Irving, TX 75062

Attention: E.J. Castagnoli
President

Gentlemen:

Subject: Jack Frost Winter Argaecide
EPA Registration No. 42177-20
Your Submission Dated February 14, 1989

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, is acceptable provided that you:

1. Make the following labeling revision before you release the product for shipment bearing the amended labeling.
 - Either use the complete product name (Jack Frost Winter Argaecide) throughout the labeling where reference is made to the name or refer to it as "this product." (See item 8 in our previous letter.)
2. Submit the final printed labeling for inclusion in the product file.

Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

PRECAUTIONARY STATEMENT

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed. Avoid breathing vapors with skin, eyes, or clothing.

STATEMENT OF PRACTICAL TREATMENT (First Aid)

If swallowed:—Rinse mouth with large amounts of water. DO NOT induce vomiting. Avoid eating or drinking.

If in eyes:—Flush with plenty of water for 15 minutes. Get medical attention.

If on skin:—Wash with plenty of soap and water. Get medical attention.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish, lakes, streams, ponds, or public water. Permits may be required to discharge containing this pesticide into lakes, streams, or ponds. For guidance, contact the regional office of the Environmental Protection Agency.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Winter Algaecide will prevent the growth of most algae in pools during the winter months when pools are not in use. For pools not treated during the swimming season, add 1 to 3 1/2 to 6 pints of algaecide per 10,000 gallons of water to prevent some visible algae growth at the end of the swimming season. Add 1 to 3 pints of algaecide per 10,000 gallons of water. Apply algaecide uniformly throughout the pool for maximum effectiveness. If the pool is not covered, it may be necessary to treat one or more times during the season.

Winter Algaecide is compatible with those chemicals used in pools treated with chlorine chemicals and maintain those chemicals normally required. However, do not use with concentrated dry or liquid chlorine products.

STORAGE & DISPOSAL

STORAGE: Keep container closed when not in use. Containers should be placed in a plastic bag and disposed of with clear water. All pesticides should be kept and stored away from food.

DISPOSAL: Do not reuse empty container. Rinse and discard in trash.
