Mr. Robert Rosenwasser
Alliance Packaging
109 Northpark Blvd., 4th Floor
Covington, LA 70433

Subject: Olympic Power Shock Plus
EPA Registration Number 42177-58
Application Date: May 19, 2003
Receipt Date: May 20, 2003

Dear Mr. Rosenwasser:

The following amendment, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is acceptable with the conditions listed below:

- To update your Confidential Statement of Formula (See CSF dated 5/19/03).
- To update the "first aid" statement in accordance with PR Notice 2001-1.
- To update the Precautionary Statements, Environmental Hazards, Physical and Chemical Hazards, and Storage and Disposal Statement.

Conditions

1. You must provide a "Hotline Telephone Number" under the First Aid Statement as per PR Notice 2001-1.
2. Revise the "Environmental Hazards Statement" to read:

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA".

General Comments

The percentage of the active ingredient has been revised for this product. In the future, when there is such a revision it would be helpful if you explained the reason for the change.

A stamped copy of the accepted labeling is enclosed. Submit three (3) copies of your final printed labeling before distributing or selling the product bearing the revised labeling.

Should you have any questions or comments concerning this letter, please contact Delores Williams at (703) 308-6372.

Sincerely,

Robert S. Brennis
Product Manager 32
Regulatory Management Branch II
Antimicrobials Division (7510C)

POWER SHOCK PLUS

Destroys Algae
In Swimming Pools

Active Ingredient:
Sodium Dichloro-s-Triazinetrione:..... 97.0%
Inert Ingredients:.....3.0%
Total: 100%
Available Chlorine: 62%

KEEP OUT OF REACH OF CHILDREN

NET WEIGHT: 2 lbs (907 gm) EPA Letter Dated:

JUL 16 2003

Under the Federal Insecticide,
Fungicide and Rodenticide Act as
amended for the pesticide,
registered under EPA Reg. No.

42177-58

7/2

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

PHYSICAL AND CHEMICAL HAZARDS:

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. When use as directed POWER SHOCK PLUS kills all types of pool algae and will destroy algae on your pool walls.

Turn off filter pump and brush wall clinging algae vigorously. Allow the pool water to become stationary. For heavy algae growth, add one per ten thousand gallons of water by sprinkling material where algae growth appears, both over the water's surface and along pool walls. Turn the pump back on after 2-4 hours.

NOTE: Re-entry into treated swimming pool/spa is prohibited above levels of 3.0 ppm of chlorine.

Remove dead algae after treatment (usually the next morning), by brushing or scraping. If visible living algae still exist after brushing, repeat treatment with POWER SHOCK PLUS.

STORAGE AND DISPOSAL

Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large volumes of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal.

CONTAINER DISPOSAL: Do not reuse container, but place in trash collection. Rinse thoroughly before discarding.
