Subject: Olympic Klear Out
EPA Registration Number 42177-2
Application Date: 6/30/03
Receipt Date: 7/1/03

Dear Mr. Rosenwasser:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To update the "first aid" statement in accordance with PR Notice 2001-1

Conditions

- Under the "Precautionary Statements – Hazards to Humans and Domestic Animals" Section, delete the sentence "Only use utensils that are thoroughly clean dry".
- You must provide a "Hotline Telephone Number" under the First Aid Statement as per PR Notice 2001-1.

General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Probable mucosal damage may contraindicate the use of gastric lavage."	

NET WEIGHT: 12 lbs (5.44 Kg.)

ACCEPTED
with COMMENTS
EPA Letter Dated:

SEP 29 2003

Under the Federal Insecticide,
 Fungicide, and Rodenticide Act as
 amended, for the pesticide,
 registered under EPA Reg. No.

4A177-2

CHEMICAL HAZARDS: DANGER

Strong Oxidizing Agent. Add only into water. Use only clean dry utensils to dispense this product. Do not use this product in a container or dispensing device that has been used with any other product. Keep all foreign matter, including other pool treatment chemicals, away from this product. Do not allow to become wet or damp before use. Contamination may start a chemical reaction that can give off heat and hazardous gases and may cause a fire or explosion. Do not touch this chemical with a flame or burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material and discard container in trash. For disposal of a contaminated or decomposing product, see Emergency Handling.

EMERGENCY HANDLING

In case of contamination or decomposition – Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill.

EPA Est. No. 748-WV-1

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Klear Out is designed for the rapid control of algae and for superchlorination at time of pool opening. These quick dissolving granules will destroy most strains of unsightly algae within 24 hours. Dead algae will come rest at the pool floor. Remove by vacuuming frequently.

POOL OPENING:

For new pool or spring start up, superchlorinate with 10 to 20 ounces for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Adjust and maintain pool water pH to between 7.2 to 7.6. Adjust and maintain the alkalinity between 50 to 100 ppm.

TREATMENT OF ALGAE GROWTH:

For Visible Algae Growth - Superchlorinate the pool with 10 to 20 ounces of product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit.

NOTE: Re-entry into treated swimming pool is prohibited above levels of 3.0 ppm of chlorine.

Vinyl Pools – Pre dissolve product in a plastic bucket. Stir. Let insoluble matter settle to the bottom of the bucket. Pour liquid solution into deep end of pool. If algae persists, repeat treatment. **To control algae growth** – Superchlorinate every 7 days by adding 10 ounces of this product per 10,000 gallons of water.
