Subject: Olympic Pool Chlor 65  
EPA Registration Number 42177-53  
Application Date: 6/30/03  
Receipt Date: 7/1/03

Dear Mr. Rosenwasser:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To update the 'first aid' statement in accordance with PR Notice 2001-1

#### Conditions

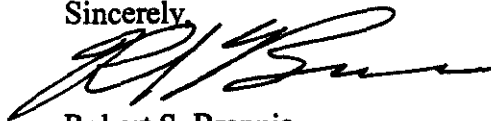

- Under the "Precautionary Statements - Hazards to Human and Domestic Animals" Section, delete the sentence "Only use utensils that are thoroughly clean dry".
- You must provide a "Hotline Telephone Number" under the First Aid Statement as per PR Notice 2001-1.

#### General Comments

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Delores Williams at (703) 308-6372.

Sincerely,

Robert S. Brennis

## POOL CHLOR 65

Disinfectant & Sanitizer for the Treatment of  
Swimming Pool Waters

**Active Ingredient:**

Calcium Hypochlorite..... 67.0%

Inert Ingredients..... 33.0%

Total: ..... 100%

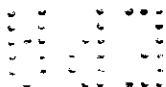

Available Chlorine: 65%

**KEEP OUT OF REACH OF CHILDREN**  
**DANGER**

Contamination or improper use may cause fire or explosion.  
Do not contaminate with any foreign matter, including other pool  
treatment products. Add only to water. Read all precautionary  
statements on back label and First Aid statements before use.

**PRECAUTIONARY STATEMENTS**  
**HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**DANGER: HIGHLY CORROSIVE.** Causes skin and eye damage.  
May be fatal swallowed. Do not get in eyes, on skin, or on  
clothing. Do not handle with bare hands. Wear goggles or face  
shield and use rubber gloves when handling. Only use utensils  
that are thoroughly clean dry. Irritating to nose and throat. Avoid  
breathing dust or fumes. Remove contaminated clothing and  
wash before reuse.

FIRST AID	
If in eyes	<ul style="list-style-type: none"><li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li><li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
If on skin or clothing	<ul style="list-style-type: none"><li>• Take off contaminated clothing.</li><li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
If swallowed	<ul style="list-style-type: none"><li>• Call poison control center, or doctor immediately for treatment advice.</li><li>• Have person sip a glass of water if able to swallow.</li><li>• Do not induce vomiting unless told to do so by the poison control center or doctor.</li><li>• Do not give anything by mouth to an unconscious person.</li></ul>
If inhaled	<ul style="list-style-type: none"><li>• Move person to fresh air.</li><li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible.</li><li>• Call a poison control center or doctor for further treatment advice.</li></ul>
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.	
<b>NOTE TO PHYSICIAN</b> Probable mucosal damage may contraindicate the use of gastric lavage.	

**NET WEIGHT: 25 lbs (11.3 Kg.)**

ACCEPTED  
with COMMENTS  
EPA Letter Dated:

SEP 29 2003

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act as  
amended, for the pesticide,  
registered under EPA Reg. No.

42177-53

### **CHEMICAL HAZARDS: DANGER**

Strong Oxidizing Agent. Add only into water. Use only clean dry utensils to dispense this product. Do not use this product in a container or dispensing device that has been used with any other product. Keep all foreign matter, including other pool treatment chemicals, away from this product. Do not allow to become wet or damp before use. Contamination may start a chemical reaction that can give off heat and hazardous gases and may cause a fire or explosion. Do not touch this chemical with a flame or burning material (like a lighted cigarette).

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish and aquatic organisms.

### **STORAGE AND DISPOSAL**

Keep this product dry in its tightly closed container when not in use. Store in a cool, dry, well-ventilated area. Keep away from heat or open flame. Do not reuse empty container. Rinse empty container thoroughly with water to dissolve all material and discard container in trash. For disposal of a contaminated or decomposing product, see Emergency Handling.

### **EMERGENCY HANDLING**

In case of contamination or decomposition – Do not reseal container. Immediately remove container to an open and well-ventilated outdoor area by itself. Flood with large amounts of water. Dispose of the container and any remaining contaminated material in an approved landfill.

**Manufactured for:**  
**Alliance Packaging**  
**109 Northpark Blvd, 4<sup>th</sup> Floor**  
**Covington, LA 70433**  
**EPA Reg. No. 42177-53**  
**EPA Est. No. 748-WV-1**

### **DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

**Pool Chlor 65** is designed for the rapid control of algae and for superchlorination at time of pool opening. These quick dissolving granules will destroy most strains of unsightly algae within 24 hours. Dead algae will come rest at the pool floor. Remove by vacuuming frequently.

### **AT TIME OF POOL OPENING:**

Superchlorinate to satisfy initial chlorine demand of raw water. Apply one ounce of Pool Chlor 65 for each 1,000 gallons of water. After superchlorination maintain chlorine residual at 1.0 to 1.5 ppm by using a suitable test kit. Test pH frequently. Always maintain pH between 7.2 and 7.6 determined by a test kit.

### **REGULAR MAINTENANCE:**

**In pools without stabilizer** – If algae develops with resulting greenish color and slimy feeling, Pool Chlor 65 is necessary. Apply two ounces per 1,000 gallons of water by broadcasting granules directly across the surface of the pool. Before allowing swimmers to re-enter pool, check chlorine level with appropriate test kit.

**Vinyl pools** – Pre-dissolve Pool Chlor 65 in a plastic bucket of water, *adding the product to the water*. Stir, then let insoluble material settle to bottom of bucket. Pour liquid solution into deep end of pool. If algae persists, repeat treatment.

**NOTE:** Re-entry into treated swimming pool is prohibited above levels of 3.0 ppm of chlorine.

Continue application of regular maintenance chlorine per directions on regular chlorine container label. Test pH frequently. Always maintain pH between 7.2 and 7.6.

**In pools with stabilizers** – In pools stabilized with cyanuric acid or with chlorine concentrate, period superchlorination is necessary to control algae. Superchlorinate by adding one ounce of Pool Chlor 65 per 1,000 gallons of water every seven days when the average pool temperature is above 80°F, or one ounce per gallon per 1,000 gallons every 14 days when the average pool temperature is below 80°F. Follow other directions above.
