**SAFER™  
SHARPSHOOTER™  
CONTACT WEED KILLER  
READY-TO-USE**

**PRECAUTIONARY STATEMENTS**

Hazards to Humans and Domestic Animals:

**CAUTION:** May cause skin and eye irritation. Avoid contact with skin, eyes, or clothing. In case of contact immediately flush eyes or skin with plenty of water. Get medical attention if irritation persists. Avoid breathing of spray mist. If swallowed, stomach and intestinal irritation may occur.

**FIRST AID:** If in eyes or on skin immediately flush with plenty of water. If swallowed, drink 1 or 2 glasses of milk. Do not induce vomiting.

**ENVIRONMENTAL HAZARDS:** Do not apply directly to water or wetlands. Do not contaminate water by cleaning of equipment or disposal of wastes.

**STORAGE AND DISPOSAL**

**STORAGE:** Store at room temperature or colder. Do not store in any container other than original container.

**DISPOSAL:** Do not reuse container. Rinse thoroughly before discarding in trash.

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labelling. Read the entire label before using product.

**IMPORTANT:** SAFER™ SHARPSHOOTER™ IS A GENERAL CONTACT HERBICIDE AND WILL DAMAGE OR DESTROY ALL VEGETATION WHICH IT CONTACTS. AVOID OVERSPRAY OR SPRAY DRIFT ONTO DESIRABLE LAWN GRASS, FLOWERS, VEGETABLES, GARDEN PLANTS, BIRDS OR TREES. KEEP PEOPLE AND PETS OFF TREATED AREAS UNTIL DRY TO AVOID PRODUCT TRANSFER TO DESIRABLE VEGETATION.

Use:

Shake well, and use as provided for spot treatment of weeds. Ensure thorough wetting (avoid run-off) and complete coverage of all unwanted vegetation. Do not apply during windy conditions that will carry spray to desired vegetation. **Note:** only those plants or plant parts directly contacted by the herbicide spray will be damaged.

Needs:

SharpShooter™ will control most young, succulent, and actively growing weeds (less than 5" high). Several treatments may be necessary to control grasses and established weeds. Maturing (flowering), or woody weeds are less susceptible and may not be killed.

SharpShooter™ will not kill all perennial weeds but will result in top kill and suppression. Weeds and grasses emerging after application, and regrowth from perennial weeds after top kill will not be controlled without reapplication.

SharpShooter™ is non-selective and non-residual. Shield lawn grass and desired plants carefully to avoid damage. SharpShooter™ will not move through soil to injure nearby plants. Treated areas can be sown two days after application.

Remarks:

Herbicidal action is rapid with effects visible within hours. For most rapid kill, apply in warm, dry weather.

May cause white residue on some types of brickwork or concrete. Residue will wear off after a few weeks.

Safer, Inc. nor the sellers accept liability resulting from misuse.
