FEB 22 2008

Subject: Notification(s) for Label Revisions under PRN 98-10 and PRN 2007-4
(Storage & Disposal and Other Changes)

Dear Registrant:

The Agency is in receipt of your Application(s) for Pesticide Notification under Pesticide Registration Notices (PRN) 98-10 and 2007-4 dated January 31, 2008 for:

EPA Registration 42697-22 "Safer Sharpshooter Weed & Grass Killer RTU"

The Registration Division (RD) has conducted a review of the request(s) for applicability under PRN 98-10 and PRN 2007-4 and finds that the label changes requested fall within the scope of PRN-98-10 and PRN-2007-4. The label has been date-stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identify the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification/PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact me directly at 703-305-6249 or Owen F. Beeder of my staff at 703-308-8899.

Sincerely,

A handwritten signature in black ink, appearing to read "Linda Arrington".

This notification is consistent with the provisions of PR NOTICE 98-10 and EPA Regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 USC Sec. 1001 to willfully make false statements to EPA. I further understand that if this notification is not consistent with the terms of PR NOTICE 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Notification of label change per PR Notice 2007-4. This notification is consistent with the guidance in PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the Confidential Statement of Formula for this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to EPA. I further understand that if the amended label is not consistent with the requirements of 40 CFR 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

SHAKE WELL

MASTER LABEL-BACK PANEL (Page #1 of 6)

Directions for use:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

[For Edger Products]

Read the entire label before using this product.

WHERE TO USE: Apply wherever unwanted vegetation [weeds or grasses are] is present, such as driveways, along fences, sidewalks, patios, curbs, gutters and cracks in sidewalks. May also be used in and around vegetable gardens, however, do not spray directly on plants used for food.

WHEN TO APPLY: Apply anytime during the growing season. However, to avoid drift onto desirable plants apply only when the air is calm. Maximum vegetation [weed and grass] control will be achieved during warm, sunny weather when weeds [and grasses] are actively growing. SAFER® SHARPSHOOTER® WEED AND GRASS KILLER READY TO USE SPRAY (RTU) will control most young, succulent and actively growing weeds [less than 5" high]. VISIBLE EFFECTS USUALLY OCCUR WITHIN 4 HOURS.

Several [re-] treatments may be required to control certain deep-rooted grasses and weeds such as Bermudagrass and St. Augustine grass. Top growth of these weeds [and grasses] will be controlled [killed] by each application, ultimately resulting in starvation and death of the roots.

This product has not been formulated to prevent germination of weed seeds, therefore, retreat [at two (2) to four (4) week intervals or] as required. Since the herbicidal effects of this product does not remain in the soil, treated areas can be [re-] seeded [sown] two days after treatment.

HOW TO APPLY: SHAKE WELL [BEFORE USE]. Remove the cap from the applicator head making certain that the applicator head is screwed firmly onto the jug [container]. Invert the jug [container] holding it away from the body to avoid contact with the skin or clothing. [For acceptable control it is important to] Apply the product [SAFER® SHARPSHOOTER® WEED AND GRASS KILLER READY TO USE SPRAY (RTU)] to thoroughly cover [wet] all parts of undesirable vegetation. Avoid unnecessary runoff. The width of the sprinkling pattern may be adjusted by raising or lowering the jug [container].

MASTER LABEL-BACK PANEL (Page #2 of 6)

IMPORTANT: THIS PRODUCT IS A GENERAL CONTACT HERBICIDE WHICH HAS BEEN FORMULATED TO KILL ANY VEGETATION WHICH IT CONTACTS. IF ACCIDENTAL CONTACT OCCURS ON DESIRABLE [NON-CROP] VEGETATION WASH IMMEDIATELY WITH WATER. KEEP PEOPLE AND PETS OFF TREATED AREAS UNTIL DRY TO AVOID PRODUCT TRANSFER TO DESIRABLE VEGETATION. PREVENT CONTACT WITH PLANTS USED FOR FOOD.

For killing [controlling] vegetation around trees and shrubs, buildings, edging around lawns, fences, sidewalks, and around desired vegetables and other food crops: hold the jug [container] about two (2) to six (6) inches from the area (or undesired plants) to be treated depending upon the desired width.

For killing [controlling] weeds in brick and gravel walks and patios, and in other unconfined areas: hold the jug [container] about waist high, walking slowly to make sure that all undesirable plants are thoroughly covered with this product.

For re-treating areas or spot treating weeds and grasses in turf: hold the jug [container] at an appropriate height so that the product contacts only the weeds or area requiring re-treatment or spot treatment. When using as a spot treatment in actively growing turf, wet undesirable plants just to the point of runoff. Avoid unnecessary contact with desired turf to prevent permanent injury to turf. This product may also be used to control emerged annual plants [weeds and grasses] in dormant turf such as Bermudagrass. Treated areas can be re-seeded two (2) days after treatment. Before re-seeding, remove dead plant matter and thatch to aid in good seed germination and growth.

For best results, apply to weeds during early period [stages] of growth and during warm dry weather and treat the center growth of weeds. Herbicidal action is rapid with effects visible within hours. The speed at which this product works is affected by climatic conditions. For fastest results, apply in warm, dry weather.

This product may cause white residue on some types of brickwork or concrete. This residue will wear off after a few weeks. [A dilute solution of vinegar can be used to remove residue.]

MASTER LABEL-BACK PANEL (Page #3 of 6)

[Spray Instructions]

Read the entire label before using product. **IMPORTANT: THIS PRODUCT IS A GENERAL CONTACT HERBICIDE AND WILL DAMAGE OR DESTROY [KILL] ALL VEGETATION WHICH IT CONTACTS. AVOID OVERSPRAY OR SPRAY DRIFT ONTO DESIRABLE LAWN GRASS, FLOWERS, VEGETABLES, GARDEN PLANTS, SHRUBS, OR TREES. KEEP PEOPLE AND PETS OFF TREATED AREAS UNTIL DRY TO AVOID PRODUCT TRANSFER TO DESIRABLE VEGETATION.**

[Use product as provided. No dilution required. Use for spot treatment of weeds. Ensure uniform and complete coverage of all types of unwanted vegetation. **VISIBLE EFFECTS USUALLY OCCUR WITHIN FOUR HOURS.** Do not apply during windy conditions that will carry spray onto desirable vegetation.]

USE: Shake well, and use as provided for spot treatment of weeds. Ensure thorough wetting [avoid runoff] and complete coverage of all unwanted vegetation. Do not apply during windy conditions that will carry spray to desired [desirable] vegetation. **Note:** only those plants or plant parts directly contacted by the herbicide spray will be damaged. **Weeds:** This product will control most young, succulent and actively growing weeds [less than 5" high]. Several treatments may be necessary to control grasses and established weeds. Maturing [flowering] or woody weeds are less susceptible and may not be killed. This product will not kill all perennial weeds but will result in top kill and suppression. Weeds and grasses emerging after application, and regrowth from perennial weeds after top kill will not be controlled without reapplication. Under some conditions, tough weeds like Bermudagrass, Canada thistle, and bindweed will show signs of regrowth after several weeks. Should this occur, retreat with this product. [This product is a contact herbicide.] This product is non-selective and non-residual. Shield lawn grass and desired plants carefully [during use] to avoid damage [to the plants]. [The herbicidal effect of this product does not remain in the soil.] This product will not move through soil [translocate] to injure nearby plants. Treated areas can be [seeded] sown two day after application.

11/
13

MASTER LABEL-BACK PANEL (Page #4 of 6)

REMARKS: For best results, apply to weeds during early periods [stages] of growth and during warm dry weather. Herbicidal action is rapid with effects visible within hours.

The speed at which this product works is affected by climatic conditions. For most rapid kill, apply in warm, dry weather.

This product may cause white residue on some types of brickwork or concrete. This residue will wear off after a few weeks. [A dilute solution of vinegar can be used to remove residue.]

This product contains Safer® Brand's unique Weed-Marker™ colorant. Treated areas will be marked by a yellow colorant making treated areas clearly visible. Weed-Marker™ helps you know where you have sprayed. This avoids over application to the same weed, missed weeds, and allows immediate detection of overspray drift onto desirable plants: if drift occurs, immediately rinse off exposed plant surfaces with water. The Weed Marker™ colorant breaks down quickly in sunlight and will be washed off by watering or rains. If this product's residues get on desirable surfaces such as concrete, stone, wood or paint, immediately rinse with water to prevent staining.

Note: Some visible staining may occur if product comes into contact with clothing or shoes. The stains are removed by normal laundering. Shoes should be checked for staining after application so that the colorant will not transfer onto carpets. If the colorant gets on your skin, this will help you realize that you should wash off any product residues. The colorant may temporarily remain on your skin, but it will be removed shortly by normal washings with soap and warm water.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: Harmful if absorbed through skin. Causes moderate eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling.

MASTER LABEL-BACK PANEL (Page #5 of 6)

FIRST AID

If in eyes:

- Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

If on skin or clothing:

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor or going for treatment. You may also contact 1-800-858-7378 for emergency medical treatment.

Environmental Hazards

This product may be hazardous to aquatic invertebrates. Do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning of equipment or disposal of water.

STORAGE AND DISPOSAL

STORAGE: Store only in original container in a cool, dry area inaccessible to children and pets. Protect from freezing and heat. Keep container tightly closed to prevent evaporation.

DISPOSAL:

If Empty: Non-refillable container. Do not reuse or refill this container. Place in trash or offer for recycling if available.

If Partly Filled: Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

MASTER LABEL-OPTIONAL CLAIMS (Page #1 of 1)

[Optional Marketing Claims]

- Eliminates unwanted vegetation (when used according to directions)
- See results within hours of treatment
- For organic gardening
- Always shake well before using!
- Kills some weeds in a day
- 24 hour Kill for some weeds
- Kills some weeds within [in] hours
- Some weeds dead in a day
- Proven effective through University Testing
- University Tested
- Kills some weeds within [in] 24 hours
- See results within hours!
- With Weed Marker™ Colorant Lets You See Where You Spray! Details On Back.
- Destroys or Damages Vegetation (when used according to label directions)
- Will not move through the soil to injure nearby plants.
- Use with confidence
- Effects [results] can be seen in less than eight (8) hours
- Provides top kill in less than 8 hours
- Why wait weeks- kills some weeds within hours!
- No residual effects
- Patented formula
- Effective
- Non-Selective
- Quick Top Kill
- No residual effects in the soil
- No mixing required
- Made with soaps derived from natural fats and plant oils
