**PRECAUTIONARY STATEMENTS:**

**Hazards to humans and domestic animals:**

**WARNING:** Causes substantial but temporary eye injury. Causes skin irritation. Harmful if absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles or safety glasses. Wash thoroughly with soap and water after handling. Remove and wash contaminated clothing before reuse.

<b>FIRST AID</b>	
<b>If in eyes:</b>	
-	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
-	Call a poison control center or doctor for treatment advice.
<b>If on skin or clothing:</b>	
-	Take off contaminated clothing.
-	Rinse skin immediately with plenty of water for 15-20 minutes.
-	Call a poison control center or doctor for treatment advice.
<b>If swallowed:</b>	
-	Call a poison control center or doctor for further treatment advice.
-	Have person sip a glass of water if able to swallow.
-	Do not induce vomiting unless told to do so by a poison control center or doctor.
-	Do not give anything by mouth to an unconscious person.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also contact 1-800-858-7378 for emergency medical treatment.	

**ENVIRONMENTAL HAZARDS:** This product may be hazardous to aquatic invertebrates. Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

**DIRECTIONS FOR USE:**

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**WHAT IT IS:** Safer<sup>®</sup> Brand Moss and Algae Killer Concentrate is made from naturally occurring, biodegradable fatty acids. This water-based product is non-corrosive to metals, contains no zinc or iron, and is non-staining on most surfaces.

**WHAT IT ELIMINATES:** Safer<sup>®</sup> Brand Moss and Algae Killer Concentrate effectively eliminates mosses, algae, lichens, liverworts and grime. Safer<sup>®</sup> Brand Moss and Algae Killer Concentrate effectively eliminates mosses in lawns.

3 2 5

**MASTER LABEL – BACK PANEL Page 2 of 3**

**WHERE TO USE IT:** Safer® Brand Moss and Algae Killer Concentrate is ideal to use on: roofs, decks, siding, walkways, home greenhouses, growing containers and benches, structural surfaces, hardened bark of trees, lawns and turf. This container will treat up to 500 square feet depending on type of surface treated and degree of infestation.

**HOW TO USE IT:** SHAKE WELL.

**HOSE END SPRAYER: Easy to Use**

1. Make sure knob is twisted fully clockwise to OFF position. Shake well before attaching to hose.
2. Turn Product Control Button clockwise until the flat portion is flush with the lock tab, then push button all the way in. Avoid squeezing bottle.
3. Turn water on at faucet, aim nozzle toward surface and turn knob counterclockwise to begin spraying.
4. When finished, push Product Control Button to OFF position from opposite side. Return knob and faucet to OFF position. Discharge water pressure by turning knob ON and OFF again. Turn Product Control Button counterclockwise away from lock tab to prevent accidental discharge. Store out of reach of children.

**For Structural Applications:** [Add on part concentrate to 20 parts water or, approximately 6 oz. (12 tablespoons) per gallon.] Apply mixed spray at the rate of approximately 1 gallon per 100 square feet. For best results, moisten area to be treated with fresh water before applying product. Spray [affected] area [to thoroughly wet] until thoroughly wet. Treated mosses, algae, lichens and liverworts discolor quickly [and slough off naturally making physical removal unnecessary]. [Discoloration of treated mosses, algae, lichens and liverworts takes longer under cool conditions]. For best results, leave spray on area for 10 minutes following application, then scrub using a push broom or similar type broom, then hose off with fresh water.

**For Growing Containers and Hardened Bark of Trees:** Spray affected area to wet thoroughly. Use on ornamental trees only. **DO NOT APPLY** to fruit trees, foliage or green bark of conifers or broad-leaf plants.

[For Mosses in Lawns and Turf]

[Mixing Ratios:]

[SHAKE WELL. For application with a standard garden sprayer, mix 4 fl. oz. (8 tablespoons) per gallon of water. For application with a hose end sprayer, select a dial setting that will provide a dilution of one part concentrate and 30 parts water. In areas of hard water, remove the wire screen from the nozzle of your hose-end sprayer.]

4 8 5

*MASTER LABEL – BACK PANEL Page 3 of 3*

**For Mosses in Lawns and Turf:** For best results, moisten area to be treated with fresh water before applying product. Avoid spraying when precipitation is expected. Spray affected area thoroughly at the rate of approximately 1 gallon per 50 square feet. After 30 minutes, rinse sprayed areas lightly with clean water, then withhold water for two days. Do not treat turf when temperature exceeds 85°F. **PERSISTENT MOSS GROWTH ON LAWNS** is suggestive of too much shade, acid soil and poor drainage. If several sprayings do not reduce moss problem, it may be necessary to reduce shade, aerate and lime the soil.

**NOTE:** Treated areas may be temporarily slippery. Product may leave white residue on cement, brick or dark-colored shingles. This residue may be removed with vinegar.

**STORAGE & DISPOSAL:**

**Storage:** Store at room temperature, in original container only, out of reach of children and animals. Keep from freezing.

**DISPOSAL:**

If Empty: Do not reuse this container. Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency or (800)-CLEANUP for disposal instructions. Never place unused product down any indoor or outdoor drain.
