MICROBAN PRODUCTS COMPANY

Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling Amendment - Label Amendment  
Product Name: Microban Additive GS  
Admin Number: 42182-14  
EPA Receipt Date: 07/18/2024  
Action Case Number: 00624126

Dear Tony Herber:

The amended labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable.

This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains statements or claims substantially differing from statements or claims made in connection with obtaining a FIFRA section 3 registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

If you have questions, please contact Carlos Corona via email at [corona.carlos@epa.gov](mailto:corona.carlos@epa.gov).

Sincerely,

A handwritten signature in black ink that reads "Jake McFarley". The script is fluid and cursive, with the first letters of each word being capitalized and prominent.

[Bracketed text] is optional; text in {braces} is informational to the reviewer

## Microban Additive GS

EPA Reg. No. 42182-14

EPA Est. No. {to be inserted}

### ACTIVE INGREDIENT:

Benzoic Acid... 100%

**ACCEPTED**

1/14/2026

Under the Federal Insecticide, Fungicide  
and Rodenticide Act as amended, for the  
pesticide registered under  
EPA Reg. No. 42182-14

## KEEP OUT OF REACH OF CHILDREN DANGER

### FIRST AID

If in eyes	<ul style="list-style-type: none"><li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes.</li><li>• Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
If swallowed	<ul style="list-style-type: none"><li>• Immediately call a poison control center or doctor.</li><li>• Have person sip a glass of water if able to swallow.</li><li>• Do not induce vomiting unless told to do so by a poison control center or doctor.</li><li>• Do not give anything by mouth to an unconscious person.</li></ul>
If on skin or clothing	<ul style="list-style-type: none"><li>• Take off contaminated clothing.</li><li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li><li>• Call a poison control center or doctor for treatment advice.</li></ul>
If inhaled	<ul style="list-style-type: none"><li>• Move person to fresh air.</li><li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth, if possible.</li><li>• Call a poison control center or doctor for further treatment advice.</li></ul>

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

**FOR 24-HOUR EMERGENCY MEDICAL ASSISTANCE, CALL THE NATIONAL POISON CONTROL CENTER 1-800-222-1222**

Note to Physician: Probable mucosal damage may contraindicate the use of gastric lavage.

LOT NO. {to be inserted}

NET CONTENTS: 50 lb. -or- 55 lb.

Huntersville, NC 28078

{Made in [Enter country of origin]}

## **PRECAUTIONARY STATEMENTS**

### **HAZARD TO HUMANS AND DOMESTIC ANIMALS**

**DANGER:** Causes irreversible eye damage. Harmful if swallowed, absorbed through the skin, or inhaled. Do not get in eyes or on clothing. Avoid contact with skin. Avoid breathing dust. Wear protective eyewear and waterproof gloves. When pouring or scooping product or handling open containers of product a NIOSH approved full face respirator with N99 filter (TC-84A) must be worn. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

### **ENVIRONMENTAL HAZARDS:**

Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance, contact your State Water Board or Regional Office of the EPA.

---

### **DIRECTIONS FOR USE:**

It is a violation of federal law to use this product in a manner inconsistent with its labeling. [We recommend users contact Microban Technical Service for formulation assistance].

For use as a microbiostatic agent for material preservation, neither this product nor the articles treated with this product may state or imply any public health claims. Articles or substances treated with this product will be exempt from FIFRA regulation pursuant to 40 CFR 152.25(a) if the intended use for incorporating this material into a treated article or substance is for the protection of the article or substance itself.

Finished products containing this product may not make claims of antimicrobial activity other than protection of the article itself.

### **APPROVED USES:**

Microban Additive GS may be used in the production of products for household, institutional and industrial uses.

#### **NONFOOD CONTACT POLYMERS AND PLASTICS**

Purpose: to protect the following systems from deterioration from bacteria, yeast, mold, mildew, and/or fungus during manufacture, storage and service life: natural or synthetic thermoplastics (e.g. but not limited to TPE, PVC, PE, PP, PS, HIPS, PC, ABS, PA, PU, Styrenics, PMMA, Acrylics, latex etc.), thermosets (e.g. cross-linked urethanes, rubber, epoxies, cementitious products, polyesters, melamine-formaldehyde laminates, acrylics, silicones, etc.) other polymer dispersions.

Concentration: 0.1% - 1.0% by weight of material to be protected.

How to apply: add this product at a suitable point during manufacture to ensure even dispersion throughout the material to be treated. If needed, product can be introduced at the point of manufacture as a polymer intermediate/concentrate

#### **TEXTILES, WAX EMULSIONS AND POLISHES:**

Purpose: to protect the following systems from bacterial deterioration during manufacture, storage and service life: Natural and synthetic fabrics/fibers, such as wearable textiles, yarns, household textiles, industrial textiles, and carpets.

Concentration: for natural fibers, use 0.05% - 6.7% by weight of material to be protected; for synthetic fibers, use 0.1-6.7% by weight of material to be protected

How to apply: add this product at a suitable point during manufacture to ensure even dispersion throughout the material to be treated. If needed, product can be introduced at the point of manufacture as a liquid intermediate/concentrate.

#### PAINTS:

Purpose: To protect the following types of paints (architectural coatings as defined at 40 CFR 59.401) from bacterial deterioration during manufacture and storage\* (in-can preservation) and to extend the service life of the dried paint film/architectural coating by protecting from bacterial deterioration. Paint/Architectural coatings may be latex, acrylic, and solvent/oil based.

Concentration for in-can preservation\* use: 0.1 – 0.5% by weight

Concentration for dried film/coating protection: 0.5% by weight

How to apply: add this product at a suitable point during manufacture to ensure even dispersion throughout the material to be treated. If needed, product can be introduced at the point of manufacture as a liquid intermediate/concentrate.

\*[This use] not for use in California

#### INDUSTRIAL MAINTENANCE COATINGS:

Purpose: To protect industrially-applied coatings from bacterial deterioration during manufacture and storage\* (in-can preservation) and to extend the service life of the dried industrially-applied coating by protecting from bacterial deterioration. Coatings may be clearcoats, enamels, lacquers, shellacs, urethanes, polyurethanes and similar materials.

Concentration for in-can preservation\* use: 0.1% - 6.7% by weight

Concentration for dried coating protection: 0.5% - 6.7% by weight

How to apply: add this product at a suitable point during manufacture to ensure even dispersion throughout the material to be treated. If needed, product can be introduced at the point of manufacture as a liquid intermediate/concentrate.

\*[This use] not for use in California

#### HYGROSCOPIC INORGANIC, CELLULOSIC MATERIALS:

Purpose: to control the growth of fungi, yeast and bacteria during manufacture, storage and service life of clay, calcium carbonate, kaolin and other inorganic or cellulosic based mixtures that tend to absorb moisture for use in animal litter.

Concentration: 0.05% - 6.7% by weight of material to be protected.

How to apply: add this product at a suitable point during manufacture to ensure even dispersion throughout the material to be treated. If needed, product can be introduced at the point of manufacture as a liquid intermediate/concentrate.

#### TREATED INTERMEDIATES/CONCENTRATES

This product is an antimicrobial additive that protects treated intermediate manufacturing/industrial products and treated manufacturing/industrial products from the growth of microorganisms, including mold, mildew and fungus.

**MAXIMUM CONCENTRATION:** For use in manufacturing/industrial intermediates at active ingredient levels up to 50% on a weight basis for further processing in an industrial environment into finished products. This dosage applies only to intermediate manufacturing/industrial uses. It does not apply to active ingredient concentrations in consumer finished products. The intermediate treated concentrate must be used in proportion to other inputs in the manufacture of treated articles entering commerce so that the final concentration of this product does not exceed the application rate of 6.7% on a weight basis in the consumer finished product articles to be preserved.

Specific materials for Liquid Intermediates: Microban Additive GS can be dissolved or dispersed in organic solvents or water with dispersing aids, surfactants, and/or other formula auxiliaries in support of the finished product types listed on this label.

Specific materials for Solid Intermediates: Microban Additive GS can be added to polymer resins and/or components compatible with the finished materials/product types listed on this label.

#### STORAGE AND DISPOSAL:

Do not contaminate water, food, or feed by storage or disposal.

**PESTICIDE STORAGE:** Keep product dry during storage.

Microban Additive GS

EPA Reg. No: 42182-14

EPA Master Label: 1/13/2026 Amend

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste facility.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment by shaking and tapping sides and bottom to loosen clinging particles, then offer for recycling if available, or dispose of empty bag in a sanitary landfill or by incineration if allowed by state and local authorities.
