

Hazards to Humans and Domestic Animals:

CAUTION: Harmful if swallowed.

Environmental Hazards: Keep out of lakes, streams or ponds.

DISPOSAL: Do not reuse empty container. Rinse clean with water and dispose of in trash collection.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labelling.

Do not apply spray to roses in full sun or during the heat of the day

To Control APHIDS, THRIPS, and PSYLLIDS, spray when insects are first sighted being sure to treat young shoots and buds where aggregations often occur, and underside of leaves where psyllids may be hiding. Repeat application as required.

To Control SCALES, remove established adults manually then spray stems and leaf surfaces thoroughly to kill crawlers. Repeat application twice more at 7 to 10 day intervals.

Directions continued on right side panel

Safer Agro-Chem's Insecticidal Soap FOR ROSES

READY TO USE

Controls Aphids, Rose Slugs,
Psyllids, Earwigs, Scales and Spider Mites

Active ingredients	By wt
Potassium salts of fatty acids	1.5%
Inert ingredients	98.5%
Total	100.0%

Keep out of reach of children

CAUTION

See side panel for additional cautions

Net Contents
32 fl. oz.

To Control MITES, spray weekly to thoroughly moisten both upper and lower leaf surfaces. Misting foliage with water daily until control is achieved is beneficial.

To Control ROSE SLUGS, spray both sides of leaves where these sawfly larvae are feeding. Watch for a second generation in 4 to 6 weeks and spray again when insects are sighted.

To Control EARWIGS, spray the blossoms after dark or spray earwigs directly after disturbing their daytime hiding places
