To Kill Spiders or Crickets
Spray in cracks and crevices, especially in the evening. Avoid spraying the corners of rooms,
corners of walls, cracks, crevices, along baseboards, and door frames and frames, baseboard
and beneath beds, chairs, refrigerators, stoves and around garbage cans, plumbing and other
utility installations. Pets should be removed from the sprayed areas. Treatants kill
spiders and crickets.

To Kill Carpet Beetles
Spray edges of carpeting and under carpeting and rug. Make increased application to
the floor and baseboards. Spray directly into cracks, crevices and void areas of walling.
Repeat as necessary.

To Kill Brown Dog Ticks
Thoroughly spray, keeping quarters of animals. Spray around areas around
baseboards, windows and door frames as well. Application should be repeated as
necessary. Fresh bedding should be changed. Animals should be kept in a clean, dry
TREAT ANIMALS WITH EXTREME CAUTION.

To Kill Fleas, Small Flying Insects, Mosquitoes and Wasps
For outdoor use only as an aid in reducing annoyance from these pests. Spray outside
surfaces of screens, doors, window frames, or wherever these insects may enter the room.
Do not spray on surfaces of plants, flowers or bushes, or on lawns or in places where there
is a possibility of contact.

STATEMENT OF PRACTICAL TREATMENT
If swallowed: Call your doctor or Poison Control Center immediately. Gastric lavage is
indicated if material was taken internally. DO NOT INDUCE VOMITING. Vomiting may
cause aspiration pneumonia.

If inhaled: Remove victim to fresh air. Apply artificial respiration if indicated.

If on skin: Remove contaminated clothing and wash affected areas with soap and water.
If in eyes: Flush eyes with plenty of water. Get medical attention if irritation persists.
