Subject: Notification for Safer, Inc.  
Safer® Brand Entire Insect Killer Concentrate (EPA Reg. No. 42697-34)  
Notification of replacement of use sites that were inadvertently omitted on latest "EPA APPROVED LABEL" dated 02-FEB-03

Dear Mr. Kenny,

Please find enclosed notification of additional label phrase per PR-Notice 98-10. I have noted that we inadvertently omitted some use sites from our current label. Please reference label on file approved by the agency on 11-DEC-95. Under the Directions for Use, Fruits & Nuts section of the label an omission was made on the latest EPA approved labeling dated 02-FEB-03. Six (6) use sites were inadvertently omitted (apricots, pears, almonds, pecans, walnuts, kiwi fruit). This notification is to correct the typographical error and add these use sites back onto the label. These uses were not formerly cancelled. An oversight was made on the latest EPA approved labeling. Please reference the approved label dated 11-DEC-95 which includes these use sites. Five (5) copies of our corrected master label is included with uses that were omitted in highlight. Five (5) copies of our current Final Printed label is included.

Sincerely,

A handwritten signature in black ink, appearing to read "Nathan P. Ehresman", followed by a horizontal line.
