

## OFFICE OF CHEMICAL SAFETY AND POLLUTION PREVENTION

WASHINGTON, D.C. 20460

October 1, 2024

Tony Herber  
Principal Regulatory Consultant  
Microban Products Company  
c/o Scientific & Regulatory Consultants, Inc  
Electronic Transmittal: [therber@srcconsultants.com](mailto:therber@srcconsultants.com)

Subject: Label Amendment – Changes Required by the Triclosan Interim Registration Review Decision  
Product Name: Ultra Fresh NM  
EPA Registration Number: 42182-18  
Received Date: 06/05/2020  
Decision Number: 563589

Dear Tony Herber:

The amended label referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, is acceptable. This approval does not affect any conditions that were previously imposed on this registration. You continue to be subject to existing conditions on your registration and any deadlines connected with them.

The Agency, in accordance with the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), as amended, has completed reviewing all of the information submitted with your application to support the Registration Review of the above referenced product in connection with the Triclosan Interim Decision, and has concluded that your submission is acceptable.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. Pursuant to 40 CFR 156.10(a)(6) you must submit one copy of the final printed labeling before you release the product for shipment with the new labeling. In accordance with 40 CFR 152.130(c), you may distribute or sell this product under the previously approved labeling for 12 months from the date of this letter. After 12 months, you may only distribute or sell this product if it bears this new revised

labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR 152.3.

Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the Agency. See FIFRA section 2(p)(2). If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process, FIFRA section 12(a)(1)(B). Therefore, should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance.

Your release for shipment of the product constitutes acceptance of these conditions. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6. If you have any questions, please contact Megan Snyderman by phone at 202-566-0639, or via email at [Snyderman.Megan@epa.gov](mailto:Snyderman.Megan@epa.gov).

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. Gayoso', is centered below the 'Sincerely,' text.

Jose Gayoso, Senior Regulatory Advisor  
Reevaluation Branch  
Antimicrobials Division (7510P)  
Office of Pesticide Programs

Enclosure: Stamped Label

# Ultra-Fresh NM BACTERIOSTAT

EPA Reg. No. 42182-18

EPA Est. No. {to be inserted}

## ACTIVE INGREDIENT:

5-chloro-2-(2,4-dichlorophenoxy)phenol..... 3.0%

OTHER INGREDIENTS..... 97.0%

Total ..... 100.0%

**ACCEPTED**

**10/01/2024**

Under the Federal Insecticide, Fungicide  
and Rodenticide Act as amended, for the  
pesticide registered under  
EPA Reg. No.

**42182-18**

## KEEP OUT OF REACH OF CHILDREN WARNING

### FIRST AID

<b>If Inhaled</b>	<ul style="list-style-type: none"><li>• Move person to fresh air.</li><li>• If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.</li><li>• Call a poison control center or doctor for further treatment advice.</li></ul>
<b>If in Eyes</b>	<ul style="list-style-type: none"><li>• Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.</li><li>• Call poison control center or doctor for treatment advice.</li></ul>
<b>If on Skin or Clothing</b>	<ul style="list-style-type: none"><li>• Take off contaminated clothing.</li><li>• Rinse skin immediately with plenty of water for 15-20 minutes.</li></ul>
<b>If Swallowed</b>	<ul style="list-style-type: none"><li>• Call a poison control center or doctor immediately for treatment advice.</li><li>• Have person sip a glass of water if able to swallow.</li><li>• Do not induce vomiting unless told to do so by a poison control center or doctor.</li><li>• Do not give anything by mouth to an unconscious person.</li></ul>

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.  
For medical emergencies call your local poison control center.

## **PRECAUTIONARY STATEMENTS**

### **HAZARD TO HUMANS AND DOMESTIC ANIMALS**

**WARNING:** May be fatal if inhaled. Do not breathe dust, vapor or spray mist. Causes substantial but temporary eye injury. Avoid contact with skin or clothing. Do not get in eyes or on clothing. Wear respirator fitted with cartridge for organic vapors. Wear face shield or chemical goggles. Remove and wash contaminated clothing before reuse. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

### **ENGINEERING CONTROLS:**

Engineering controls are required to achieve closed loading and delivery for the liquid pouring of the product.

### **ENVIRONMENTAL HAZARDS:**

This pesticide is toxic to fish and aquatic organisms. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or other waters unless in accordance with requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

### **DIRECTIONS FOR USE:**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

See OSHA's Respiratory Protection Standard for federal requirements on how to safely fit-test, train, and medically examine workers who will be using respirators.

**Ultra-Fresh NM** is an additive designed for application to textiles at 2-5% on weight of goods to inhibit the growth of odor-causing bacteria on these surfaces.

**Ultra-Fresh NM** has been demonstrated to provide a durable treatment on washable fabrics when subjected to conventional launderings. For non-apparel textiles only.

**Ultra-Fresh NM** can be used to treat carpet backing (non-face fibers), latexes\*, air filters, and synthetic\*, cellulosic sponges\*, woven and non-woven general purpose cleaning cloths, pigment presscakes\*, dispersions\*, inks\* and adhesives\*. Do not use this product in food grade adhesives or inks.

Use Ultra-Fresh NM only for application onto end-use products to treat the article itself. Please consult the Technical Data Sheet for application parameters.

\*Not approved for this use in the State of California

## **STORAGE AND DISPOSAL**

**Pesticide Storage:** Do not store above 100°F. Do not store or transport in unlined metal containers. Do not contaminate water, food or feed by storage or disposal or cleaning of equipment. Keep container tightly closed when not in use. Do not store with strong oxidizing agents or strong (concentrated) acids.

**Pesticide Disposal:** Pesticides are acutely hazardous. Improper disposal of excess pesticide or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**Container Handling:** Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Clean container promptly after emptying. Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

**General:** Consult Federal, State, or local disposal authorities for approved alternative procedures.

# Technical Data Sheet

## Ultra-Fresh NM

### Bacteriostat

**Ultra-Fresh NM** is an aqueous emulsion designed to confer durable bacteriostatic properties to cotton, wool and synthetic textile fabrics such as fabrics used in domestics and household goods by inhibiting the growth of odour-causing bacteria. *Not for use in apparel.*

This product, when applied according to recommendations, will provide a durable treatment on washable fabrics when subject to conventional launderings.

**Ultra-Fresh NM** is used to protect pigment presscakes and dispersions and/or inks made from presscakes from the growth of bacteria.\*

**Ultra-Fresh NM** can be used to treat carpet backing (non-face fiber), latexes\*, air filters and synthetic and cellulosic sponges\*.

#### DIRECTIONS FOR USE

##### 1. Textiles

**Ultra-Fresh NM** will inhibit the growth of odour causing bacteria on textile surfaces. These include non-apparel items including wall coverings, upholstery fabric, drapery fabric, blankets, cubicle curtains, mattress pads, mattress filling materials, pillow filling fibres and air filters.

An application of 2.0% to 5.0% based on fabric weight and durability requirements is recommended. It is recommended that all fabrics be scoured prior to treatment with **Ultra-Fresh NM**. **Ultra-Fresh NM** can be applied from the pad bath. Bath temperature has no effect on fabric pick-up of the product.

Exhaustion should be done for 10-15 minutes at temperatures ranging from 100°F to 120°F (38°C to 49°C).

No changes are required in existing procedures, e.g. for softener application, when adding **Ultra-Fresh NM**.

**Ultra-Fresh NM** can be added to the dyestuffs and auxiliaries used in all normal textile dyeing, and will confer durable bacteriostatic activity to the finished, dyed goods with no changes in dyeing procedure being required.

##### 2. Polyester

Due to reduced substantivity, 100% polyester fibers need special application procedures to ensure durability. Please consult the corresponding Product Information Sheet for more details. Blends of polyester can be treated as per above general instructions.

##### 3. Adhesives, Pigment Presscakes, Dispersions, Inks\*

Add 1-4% **Ultra-Fresh NM**, with thorough mixing, to an appropriate stage in manufacturing to confer resistance to bacterial growth in adhesives, pigment presscakes, dispersions and inks.

##### 4. Polymeric Systems\*

Also, incorporating **Ultra-Fresh NM** into the polymeric matrices of foams, latex and polyurethane gloves imparts protection. An application level of 2.0% to 5.0% based on dry polymer weight is recommended.

##### 5. Synthetic & Cellulosic Sponges\*

**Ultra-Fresh NM** should be used at 1.5% to 3.0% on the weight of goods (o.w.g.). For additional bacteriostatic protection, **Ultra-Fresh DM-50** can be added at the rate of 0.15% to 0.3% o.w.g.

The application levels above are representative of those found necessary in practice. For each specific use, one or more trials runs are recommended to optimize the application level and method of addition for the particular product being treated. **Ultra-Fresh** products are only intended to confer antibacterial protection to treated articles, not to protect the people who are using them. Contact your local distributor to confirm that the usage type desired is acceptable according to Federal and local government regulations.

\*Not approved for this use in the State of California

**PHYSICAL PROPERTIES**

Appearance:.....Clear liquid  
Specific Gravity: .....1.00 - 1.06 (25°C / 77°F)  
pH:.....7.1

**SAFETY AND HANDLING**

Refer to product label for safe handling and use directions. Refer to product Safety Data Sheet for health and safety information.

**SPILL CLEAN-UP PROCEDURES**

For small spills, absorb with sand, clay or other inert absorbent and place in clean, dry container for disposal. Large spills should be diked to prevent spreading. Pump spilled material to containers for salvage or disposal. Absorb the residual material as for small spills. Clean the spill area with detergent and water. This product is toxic to fish. Keep discharge from entering sewers, lakes, streams, ponds, estuaries or public water sources. Dispose of in accordance to regulations.

**WASTE DISPOSAL PROCEDURES**

Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available.

Clean container promptly after emptying.

For containers of 5 gallons or less:

Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

For containers of more than 5 gallons:

Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank. Fill the container ¼ full with water. Replace and tighten closures. Tip container on its side and roll back and forth, ensuring at least one complete revolution, for 30 seconds. Stand the container on its end and tip back and forth several times. Empty the rinsate into application equipment or the mix tank or store rinsate for later use or disposal. Repeat this procedure two or more times.

**TOXICOLOGICAL INFORMATION**

Acute Oral LD<sub>50</sub> (rats) >2,000 mg/kg  
Acute Inhalation LC<sub>50</sub> (rats) >0.15 mg/L  
Skin Irritation (rabbits) Irritating  
Eye Irritation (rabbits) Irritating

**FIRST AID**

If inhaled move subject to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible. Call a poison control center or doctor for further treatment advice. If product comes in contact with eyes, hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice. If product gets onto skin or clothing remove contaminated clothing immediately. Rinse skin immediately with plenty of water for 15-20 minutes. If swallowed, call a poison control center or doctor immediately for treatment advice. If conscious, have subject sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Never give anything to an unconscious person.

**NOTICE**
