**NOTE:** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7), as provided that you:

1. Submit to all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
  - a. Add the phrase "EPA Registration No. 42545-51."
  - b. Under Hazards to Humans, add "May cause eye irritation."

☐ **ATTACHMENT IS APPLICABLE**

<b>SIGNATURE OF APPROVING OFFICIAL</b>	<b>DATE</b>
--	-------------

3. Submit one (1) copy of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

The following product chemistry deficiencies have been identified and should be addressed as a followup to registration.

1. Series 61 - Material Safety Data Sheets are needed for each starting material.
2. Series 63 - Provide the temperatures at which solubilities and vapor pressure were determined.

Also, impurities present at 0.1 percent or greater must be included on the formula statement in column 10 and the corresponding amount, percent by weight and certified limits must be listed in columns 13 and 14, respectively. Submit a revised formula statement incorporating this information.

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with this labeling.

**STORAGE AND DISPOSAL**

**Storage:** Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. Do not store this product near fertilizers, seeds, insecticides, or fungicides. Reclose all partially used containers by tightening all bungs securely. Contents of damaged containers which cannot be repaired, or which cannot be used immediately, should be transferred to suitable round containers and properly marked. Absorb any spilled material with a suitable clay absorbent and dispose of as indicated under "Pesticide Disposal".

For safety and prevention of unauthorized use, all pesticides should be stored in locked facilities.

To prevent accidental misuse, different pesticides should be stored in separate areas with enough distance between to provide clear identification.

Opened, partially used pesticides should be stored in original labeled containers when possible. When transfer to another container is necessary because of leakage or damage, carefully mark, and identify contents of the new container.

**Container Disposal:** Triple rinse (or equivalent), adding rinsate to formulation vessel. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

This product is intended only for the production of herbicides. EPA approved labeling, which complies with all pertinent laws and regulations, is required for all formulations produced from this material and must be furnished by formulator.
