PREVENTION, PESTICIDES
AND TOXIC SUBSTANCES

Robert Rosenwasser, Agent
Alliance Packaging
109 Northpark Blvd. 4th Floor
Covington, LA. 70433

SUBJECT: February 2, 2004 Label Amendment
Olympic Klear Out
EPA Registration 42177-2

Dear Mr. Rosenwasser:

The amendment referred to above, submitted in connection with registration of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is conditionally acceptable provided the following changes are made:

1. Line up Active Ingredient at left margin.
2. Delete quotation mark under Note to Physician.
3. Under Directions for Use change second to last sentence to read Dead algae will come to rest on the pool floor.

The Confidential Statement of Formula is acceptable and is identical to the previously submitted CSF dated February 14, 1994. A copy of your conditionally accepted stamped label is enclosed. Please submit a copy of your finished label to this office for our files. If you have any questions regarding this letter, please contact Tom Luminello of my staff at (703) 308-8075.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Emily H. Mitchell".

End-use pesticide,
 in accordance with
 the FIFRA Act as
 amended, and
 under FIFRA Reg. No.

42177-2

CHEMICAL HAZARDS: DANGER

Strong Oxidizing Agent. Add only into water. Do not use this product in a container or dispensing device that has been used with any other product. Keep all foreign matter, including other pool treatment chemicals, away from this product. Do not allow to become wet or damp before use. Contamination may start a chemical reaction that can give off heat and hazardous gases and may cause a fire or explosion. Do not touch this chemical with a flame or burning material (like a lighted cigarette).

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

STORAGE AND DISPOSAL

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material and discard container in trash. For disposal of a contaminated or decomposing product, see Emergency Handling.

EMERGENCY HANDLING

In case of contamination or decomposition – Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill.

EPA Reg. No. 42177-2

EPA Est. No. 748-WV-1

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Klear Out is designed for the rapid control of algae and for superchlorination at time of pool opening. These quick dissolving granules will destroy most strains of unsightly algae within 24 hours. Dead algae will come rest ^{to} ^{on} the pool floor. Remove by vacuuming frequently.

POOL OPENING:

For new pool or spring start up, superchlorinate with 10 to 20 ounces for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit. Adjust and maintain pool water pH to between 7.2 to 7.6. Adjust and maintain the alkalinity between 50 to 100 ppm.

TREATMENT OF ALGAE GROWTH:

For Visible Algae Growth - Superchlorinate the pool with 10 to 20 ounces of product for each 10,000 gallons of water to yield 5 to 10 ppm available chlorine by weight. Check the level of available chlorine with a test kit.

NOTE: Re-entry into treated swimming pool is prohibited above levels of 3.0 ppm of chlorine.

Vinyl Pools – Pre dissolve product in a plastic bucket. Stir. Let insoluble matter settle to the bottom of the bucket. Pour liquid solution into deep end of pool. If algae persists, repeat treatment.
To control algae growth – Superchlorinate every 7 days by adding 10 ounces of this product per 10,000 gallons of water.
