Germicidal activity of this product is not affected by hard water but its cleaning efficiency may be impaired. GERM-KLEEN BRAND is formulated for the problem areas in both rural and urban facilities and is highly effective when used as directed for hard surface disinfecting and deodorizing to help reduce the hazard of cross contamination.

GERM-KLEEN BRAND is an economical, effective, one step sanitizer for non-food contact surfaces. It cleans and sanitizes in water up to 850 ppm hardness. This hard water control assures success of most potable waters and will insure complete sanitizing action when used as directed.

Two ounces of GERM-KLEEN BRAND per gallon of water will deodorize surfaces in bathrooms, garbage storage areas, and other areas where bacterial growth can cause malodors. Prevents odor caused by mold and mildew.

Precautionary Statements
Hazards to Humans and domestic animals

WARNING

Keep out of reach of children. May cause severe eye irritation or eye damage. Causes skin irritaton. Do not get in eyes, on skin, or on clothing. Harmful if swallowed. Avoid contamination of food.
