

DEC 3 1992

Mr. E. J. Castagnoli
President
York Chemical Corporation
3309 E. Carpenter Freeway
Irving, TX 75062

Dear Mr. Castagnoli:

Subject: Olympic Dy-Chlor
EPA Registration No. 42177-5
Your Resubmission Dated September 3, 1992

This is in response to your resubmission to revise the label for the subject product.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended is acceptable subject to the following comment:

- o Delete "or dispose of in an approved landfill area".
- o Include a Pesticidal Disposal Statement and revise the Container Disposal Statement as indicated on the previous label submission: Precede each with the appropriate heading:

Pesticide Disposal
Container Disposal

A stamped copy of the label is enclosed for your records.

Submit five(5) copies of the revised final printed labeling for inclusion in the product file.

If you have any questions about these comments, please call Marianne Clark at (703) 305-7879.

Sincerely yours,

Ruth Douglas
Product Manager (32)
Antimicrobial Program Branch
Registration Division (H7505C)

DANGER
PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: Highly corrosive. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse.

PRACTICAL TREATMENT (FIRST AID):
If swallowed: Drink milk or water. Do NOT induce vomiting. Call a physician immediately.
If on skin: Flush with water for 15 minutes. If redness or pain persists, see a physician.
If in eyes: Flush with cold water for at least 15 minutes. Get medical attention.
If inhaled: Remove to fresh air. Call a physician.

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters unless in accordance with an NPDES Permit. For guidance, contact the regional office of the EPA.

PHYSICAL AND CHEMICAL HAZARDS:
STRONG OXIDIZING AGENT: Strong Oxidizing Agent. Mix only with water. Use clean, dry vessels. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination, do not reuse container. If possible isolate container in open air or well ventilated area. Flood with large volume of water, if necessary.

Concentrated • Stabilized

ACTIVE INGREDIENT
Sodium Dichloro S
Tri-sodium Dichloro S
INERT INGREDIENT
Available Chlorine: 56%

KEEP OUT OF REACH OF CHILDREN
DANGER
See additional precautions on side panel
NET WEIGHT: 8 lbs. (3.62 kg.)

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

- Features a dry chlorine that dissolves immediately.
- A most effective germicide and algicide.
- Will not cause cloudiness in water.
- Will not add scale forming minerals in the water.
- Will maintain your pool crystal clear.
- Flame-resistant.

This product provides a stable form of chlorine for easier maintenance of an effective chlorine residual in pool water for disinfecting action. It requires less storage space and maintains constant strength regardless of storage time. It is economical to use, in that after your pool is stabilized, you will need to apply it less often.

When starting a new pool superchlorinate to satisfy initial chlorine demand and to establish a chlorine residual of 1.0 ppm to 2.0 ppm available chlorine. To accomplish this, add 10 oz. of Olympic Dy-Chlor per 5000 gallons of pool water. When pool is clear add Olympic Pool Stabilizer at the rate of 15 lbs. per 5000 gallons to stabilize the pool.
