OFFICE OF
CHEMICAL SAFETY AND
POLLUTION PREVENTION

Richard Hanlon, Chemical Product Manager
Alliance Trading, Inc
109 Northpark Blvd , 4th Floor
Covington, LA 70433

Subject Olympic Chlorinated Tablets 3"
EPA Registration Number 42177-18
Application Date March 11, 2011
Receipt Date March 16, 2011

Dear Mr Hanlon

This acknowledges receipt of your Notification submitted in accordance with the provisions of PR Notice 98-10 under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) section 3(c)9

Proposed Notification

Change heading "For Swimming Pools" to "Swimming Pool Sanitizer"
Copies of your alternate brand labels are not necessary and have been filed

General Comments

Based on a review of the material submitted, the notification is acceptable

Please submit a finished label with the revised language to this Office for our files. If you have questions concerning this letter, please contact Tom Luminello by telephone, (703) 308-8075, or by e-mail at luminello.tom@epa.gov

Sincerely,

A handwritten signature in black ink, appearing to read "Tom Luminello", is written over the typed name. To the left of the signature is a small, stylized handwritten mark that looks like "for".

Wanda Y Henson
Acting Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510-P)

Please read instructions on reverse before completing form

FIRST AID

IF IN EYES Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a poison control center or doctor or going for treatment.

IN CASE OF MEDICAL EMERGENCY, CALL 1-800-255-3924

NOTE TO PHYSICIAN Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER HIGHLY CORROSIVE Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

{ for all package sizes under 50 lbs }

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms

{ for all package sizes 50 lbs and over }

ENVIRONMENTAL HAZARDS This pesticide is toxic to fish and aquatic organisms Do not discharge effluent containing this product into lakes ponds, streams estuaries, oceans or public waters unless in accordance with the requirements of a National Pollution Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority For guidance contact your State Water Board or Regional Office of the EPA

PHYSICAL AND CHEMICAL HAZARDS Strong Oxidizing Agent Do not mix with other chemicals Mix only with water Never add water to product Always add product to large quantities of water When using automatic feeding devices always follow manufacturer s directions as to the proper addition of sanitizer product to chlorinators Use clean dry utensils Do not add this product to any dispensing device containing remnants of any other product Such use may cause a violent reaction leading to fire or explosion Contamination with moisture organic matter or other chemicals will start a chemical reaction and generate heat hazardous gas possible fire and explosion In case of contamination or decomposition do not reseal container If possible isolate container in open air or well ventilated area Flood with large volumes of water

SWIMMING POOL SANITIZER

When used as directed this product is an effective stabilized chlorine This slow dissolving product releases sufficient chlorine to reduce the growth of harmful algae and micro-organisms in your pool

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling Read entire label and use strictly In accordance with precautionary statements and directions Ensure all pool equipment is working properly Backwash the filter system following manufacturer's instructions Adjust pH to between 7.2-7.6 Add stabilizer to establish a minimum stabilizer level of 30-40 ppm to reduce the radiative effects of sunlight upon the chlorine residual Superchlorinate the pool so that a chlorine residual of between 1-3 ppm is obtained When using other products as outlined in directions for this product always follow directions on those products

WHEN USED IN AUTOMATIC CHLORINATORS AND FLOATERS This product can be used in feeding mechanisms such as automatic chlorinators and floaters as a maintenance treatment Fill unit with this product and adjust the feeding mechanism to assure a constant treatment level of 1-3 ppm available chlorine in the pool water Normally 1-2 ounces of this product per 10 000 gallons will be needed daily Use a test kit or test strips to monitor chlorine levels and adjust the chlorine feed mechanism as needed Check and refill chlorinator as needed Do not let this product come in direct contact with vinyl liners or other bleachable surfaces as damage may occur

WHEN USED IN SKIMMERS This product may be used in plastic skimmers only if skimmer and piping are plastic Do not add other chemicals through the skimmer when using this product in skimmer as an explosion or fire may result Do not turn pump off for more than 8 hours in vinyl pools when pucks are in skimmer Initially add one of this product per 10 000 gallons of water Add additional product as determined by test kit or test strips to maintain chlorine residual of 1-3 ppm

REENTRY Reentry into treated pools is prohibited above 3 ppm chlorine due to risk of bodily injury

{ these storage and disposal directions were preapproved on 4-7-10 by Jeanne Kasai, EPA}

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
DANGER - HIGHLY CORROSIVE. Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms.

PHYSICAL AND CHEMICAL HAZARDS Strong Oxidizing Agent. Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. When using automatic feeding devices, always follow manufacturer's directions as to the proper addition of sanitizer product to chlorinators. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals will start a chemical reaction and generate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water.

SWIMMING POOL SANITIZER

When used as directed, this product is an effective stabilized chlorine. This slow dissolving product releases sufficient chlorine to reduce the growth of harmful algae and micro organisms in your pool.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions.

Ensure all pool equipment is working properly. Backwash the filter system following manufacturer's instructions. Adjust pH to between 7.2-7.6. Add stabilizer to establish a minimum stabilizer level of 30-40 ppm to reduce the radiative effects of sunlight upon the chlorine residual. Superchlorinate the pool so that a chlorine residual of between 1-3 ppm is obtained. When using other products as outlined in directions for this product, always follow directions on those products.

WHEN USED IN AUTOMATIC CHLORINATORS AND FLOATERS This product can be used in feeding mechanisms such as automatic chlorinators and floaters as a maintenance treatment. Fill unit with this product and adjust the feeding mechanism to assure a constant treatment level of 1-3 ppm available chlorine in the pool water. Normally, 1-2 ounces of this product per 10,000 gallons will be needed daily. Use a test kit or test strips to monitor chlorine levels and adjust the chlorine feed mechanism as needed. Check and refill chlorinator as needed. Do not let this product come in direct contact with vinyl liners or other bleachable surfaces as damage may occur.

WHEN USED IN SKIMMERS This product may be used in plastic skimmers only if skimmer and piping are plastic. Do not add other chemicals through the skimmer when using this product in skimmer as an explosion or fire may result. Do not turn pump off for more than 8 hours in vinyl pools when pumps are in skimmer. Initially add one of this product per 10,000 gallons of water. Add additional product as determined by test kit or test strips to maintain chlorine residual of 1-3 ppm.

REENTRY Reentry into treated pools is prohibited above 3 ppm chlorine due to risk of bodily injury.

STORAGE AND DISPOSAL

STORAGE Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not contaminate water, food, or feed by storage or disposal or cleaning of equipment.

DISPOSAL Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Rinse empty container thoroughly with water to dissolve all material prior to disposal.

FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT, SEE EMERGENCY HANDLING.

EMERGENCY HANDLING In case of contamination or decomposition - Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

Note: Buyer assumes all responsibility for safety and use not in accordance with directions.

REENTRY Reentry into treated pools is prohibited above 3 ppm chlorine due to risk of bodily injury

STORAGE AND DISPOSAL

STORAGE Keep this product dry in its tightly closed container when not in use Store in a cool dry well ventilated area Keep away from heat or open flame Do not contaminate water food or feed by storage or disposal or cleaning of equipment

DISPOSAL Nonrefillable container Do not reuse or refill this container Offer for recycling if available Rinse empty container thoroughly with water to dissolve all material prior to disposal

FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT SEE EMERGENCY HANDLING

EMERGENCY HANDLING In case of contamination or decomposition - Do not reseal container Immediately remove container to an open and well ventilated outdoor area by itself Flood with large amounts of water Dispose of the container and any remaining contaminated material in an approved landfill area

Note Buyer assumes all responsibility for safety and use not in accordance with directions

Large 3" Tablets

Active Ingredient:
Trichloro-s-triazinetrione 99%
Inert Ingredients 1%
Total 100%
Available Chlorine: 90%

KEEP OUT OF REACH OF CHILDREN
DANGER
See first aid and additional precautions on back panel

NET WT 25 LBS (11.3 kg)

FIRST AID

IF IN EYES Hold eye open and unse. lowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

IF INHALED Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth to mouth, if possible. Call a poison control center or doctor for further treatment advice.

IF SWALLOWED Call poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. Have the product container or label with you when calling a poison control center or doctor or going for treatment.

IN CASE OF MEDICAL EMERGENCY CALL 1 800 255 3924

NOTE TO PHYSICIAN Probable mucosal damage may contraindicate the use of gastric lavage.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER HIGHLY CORROSIVE Causes skin and eye damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or safety glasses and rubber gloves when handling this product. Irritating to nose and throat. Avoid breathing dust and fumes. Remove and wash contaminated clothing before reuse.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish and aquatic organisms.

PHYSICAL AND CHEMICAL HAZARDS Strong Oxidizing Agent. Do not mix with other chemicals. Mix only with water. Never add water to product. Always add product to large quantities of water. When using automatic feeding devices, always follow manufacturer's directions. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals will start a chemical reaction and generate heat. Hazardous gas, possibly fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water.

SWIMMING POOL SANITIZER

When used as directed, this product is an effective stabilized chlorine. This slow dissolving product releases sufficient chlorine to reduce the growth of harmful algae and micro organisms in your pool.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. Read entire label and use strictly in accordance with precautionary statements and directions. Ensure all pool equipment is working properly. Backwash the filter system following manufacturer's instructions. Adjust pH to between 7.2-7.6. Add stabilizer to establish minimum stabilizer level of 30-40 ppm to reduce the radiative effect of sunlight upon the chlorine residual. Superchlorinate the pool so that a chlorine residual of between 1-3 ppm is obtained. When using other products as outlined in directions for this product, always follow directions on those products.

WHEN USED IN AUTOMATIC CHLORINATORS AND FLOATERS This product can be used in feeding mechanisms such as automatic chlorinators and floaters as a maintenance treatment. Fill unit with this product and adjust the feeding mechanism to assure a constant treatment level of 1-3 ppm available chlorine in the pool water. Normally, 1-2 ounces of this product per 10,000 gallons will be needed daily. Use a test kit or test strips to monitor chlorine levels and adjust the chlorine feed mechanism as needed. Check and refill chlorinator as needed. Do not let this product come in direct contact with vinyl liners or other bleachable surfaces as damage may occur.

WHEN USED IN SKIMMERS This product may be used in plastic skimmers only if skimmer and piping are plastic. Do not add other chemicals through the skimmer when using this product in skimmer as an explosion or fire may result. Do not turn pump off for more than 8 hours in vinyl pools when pumps are in skimmer. Initially add one of this product per 10,000 gallons of water. Add additional product as determined by test kit or test strips to maintain a chlorine residual of 1-3 ppm.

REENTRY Reentry into treated pools is prohibited above 3 ppm chlorine due to risk of bodily injury.

STORAGE AND DISPOSAL

STORAGE Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well ventilated area. Keep away from heat or open flame. Do not contaminate water, food, or feed by storage or disposal or cleaning of equipment.

DISPOSAL Nonrefillable container. Do not reuse or refill this container. Offer for recycling if available. Rinse empty container thoroughly with water to dissolve all material prior to disposal. FOR DISPOSAL OF A CONTAMINATED OR DECOMPOSING PRODUCT, SEE EMERGENCY HANDLING.

EMERGENCY HANDLING In case of contamination or decomposition - Do not reseal container. Immediately remove container to an open and well ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill area.

Note: Buyer assumes all responsibility for safety and use not in accordance with directions.
