

SENTINEL

CHEMICAL

# Sentinel LC-612

### ACTIVE INGREDIENT

Polyoxyethylene (10) triethylammonium ethylsulfate

### INERT INGREDIENT

This product contains 1.2% active ingredient per gallon

**KEEP OUT OF REACH OF CHILDREN**

**CAUTION**

ACCEPTED

OCT 29 1980

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**CAUTION:** Harmful if swallowed. Avoid breathing vapors. Avoid contact with skin, eyes or clothing.

**FIRST AID:** If swallowed, drink plenty of water or milk (egg whites, gelatin solution, or if these are not available, other large quantities of water). Avoid alcohol. Call a physician immediately.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Keep out of lakes, streams, or ponds. Permit may be required for disposal. Do not pour this pesticide into lakes, streams, ponds, or sewer water. For disposal contact the regional office of the Environmental Protection Agency.

### DIRECTIONS FOR USE GENERAL CLASSIFICATION

Use Sentinel LC-612 as a foaming agent in air wash systems to control dust and dirt. It is also effective against mold and mildew. Use in accordance with the following directions:

**Application:** Add Sentinel LC-612 to the water supply of the air wash system. The frequency of addition depends upon the relative humidity of the air and the severity of the mold or mildew problem. Slug additions are recommended for the control of water collected in trays.

**Control:** For control of mold and mildew in air wash systems that collect water, use Sentinel LC-612 in a concentration of 10-15% in the water supply. An initial slug dose of 10-15% is recommended. Subsequent additions of 10-15% should be employed every 7-10 days, if needed. The frequency of addition depends upon the relative humidity of the air and the severity of the mold or mildew problem. Slug additions are recommended for the control of water collected in trays of the air wash system.

**STORAGE & DISPOSAL:** Keep container closed when not in use. Do not contain water for use or feed by storage, disposal or cleaning of equipment. The container must be triple rinsed (or equivalent) and offered for recycling, reconditioning, or disposal in an approved landfill or buried in a safe place for sites that cannot be used or reprocessed. Should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies. Open dumping is prohibited.

**Precautionary Statements**

**Hazards To Humans And Domestic Animals**

**Warning:**

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust. Avoid contact with skin, eyes, or clothing. May cause eye damage or severe skin irritation.

**Environmental Hazards:**

This pesticide is toxic to fish. Keep out of lakes, streams, and ponds. Treated effluent should not be discharged into lakes, streams, ponds, or public waters unless in accordance with NPDES permit. For guidance consult the regional office of EPA.

**Physical and Chemical Hazards**

**Strong Oxidizing Agent:**

Strong Oxidizing Agent. Mix only with water. Use clean dry utensils. Do not mix this product with any other chemical or gross filth. Such use may cause a violent reaction leading to fire or explosion. Contamination with moisture, organic matter, or other chemicals may start a chemical reaction, with generation of heat, liberation of hazardous gases, and possible generation of fire and explosion. In case of contamination or decomposition, do not reseal container. If possible isolate container in open air or well ventilated area. Flood with large volumes of water, if necessary.

# RICHCHLOR

## Sanitizer

**Active Ingredient:**

|  |             |
|--|-------------|
| Sodium dichloro-s-triazinetriene dihydrate | 25%         |
| Inert Ingredients:                         | 75%         |
| <b>Total:</b>                              | <b>100%</b> |

(Available Chlorine 14%)

**KEEP OUT OF REACH OF CHILDREN**

### Warning

**FIRST AID:**

If swallowed feed gruel or cooked cereal followed by olive oil. Call a physician. In case of contact with skin or clothing, remove clothing and wash skin with soap and water. Do not reuse clothes until washed. In case of eye contact wash with water for about 15 minutes and consult a physician.

EPA Registration No. 42709-2 EPA EST. No. 42709-PA-01

Manufactured by:  
RICHMOND OIL, SOAP & CHEMICAL CO., INC.  
190 W Glenwood Ave. Philadelphia, Pa. 19140

**Net Contents - 5 lbs.**

**Directions For Use:**

It is a violation of a federal law to use this product in a manner inconsistent with the label. RICHCHLOR Sanitizer is used on hard (non-porous) surfaces such as food processing equipment, dairy and brewery equipment. Prepare a sanitizing solution by adding 2 oz. of RICHCHLOR Sanitizer to 1 gallon of water. This gives a solution containing 14% available chlorine. Rinse surfaces with water prior to sanitizing. For food processing equipment, immerse or spray for 2 to 5 minutes and then rinse well with potable water. The same solution may be used for sanitizing food processing equipment. Rinse items prior to sanitizing. Rinse well with potable water then ready for use.

The sanitizing solution should be used immediately after mixing. If the solution is reused and tests show that the available chlorine has not been maintained, RICHCHLOR Sanitizer should be added to bring the concentration of available chlorine up to 14%.

**Storage and Disposal:** Store in a cool, dry area. In case of spill, flush with water. Rinse empty container with water and discard by burying it in approved land or by incineration in accordance with local, state or federal regulations.

EPA Registration No. 42709-2 EPA EST. No. 42709-PA-01

Manufactured by:  
RICHMOND OIL, SOAP & CHEMICAL CO., INC.  
190 W Glenwood Ave. Philadelphia, Pa. 19140

**Net Contents - 5 lbs.**

**Directions For Use:**

It is a violation of a federal law to use this product in a manner inconsistent with its labeling.

**RICHCHLOR Sanitizer** is recommended for use on hard (non-porous) surfaces, on dishes, glasses or food processing equipment or utensils, including dairy and brewery equipment and utensils.

Prepare a sanitizing solution by dissolving 1 oz. or 2 oz. of **RICHCHLOR Sanitizer** per 10 gal. of water. This gives a solution containing 100 ppm or 200 ppm available chlorine respectively. Clean and rinse item or surface prior to sanitizing. Then place dishes, glasses, equipment or utensils in the solution or spread it over the surface to be sanitized. Let stand 2 to 5 minutes and then wipe excess away. Rinse items and surfaces with potable water prior to use.

The same solution may be used in the feed tank in immersion or spray type machines providing 2 to 5 minutes of contact time for sanitizing dishes, glasses, food processing equipment and utensils. Clean and rinse items prior to sanitizing. After sanitizing step, rinse well with potable water and dry. The items are then ready for use.

The sanitizing solution should be used promptly after mixing. If the solution is allowed to stand or is reused and tests show the level of chlorine has not been maintained, additional **RICHCHLOR Sanitizer** should be added, to maintain a minimum concentration of 100 ppm available chlorine.

**Storage and Disposal:**

Store in a cool, dry area away from direct sunlight or heat. In case of spill flood area with large quantities of water. Rinse empty container thoroughly with water and discard by placing in trash collection or burying it in approved landfill area. Do not contaminate food or feed by storage, disposal, or cleaning of equipment.
