NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA sec. 3(c)(5) or FIFRA sec. 4 when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

- a. Add the phrase, "EPA Registration No. 42389-19."
- b. Under the heading ENVIRONMENTAL HAZARDS add the following:

This product is toxic to fish and other wildlife. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not contaminate water by disposal of waste.

- c. All products whose precautionary labeling appear on other than the front panel must bear the following referral statement "See back panel for additional precautionary statements."
- d. Delete the claim "For Institutional and Industrial Use Only." Your labeling lists sites which are neither institutional nor industrial.
- e. Add a footnote to Inert Ingredients statement indicating:  
\*Contains Petroleum Distillates
- f. Delete "(Drench)" from the front label. Your product is not applied as a drench.
- g. Revise the direction under "For Outdoor Use Only" as follows:  
  
To aid in the control of fire ants in yards, parks, woodlands, playgrounds, golf courses, and similar outdoor areas.
- h. Following the last sentence beginning "For best results treatment . . .etc.," add "Reapply as necessary. Treat new mounds as they appear."

3. Submit five copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.
