UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

JUL 16 2003

Mr. Robert Rosenwasser
Alliance Packaging
109 Northpark Blvd., 4th Floor
Covington, LA 70433

Subject: Olympic Dy-Chlor II
EPA Registration Number 42177-16
Application Date: May 19, 2003
Receipt Date: May 20, 2003

Dear Mr. Rosenwasser:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To update your Confidential Statement of Formula (See CSF dated 5/19/03).
- To update the "first aid" statement in accordance with PR Notice 2001-1.
- To update the Precautionary Statements, Environmental Hazards, Physical and Chemical Hazards, and Storage and Disposal Statement.

Conditions

1. You must provide a "Hotline Telephone Number" under the First Aid Statement as per PR Notice 2001-1.
2. Revise the "Environmental Hazards Statement" to read:

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA".

General Comments

The percentage of the active ingredient has been revised for this product. In the future, when there is such a revision it would be helpful if you explained the reason for the change.

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Delores Williams at (703) 308-6372.

Sincerely,

Robert S. Brennis
Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510C)

OLYMPIC DY-CHLOR II

Concentrated • Stabilized

Active Ingredient:
Sodium Dichloro-s-Triazinetrione:..... 97.0%
Inert Ingredients:.....3.0%
Total: 100%
Available Chlorine: 62%

KEEP OUT OF REACH OF CHILDREN

DANGER

SEE FIRST AID AND PRECAUTIONS ON SIDE PANEL

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE. Causes irreversible eye damage. May be fatal if inhaled. Harmful if swallowed or absorbed through skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust, vapor or spray mist. Irritating to nose and throat. Wear goggles or face shield when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash before reuse.

FIRST AID	
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If swallowed	<ul style="list-style-type: none"> • Call poison control center, or doctor immediately for treatment advice. • Have person sip a glass of water if able to swallow. • Do not induce vomiting unless told to do so by the poison control center or doctor. • Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
NOTE TO PHYSICIAN Probable mucosal damage may contraindicate the use of gastric lavage.	

ACCEPTED NET WEIGHT: 2 lbs (907 gr.)
 with COMMENTS
 EPA Letter Dated:

JUL 16 2003

Under the Federal Insecticide,
 Fungicide, and Rodenticide Act as
 amended for the pesticide,
 registered under EPA Reg. No.

42177-16

3/5

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

PHYSICAL AND CHEMICAL HAZARDS:

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

FOR SWIMMING POOLS

Condition pool with stabilizer. Follow directions for use on label stabilizer. Omit if this was done previously. Check residual chlorine with a reliable test kit. If below 1.0 ppm add 10 ounces of DY-CHLOR II per 10,000 gallons. Repeat this dosage until a chlorine residual level of 1.0 to 1.5 ppm has been established. Add product to water by broadcasting over pool surface, preferably at deep end. Maintain residual chlorine. Add DY-CHLOR II daily or as needed to maintain 1.0 to 1.5 ppm residual chlorine. (Two ounces of this product supplies 10 ppm chlorine to 10,000 gallons of water.) Additional dosages may be required during excessively hot weather or when many people are using the pool.

Measure pH immediately and at least once each week with a reliable pool test kit. Adjust pH to 7.2 – 7.8 as necessary. pH can be decreased by adding a pH minus product or increased by adding a pH plus product. Follow directions for use on labels of these products.

SUPERCHLORINATION

It is a good practice to superchlorinate every 2-4 weeks. To superchlorinate, add 10 ounces DY-CHLOR II. Resume regular program when residual chlorine level falls to 1.0 -1.5 ppm.

NOTE: Re-entry into treated swimming pools is prohibited above levels of 3.0 ppm of chlorine.

FOR SPAS AND HOT TUBS

To chlorinate: Add ½ ounce of DY-CHLOR II per 500 gallons of water to the water prior to entering the spa or hot tub. Wait 5 minutes, then check the chlorine residual. Residual chlorine must read between 2 to 3 ppm. If it does not, additional dosages of material should be added until it does. Once the chlorine residual is established in the 2.0 to 3.0 ppm range, the water may be entered.

Maintenance: DY-CHLOR II should be added daily or as necessary to maintain 2.0 to 3.0 ppm residual chlorine. Frequent checks should be made of residual chlorine using a reliable test kit. The product should be broadcast over the surface of the water and allowed at least 5 minutes mix time before sampling. Note: Heavy bather usage or the use of oils or lotions may increase the chlorine demand of the spa or hot tub resulting in the need for more frequent checks on chlorine residual. Check pH: pH should be monitored with a reliable test kit and maintained in the 7.2 to 7.8 range for clean, sparkling water. pH can be decreased by adding a pH minus product or increased by adding a pH plus product. Follow directions for use on labels of these products.

4/5

Superchlorination: It is a good practice to superchlorinate every 2-4 weeks. To superchlorinate, add 1 ounce DY-CHLOR II for each 500 gallons of water. Thoroughly clean spa or hot tub, vacuum and cycle through filter. Resume program when chlorine residual reads 2.0-3.0 ppm.

NOTE: Re-entry into treated spa is prohibited above levels of 3.0 ppm of chlorine.

HOW TO CALCULATE POOL CAPACITY

SHAPE OF POOL	GAL. OF WATER(in Ft.)
Rectangular.....	Average depth X average length X average width X 7.5
Circular.....	Diameter X diameter X average depth X 5.9
Oval with..... straight sides	Full width X full length X average depth X 5.9
Irregular.....	Consult pool builder

STORAGE AND DISPOSAL

Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large volumes of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal.

CONTAINER DISPOSAL: Do not reuse container, but place in trash collection. Rinse thoroughly before discarding.
