UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

July 9, 2004

Robert Rosenwasser Agent for SCP Distributors, LLC Alliance Trading, Inc. 109 Northpark Blvd, 4th Floor Covington, LA 70433

Subject:

Olympic Granular 90

EPA Registration No. 42177-26 Application Date: June 14, 2004 Receipt Date: June 16, 2004

Dear Mr. Rosenwasser:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

Proposed Notification

addition of alternate brand name "Pool Season Chlorinating Concentrate 90"

General Comments

Based on a review of the material submitted, the following comments apply:

The notification application is acceptable and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6345.

Sincerely,

Wanda Y. Mitchell Product Reviewer (32) Regulatory Management Branch II Antimicrobials Division (7510C)

RE: Olympic Granular 90 (EPA Reg. No. 42177-26) OPP# 301023

NOTIFICATION OF ADDITION OF ALTERNATE BRAND NAMES PER PR NOTICE 98-10

Alliance Trading, Inc., 109 Northpark Blvd., 4th Floor, Covington, LA 70433 is submitting this notification to **add one alternate brand name** to our Olympic Granular 90 registration (EPA Reg. No. 42177-26).

The name of this alternate brand is:

Pool Season Chlorinating Concentrate 90

"This notice is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

Please find enclosed:

- An application form that includes the required notification language.
- One copy of the label with the alternate brand name.

If you need additional information, please feel free to call me at (201) 242-6577.

Since yely yours

Robert Rosenwasser

Agent for Alliance Trading, Inc.

CHLORINATING CONCENTRATE 90

Concentrated • Stabilized

Active Ingredient:

Trichloro-s-triazinetrione: 99%

Other Ingredients: 1%

Total: 100%

Available Chlorine: 90%

KEEP OUT OF REACH OF CHILDREN **DANGER**

SEE FIRST AID AND PRECAUTIONS ON SIDE PANEL

NET WEIGHT: 25 lbs (11.3 kg.)

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

DANGER: CORROSIVE. Causes irreversible eye damage. May be fatal if absorbed through skin. May be fatal if inhaled. Do not breathe dust or spay mists. Irritating to nose and throat. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield when handling this product. Wash thoroughly with soap and water after handling and before eating, drinking or using tobacco. Remove contaminated clothing and wash separately before reuse.

FIRST AID				
If in eyes	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.			
If inhaled	 Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control center or doctor for further treatment advice. 			
If on skin or clothing	 Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice. 			
If swallowed	 Call poison control center, or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person. 			
poison contro	ct container or label with you when calling a ol center or doctor, or going for treatment. EDICAL EMERGENCY, CALL 1-800-255-3924			
"Note to Physic	NOTE TO PHYSICIAN ian: Probable mucosal damage may contraindicate the use of gastric lavage."			

486

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

PHYSICAL AND CHEMICAL HAZARDS:

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

SPECIAL PRECAUTIONS

- 1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
- Prolonged contact between this product in its undissolved state and vinyl liners or painted surfaces, will result in bleaching of the vinyl or paint. Introduce this product through the skimmer or in a prescribed feeder to avoid discoloration of liner or paint.
- When adding this product to skimmer or feeder make sure there are no other chemicals present as a violent reaction may occur. It is always dangerous to mix chemicals.
- Use the product as directed as per instructions on label. Do not take advice from others or experiment by yourself.
- 5. If the product is used to shock or superchlorinate a pool, after treatment it is important to brush walls and pool floor to expose algae that may be in cracks or wrinkles that might protect from high chlorine residual. Such protected algae will begin to reproduce again when high chlorine residual falls.
- 6. This product, because of its potent formulation, can be dangerous if not used properly. Do not mix with any

7. other chemicals. This could lead result in a violent chemical reaction. Do not add water to this product in a closed container. Do not add this product in a small amount of water in a pail. When adding this product to skimmer make sure pump is on and water is circulating so that material is drawn into recirculation system. Do not allow buildup of dry material

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

FOR SWIMMING POOLS

When starting up a new pool, superchlorinate to satisfy chlorine demand and to establish a chlorine residual of 1.0 to 1.5 ppm available chlorine. Add 1-1 ½ ounces of this product per 1,000 gallons which will provide 6.7 to 10 ppm available chlorine. Test with a reliable chlorine test kit. Bathers should not be allowed to enter the pool until the chlorine residual has dropped to 3.0 ppm or less. The next morning, add conditioner and stabilizer (cyanuric acid), according to the directions on the label, to stabilize the pool.

This product should be added daily or as needed at the rate of ½ to ½ ounce per 1,000 gallons of pool water to maintain a chlorine residual at all times of 1.0 ppm to 1.5 ppm as determined by a suitable test kit. The pH should be maintained between 7.2 and 7.6. Proper dosage should be broadcast over deep end of pool or added through the skimmer slowly. Do not mix in a pail. A shock treatment should be made every week during hot weather or after heavy rains. Less frequent shock treatments may be made during cooling weather. For shock treatment, add 1 ½ ounces of this product per 1,000 gallons of pool water which will provide 10 ppm available chlorine.

NOTE: Re-entry into treated swimming pools is prohibited above levels of 3.0 ppm of chlorine.

4

Keep in mind that slight flexibility must be maintained in the event of heavy accumulations of dust and dirt caused by storms or super heavy bathing loads which require additional dosages as needed to maintain the chlorine residual between 1.0 ppm and 1.5 ppm.

STORAGE AND DISPOSAL

Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large volumes of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal.

CONTAINER DISPOSAL: Do not reuse container, but place in trash collection. Rinse thoroughly before discarding.
