READ ENTIRE LABEL BEFORE EACH USE

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not use this product in or on electrical equipment due to the possibility of shock hazard. Do not use in commercial food/feed handling establishments, restaurants or other areas where food is commercially prepared, processed or served.

SHAKE WELL BEFORE USING.

INDOOR APPLICATION: For spot application only. Do not use as a space spray indoors. In the home cover all food handling surfaces and cover or remove all food and cooking utensils or wash thoroughly after treatment. **To control [kill] Ants [(including Fire Ants)], Cockroaches, Waterbugs, Palmetto Bugs, Spiders, Crickets, [Earwigs, Flies, Wasps, Hornets, Yellow-Jackets, Bees,] Scorpions, Millipedes, Centipedes, Sowbugs, Pillbugs, Silverfish, Firebrats, Clover Mites, Cheese Mites, Granary Weevils, Rice Weevils, Confused Flour Beetles, Rust Red Flour Beetles, Drugstore Beetles, Meal Worms, Grain Mites and Cadelles:** Direct the spray into hiding places, cracks and crevices, [openings around pipes and sinks, under refrigerators, baseboards] and behind shelves and drawers. For ants spray trails, nests and points of entry. For silverfish, spray bookcases. [Spray directly on all types of insects where possible. Pests which are fully contacted by spray may not die immediately, however, all pests contacted will die within 24 hours of application.]

To control [kill] Fleas (adults and larvae) and Ticks (adults and larvae) [of Brown Dog, Deer, Bear, Black Legged which vector Lyme Disease and Lone Star Ticks]: Thoroughly spray infested areas, pet beds, resting quarters, nearby cracks and crevices, along and behind baseboards, moldings, window and door frames and entire areas of floor and floor covering. Fresh bedding should be placed in animal quarters following treatment. Allow to dry thoroughly before allowing pets to contact treated areas.

To control [kill] Carpet Beetles: Spray edges of carpeting and under carpeting and rugs. Make localized application to floor and baseboards. Spray directly into cracks, crevices and infested areas of shelving.

To control [kill] Bed bugs: Spray mattresses lightly, particularly around tufts and seams. Take beds apart and spray in all joints. Treat baseboards, moldings and floors. Allow all treated articles to dry thoroughly before use.

To control [kill] Clothes Moths: Remove any infested articles from storage, brush thoroughly and air for several hours in sunlight if possible. Apply spray liberally to empty chests, closets, bureaus and other storage areas directing the spray into cracks, joints and crevices. After airing, infested articles may be treated lightly, keeping nozzle at least three feet from fabric to avoid staining.

EPA Reg. No. 42697-38

Page 3 of 6

MASTER LABEL-BACK PANEL (Page #2 of 4)

To control [kill] Lice and Louse eggs: Spray in an inconspicuous area to test for possible staining or discoloration. Inspect again after drying, then proceed to spray entire area to be treated. Spray from a distance of 8 to 10 inches. Treat only those garments and parts of bedding, including mattresses and furniture that cannot be either laundered or dry cleaned. Allow all treated articles to dry thoroughly before use.

USE ONLY ON DOGS

To control [kill] Fleas, Ticks and Lice: Start spraying at the tail, moving the dispenser rapidly and making sure that the animal's entire body is covered, including the legs and underbody. While spraying, fluff the hair so that the spray will penetrate to the skin. Make sure spray wets thoroughly, but do not saturate animal. Do not spray into eyes or face. Avoid contact with genitalia. Hold sprayer about one foot away while spraying. **NOTE: DO NOT USE ON CATS OR KITTENS. DO NOT USE ON DOGS UNDER (12) WEEKS. CONSULT A VETERINARIAN BEFORE USING THIS PRODUCT ON MEDICATED, AGED, SICK, DEBILITATED, PREGNANT OR NURSING DOGS. DO NOT USE ON CATS OR KITTENS.** Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur, bathe you pet with mild soap and large amounts of water. If signs continue, consult a veterinarian immediately.

OUTDOOR APPLICATION

To help control [kill] Ticks in outdoor activity areas, treat a band of vegetation and leaf litter 6-10 feet wide and adjacent to activity areas, especially where dense vegetation occurs.

For control [kill] of garden insects: For use on roses, dahlias, asters and other ornamentals to kill Japanese Beetles hit by spray as well as **Whiteflies, Aphids, exposed Thrips, Spider and Red Mites and Leafminers.** May be used on plants as a multi-purpose spray in small gardens and for spot treatment of incipient infestations to prevent spreading in large garden areas.

Effective when used as directed against Whiteflies, Aphids, Spider and Red Mites, exposed Thrips, Lace Bugs, Leafminers, Pavement Ants, Earwigs, Clover Mites, Cabbage Worms, Fungus Gnats, Spring and Fall Cankerworms, Bagworms, Leafrollers, Inchworms, Cicadas, Bagworms, Pine moths, Pine Beetles, Needle Scales, Budworms, Oakworms, Fall webworms, Tussock Moths, Elm Leaf Beetles, Elm Spanworms and Armyworms. Also effective against Japanese Beetles and Grasshoppers hit by the spray.

For use on ornamental plants such as African violets, asters, azaleas, begonias, camellias, carnations, chrysanthemums, dahlias, delphiniums, dogwoods, English ivy, euonymus, fuschia, geraniums, crassula, grape vines, Kentia palms, laurels, marigolds, rhododendrons, roses, rubber plants, snapdragons, stocks, wandering Jews and zinnias.

When spraying plants, do not operate closer than 18 inches. Use sweeping motion. Be cautious about wetting tender foliage, young plants and new growth. Do not spray plants when temperatures exceed 90°F. Contact insects directly whenever possible. Repeat treatment at weekly intervals as required.
