyes — Flush eyes with plenty of water. Call a physician if irritation persists.
Note to Physician: Oxidation is a cholinesterase inhibitor. Atropine sulfate is antidote if cholinesterase inhibition are present. 2-PAM is also antidote and may be administered in conjunction with atropine.

ENVIRONMENTAL HAZARDS
This pesticide is toxic to fish, birds and other wildlife. Do not apply directly to water. Runoff from treated areas may be hazardous to fish in neighboring areas. Do not dispose of equipment washwaters.
This pesticide is toxic to bees exposed to direct application. Applications should be made during periods of minimum bee activity, usually between late evening and early morning.

NON-WARRANTY: Manufacturer or Seller makes no warranty, expressed or implied, other than for the purposes indicated on the label. Manufacturer or Seller is not liable for injury or damage caused by this product due to misuse, mishandling or any other cause not specified and recommended on the label.
