Subject: E Z Chlor Lithium Hypochlorite
EPA Registration No. 42177-78
Application Date: July 7, 2004
Receipt Date: July 7, 2004

Dear Mr. Rosenwasser:

This acknowledges receipt of your notification, submitted under the provision of PR Notice 98-10, FIFRA section 3(c)9.

Proposed Notification

- addition of two (2) alternate brand names: "Pool Season Lithium Hypochlorite"
"Regal LTM"

General Comments

Based on a review of the material submitted, the following comments apply:

The notification application is acceptable and a copy has been inserted in your file for future reference.

Should you have any questions or comments concerning this letter, please contact me at (703) 308-6345.

Sincerely,

Wanda Y. Mitchell
Product Reviewer (32)

RE: E Z Clor Lithium Hypochlorite (EPA Reg. No. 42177-78) OPP# 301060

NOTIFICATION OF ADDITION OF ALTERNATE BRAND NAMES PER PR NOTICE 98-10

Alliance Trading, Inc., 109 Northpark Blvd., 4th Floor, Covington, LA 70433 is submitting this notification to **add two alternate brand names** to our **E Z Clor Lithium Hypochlorite (EPA Reg. No. 42177-78)** registration.

The names of these **alternate brands** are:

- **Pool Season Lithium Hypochlorite**
- **Regal LTM**

"This notice is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR §152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA."

Please find enclosed:

- An application form that includes the required notification language.
- One copy of each label with the alternate brand names.

If you need additional information, please feel free to call me at (215) 715-6419.

Sincerely yours,

Robert Rosenwasser
Agent for Alliance Trading, Inc.

ENVIRONMENTAL HAZARDS: This pesticide is toxic to fish and aquatic organisms.

PHYSICAL AND CHEMICAL HAZARDS:

Strong Oxidizing Agent. Do not mix with other chemicals, except water. Mix only with water. Never add water to product. Always add product to large quantities of water. Use clean dry utensils. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction may start a chemical react and liberate heat, hazardous gas, possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

SWIMMING POOL SANITIZER

This quick dissolving, non-clouding product is a convenient and economical source of chlorine for routine sanitization of your pool.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Ensure all pool equipment is working properly. Backwash the filter system following manufacturer's instructions. Adjust pH to between 7.2 -7.6. In a chlorine treated pool, add stabilizer to establish a minimum stabilizer level of 30-40 ppm to reduce the degradative effects of sunlight upon the chlorine residual. Check for metals before using this product and if present, add a stain and scale inhibitor to prevent staining pool surface due to metals. When using other products as outlined in directions for this product, always follow directions on those products.

POOL START UP

Add this product at the rate of 1 pound per 6,000 gallons. To prevent damage to pool surface, use a pool brush to disperse granules which may have settled to the bottom of the pool. Repeat this treatment after 24 hours if needed to establish a chlorine residual of 1-3 ppm as determined by a test kit or test strips.

REGULAR USE DOSAGES

Add 7-10 oz. of this product per 10,000 gallons directly into the water in the deep end of the pool, daily, or as often as needed as determined by the use of a test kit or test strips to maintain a chlorine residual of 1-3 ppm. After use of this product, add a quaternary or polyquaternary type algaecide to provide algae control.

SHOCK AND SUPERCHLORINATION TREATMENT

Every other week add this product at the rate of 1 pound per 6,000 gallons of water (alternatively, add 1 pound per 12,000 gallons weekly). Add the total recommended amount at one time broadcasting evenly into the deep end of the pool when the pool is not in use (preferably at night). Reapply after heavy rain showers or following heavy bather loads. To prevent damage to the pool surface, use a pool brush to disperse any undissolved granules which may have settled to the bottom of the pool.

ALGAE TREATMENT TO REMOVE EXISTING ALGAE GROWTH

When algae is seen, check and adjust, if needed, all water balance parameters. Brush all surfaces with surface compatible brush. With circulation pump operating, apply 2 lbs. of this product per 10,000 gallons of pool water by broadcasting the product directly into the pool at the deep end. Use a pool brush to disperse granules which may have settled to the bottom of the pool to prevent damage to pool surfaces. Continue to operate recirculating pump for at least 8 hours after product addition. Approximately 24 hours after product addition, vacuum dead algae from pool. Then brush all pool surfaces. Following algae

589

removal, recheck pH and adjust if necessary to the proper range of 7.2-7.6. Maintain a chlorine residual of 1-3 ppm.

NOTE: Re-entry into treated spa is prohibited above levels of 3.0 ppm of chlorine.

STORAGE AND DISPOSAL

Keep this product dry in original tightly closed container when not in use. Store in a cool, dry, well ventilated area away from heat or open flame. Moisture may decompose this product and cause a violent reaction leading to fire and explosion. In case of decomposition, isolate container if possible and flood area with large volumes of water to dissolve all material before discarding this container. Do not contaminate food or feed by storage or disposal.

CONTAINER DISPOSAL: Do not reuse container, but place in trash collection. Rinse thoroughly before discarding in trash.
