RE: Olympic Granular Algae-Out (EPA Reg. No. 42177-67) OPP# 292452

**NOTIFICATION OF ADDITION OF ALTERNATE BRAND NAMES AND ADDITION OF HOTLINE
TELEPHONE NUMBER TO AMENDED FIRST AID STATEMENTS PER PR NOTICE 98-10**

Alliance Packaging, 109 Northpark Blvd., 4th Floor, Covington, LA 70433 is submitting this notification to **add two alternate brand names** to our Olympic Granular 90 registration (EPA Reg. No. 42177-67). Additionally, Alliance is adding a Hotline Telephone Number to its previously approved First Aid amendment of June 25, 2003.

The names of these **alternate brands** are:

- **Regal Granular Algae-Out**
- **E-Z Clor Granular Algae-Out**

The Hotline Telephone Number text is: **IN CASE OF MEDICAL EMERGENCY, CALL 1-800-255-3924.** and follows the approved text, "Have the product container or label with you when calling a poison control center or doctor, or going for treatment."

"This notice is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

Please find enclosed:

- An application form that includes the required notification language.
- One copy of each label with the primary and alternate brand names and hotline phone number.

If you need additional information, please feel free to call me at (201) 242-6577.

Sincerely yours,

Robert Rosenwasser
Agent for SCP Distributors (Alliance Packaging)

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

PHYSICAL AND CHEMICAL HAZARDS:

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

PREVENTION OF PROPERTY DAMAGE: Contact between this product in its undissolved state and vinyl liners, painted surfaces, or other property in and around the pool will result in permanent bleaching of the color.

SPECIAL PRECAUTIONS

1. This product has a powerful chlorine odor. Hold away from face when opening to avoid breathing fumes.
2. Use the product as instructed on the label. Do not take advice from others or experiment by yourself.
3. This product, because of its potent formulation, can be dangerous if not used properly. Do not mix with any other chemicals. Doing so could lead result in a violent chemical reaction. Do not add water to this product in a closed container. Do not add water to this product in a small amount of water in a pail.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

INITIAL DOSAGE: The pH of the pool water should be adjusted to 7.4 to 7.6 before applying this product. For light algae growth, use 7 ounces per 10,000 gallons of water. For heavy algae growth, use 14 ounces per 10,000 gallons of water. Twelve to twenty-four hours after

treatment, remove dead algae growth by brushing or scraping. Expose algae in cracks or wrinkles which may have been protected from the high chlorine residual. It will begin to reproduce again as the chlorine residual falls. If living algae is still visible after brushing, repeat treatment.

NOTE: Re-entry into treated swimming pool is prohibited above levels of 3.0 ppm of chlorine.

Use one of the following methods of application:

SKIMMER METHOD: Use this method to avoid bleaching vinyl liner, fiberglass or paint. Empty skimmer of all chemicals and debris. Make sure that pump and filter are on and that water is properly recirculating through skimmer. Remove any chemicals that may be in an in-line automatic feeder. Pour this product slowly into skimmer, making sure that the material is drawn into the system at the same rate. Do not allow this material to accumulate as gases generated may cause an explosion.

BROADCAST METHOD: Shut off filter pump, brush wall-clinging algae vigorously, then allow pool water to become stationary. Broadcast over surface of water where algae growth appears in the evening or when the pool is not in use. Use skimmer method to prevent bleaching of colored surfaces.

STORAGE AND DISPOSAL

Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large volumes of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal.

CONTAINER DISPOSAL: Do not reuse container, but place in trash collection. Rinse thoroughly before discarding.
