US ENVIRONMENTAL PROTECTION AGENCY OFFICE OF PESTICIDES PROGRAMS REGISTRATION DIVISION (TS 767) WASHINGTON, D.C. 20460		EPA REGISTRATION NO. 42177-15
NOTICE OF PESTICIDE: <input checked="" type="checkbox"/> REGISTRATION <input checked="" type="checkbox"/> REREGISTRATION (Under the Federal Insecticide, Fungicide and Rodenticide Act, as amended)		DATE OF ISSUANCE SEP 27 1994
NAME AND ADDRESS OF REGISTRANT (Include ZIP code)		TERM OF ISSUANCE
York Chemical Corporation 3309 E. Carpenter Freeway Irving, Texas 75062		NAME OF PESTICIDE PRODUCT Olympic Dy-Chlor II
NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.		
On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.		
A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.		
Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.		
Based on your response to the Reregistration Eligibility Document, EPA has reregistered the above named product subject to the comments recorded in the succeeding paragraph. This action is taken under the authority of section 4(g)(2)(C) of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended. Reregistration under this section does not eliminate the need for continual reassessment of pesticides. EPA may require submission of data at any time to maintain the registration of your product.		
Make the following labeling changes before you release the product for shipment:		
1. Refer to the enclosed Attachment A for the necessary revisions to the Precautionary Statements for the subject product.		
2. Revise the Environmental Hazards to read as follows:		
"This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant

SIGNATURE OF APPROVING OFFICIAL		DATE

authority. For guidance, contact your State Water Board or Regional Office of the EPA".

A stamped copy of the product label is enclosed for your records.

Submit one copy of the final printed labeling before releasing the product in channels of trade with the revised labeling.

Submit a revised Confidential Statement of Formula. The nominal concentration of 97.5% should be cited in Column 13(b) of the CSF. The inert ingredients of 2.5% should be cited on product CSF.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Product Manager 32
Antimicrobial Program Branch
Registration Division (7505C)

Enclosure

Attachment A - Batch 26 Products

Labeling:

1. The signal word is "Danger".

2. The Precautionary Statements should read:

"Corrosive: Cause irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin or on clothing. Do not breathe dust, vapor or spray mist. Wear goggles, face shield or safety glasses. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse".

3. The Statements of Practical Treatment should read:

"If in eyes: Hold eyelids open and flush with a steady, gentle stream of water for 15 minutes. Get medical attention".

"If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration preferably mouth-to-mouth. Get medical attention".

"If on Skin: Wash with plenty of soap and water. Get medical attention if irritation persists".

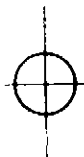

"If swallowed: Drink promptly large quantities of water. Avoid alcohol. Note to physician: Probable mucosal damage may contraindicate the use of gastric lavage. Get medical attention".

in EPA Letter Dated:

SEP 27 1994

Under the Federal Insecticide,
Fungicide, and Rodenticide Act as
amended, this pesticide
registered under EPA Reg. No.

42177-16

OLYMPIC DY-CHLOR II

Concentrated • Stabilized

ACTIVE INGREDIENT:

Sodium Dichloro-s-Triazinetrione:.....97.5%

INERT INGREDIENT:.....2.5%

Available Chlorine 62%

**KEEP OUT OF REACH OF CHILDREN
DANGER**

See additional precautions on back panel.

NET WEIGHT: 2 lbs. (907 gr.)

PRECAUTIONARY HAZARDS TO HUMANS AND

DANGER: Corrosive. Causes eye damage—wear goggles or face shield or fatal if swallowed. May cause chemical burns. Do not get in eyes.

Wash thoroughly after handling. Remove contaminated clothing prior to washing.

PRACTICAL TREATMENT (FIRST AID): In case of contact with eyes, flush with water for at least 15 minutes. Call a physician. Remove contaminated clothing prior to washing. Drink one or two glasses of water. DO NOT induce vomiting. Get medical attention.

PHYSICAL AND CHEMICAL HAZARDS: Strong oxidizing action, or result in dangerous pressure, especially if heated. Contact with water may cause fire.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish. Keep out of lakes, streams, ponds, or public water. Do not contaminate water with product only as specified on this label.

SPILL: Sweep up and while providing adequate ventilation, flush with water. Do not allow to dry.

IN CASE OF FIRE: Use water spray to cool containers exposed to flames. Do not use water directly on flames. Wear full protective clothing and self-contained breathing apparatus.

DIRECTIONS FOR

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

FOR SWIMMING POOL:

1. Condition pool with Stabilizer. Follow directions for use on label.
2. Check residual chlorine with a reliable test kit. If below 1.0 parts per million (ppm), add 1/2 ounce of Dy-Chlor II per 500 gallons. Repeat this dosage until a chlorine residual of 1.0-1.5 ppm has been achieved over pool surface, preferably at deep end.
3. Maintain residual chlorine. Add Dy-Chlor II daily or as needed to maintain this product supplies 1.0 ppm chlorine to 10,000 gallons of water. Add in hot weather or when many people are using the pool.
4. Measure pH immediately and at least once each week with a reliable test kit. pH can be decreased by adding pH Minus or increased by adding pH Plus.

SUPERCHLORINATION: It is a good practice to "superchlorinate" with Dy-Chlor II. Resume regular program when residual chlorine falls below 3.0 ppm. Pool is prohibited above levels of 3.0 ppm of chlorine. Dy-Chlor II contains a "built in" conditioner. If it is used regularly, no conditioner is needed.

FOR SPAS AND HOT TUBS:

1. To chlorinate: Add 1/2 ounce of Dy-Chlor II per 500 gallons of water. Wait 5 minutes, then check chlorine residual. Residual chlorine must read 1.0 ppm. If not, add more material should be added until it does. Once the chlorine residual is established, add 1/2 ounce of Dy-Chlor II per 500 gallons of water.
2. Maintenance: Dy-Chlor II should be added daily or as necessary to maintain residual chlorine. Should be made of residual chlorine using a reliable test kit. The product should be added at least 5 minutes mix time before sampling. Note: Heavy use of the spa or hot tub resulting in the need for more product.
3. Check pH: pH should be monitored with a reliable test kit and maintained between 7.2 and 7.6. pH can be decreased by adding pH Minus, or increased by adding pH Plus.
4. Superchlorination: It is a good practice to superchlorinate every 2 weeks for each 500 gallons of water. Thoroughly clean spa or hot tub, vacuum, and shock. Residual reads 2.0 to 3.0 ppm. NOTE: Re-entry into treated spa is prohibited until residual reads 1.0 ppm.

STORAGE AND

STORAGE INSTRUCTIONS: Store in original container and place in a cool, dry place. Do not store near food or feed by storage and disposal.

PESTICIDE DISPOSAL: Securely wrap original container in newspaper or other suitable material.

CONTAINER DISPOSAL: Do not reuse container. Rinse thoroughly with water.

GENERAL: Consult Federal, state or local disposal authorities for a complete list of restrictions. EPA REG. NO. 42177-16
