**No. 5260  
ANT, ROACH &  
INSECT KILLER**

**DO NOT USE IN OR AROUND  
ELECTRICAL EQUIPMENT  
DUE TO THE POSSIBILITY OF  
SHOCK HAZARD**

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**SHAKE WELL BEFORE USING:** Remove protective cap, hold container upright and spray from a distance of 12 to 15 inches.

**INDOOR:** In the home, a food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

**Ants:** Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

**Cockroaches, Waterbugs, Pillbugs, Beetles, Spiders, Scorpions, Centipedes, Millipedes, Crickets, Silverfish, Firebrats, Booklice and Fleas:** Spray into hiding places such as cracks and crevices behind sinks, cabinets, along baseboards and floors, around drains and plumbing. Kill flying insects with spray whenever possible. Repeat treatment as necessary.

**Flies & Ticks (Adults and Larvae):** Remove and thoroughly clean or destroy pet bedding. Spray pet sleeping quarters, bed, entire floor and floor covering, with special attention to cracks and crevices around baseboards, and window and door frames. Infested upholstered furniture and mattresses may also be treated with this product. A test application should be made to upholstery or drapery fabric in an inconspicuous place before use.

**Flies in the House - House spray:** Hold can 36 inches above floor and direct spray toward floor and lower walls at a rate of 10 seconds per 100 sq. ft., making sure that all floor, walls and chair surfaces are contacted. Leave room and keep area closed for 15 minutes. Open and ventilate before reoccupying. Repeat treatment after 7 days or as needed.

**To control Flies, Ticks and Lice on Dogs:** Starting at the head, stroke against the lay of the hair, spraying the part for in short bursts, directly behind the head to insure penetration to the coat. Sweep the fur back to the tail. Repeat application weekly if necessary to control infestations. **NOTE:** Not recommended for use on puppies less than four weeks old.

**To Kill Lice and Lice Eggs:** Spray in an inconspicuous area to test for possible staining or discoloration. Inspect again after drying. Then proceed to spray entire area to be treated. Hold container upright with nozzle away from you. Depress valve and spray from a distance of 8 to 10 inches. Spray each square foot for three seconds. Spray only clean garments and parts of bedding, including mattresses and furniture that cannot be either laundered or dry cleaned. Allow all sprayed articles to dry thoroughly before use.

**Carpet Beetle:** Spray directly on beetles, floors, baseboards, shelves and carpets. Repeat treatment as necessary.

**Chatter Flies, House Flies, Fruit Flies, Mosquitoes, Gnats, Wasps, Hornets, Bees, Black Flies, Blister Flies, Bare Flies and Small Flying Insects:** Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room, moving toward the door. Direct spray to all parts of the room, especially windows and other light sources which attract these insects. Keep nozzle in constant motion. Leave room and keep area closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and discard fallen insects. Repeat treatment as necessary.

**Bedbugs:** Spray mattress, particularly around tufts and seams. Take beds apart and spray into all joints. Treat baseboards, moldings and floor. Repeat treatment as necessary. Allow all sprayed articles to dry thoroughly before use.

**To control Clothes Moths and Carpet Beetles on wool and other proteinaceous fibers:** Remove infested articles from storage. Wash thoroughly, and air for several hours in sunlight, if possible. Apply spray liberally in empty chests, closets, bureaus and other storage areas directing the spray into cracks, joints and crevices. After airing, infested articles may be treated by spraying lightly, holding nozzle at least three feet from fabric to avoid staining.

**OUTDOORS:** Point spray nozzle away from face. Hold can on slight downward angle. For best results, spray when air is calm. Allow a few minutes for product to take effect. Spray with wind if breeze is blowing.

**FLYING INSECTS:** Flies, Mosquitoes, Gnats, Small Flying Moths, Hornets, Wasps and Yellow Jackets: Allow fog to drift over area. Direct spray toward bees, or gnats from at least 4 to 6 feet away. Give special attention to breeding areas such as garbage cans and compost piles. Repeat as necessary.

**Wasp Densities and Wasp Nests:** Spray nest directly on insects and their nests from approximately 2 feet away. Contacted insects will fly away from fog. Applications should be made in late evening when insects are at rest. Spray into hiding and breeding places contacting as many insects as possible.

**CRAWLING INSECTS:** Ants, Cockroaches, including Asian Cockroaches, Crickets, Mole Crickets, Centipedes, and Silverfish. Spray infested surfaces of patio or picnic area, killing as many insects as possible. Also spray legs of tables and chairs to repel ants. Spray soil hills for best control.

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans & Domestic Animals**

**CAUTION:** Harmful if inhaled. Avoid breathing vapor or spray mist. Remove contaminated clothing and wash before reuse. Avoid contamination of food and foodstuffs. Remove pets and birds and cover fish aquaria before spraying. Vacate room after treatment and ventilate before reoccupying. Do not allow children or pets to contact treated areas until surfaces are dry.

**First Aid:** If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Get medical attention.

**IN CASE OF EMERGENCY CALL 1-800-228-6838, EXT. 170.**

**Environmental Hazards:** This product is toxic to fish. Do not apply directly to any body of water. Do not contaminate water when disposing of equipment washwaters.

**Physical or Chemical Hazards:** Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. **DO NOT USE THIS PRODUCT IN OR ON ELECTRICAL EQUIPMENT DUE TO THE POSSIBILITY OF SHOCK HAZARD.**

**STORAGE AND DISPOSAL:** Storage: Store in a cool, dry area. Do not transport or store below 32°F. Disposal: Wrap container in several layers of newspaper and dispose of in trash. Do not incinerate or puncture. This container may be recycled at approved recycling centers. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label (DO NOT PUNCTURE!). If recycling is not available, wrap the container and discard in the trash.

1. Contact Point (Complete items directly below for identification of individual to be contacted, if necessary, to process this application.)

Name Elizabeth L. Neslund	Title Regulatory Affairs Specialist	Telephone No. (Include Area Code) 612-941-4180
------------------------------	--	---

<b>Certification</b> I certify that the statements I have made on this form and all attachments thereto are true, accurate and complete. I acknowledge that any knowingly false or misleading statement may be punishable by fine or imprisonment or both under applicable law.		6. Date Application Received (Stamped)
2. Signature 	3. Title Regulatory Affairs Specialist	
4. Typed Name Elizabeth L. Neslund	5. Date 8/1/95	

FORM 49-2000-10-1 (1-10-10) 10-10-10

**INDOORS:** In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

**Ants:** Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

**Cockroaches, Waterbugs, Pillbugs, Beetles, Spiders, Millipedes, Centipedes, Silverfish, Firebrats, Sawtooths and Pillbugs:** Spray into hiding places such as cracks and crevices behind seats, cabinets, along baseboards and floors, around drains and plumbing, killing insects with spray whenever possible. Repeat treatment as necessary.

**Flies & Ticks (Adults and Larvae):** Remove and thoroughly clean or destroy pet bedding. Spray pet sleeping quarters, bed, entire floor and floor covering, with special attention to cracks and crevices around baseboards, and window and door frames. Infested upholstered furniture and mattresses may also be treated with this product. A test application should be made to upholstery or drapery fabrics in an inconspicuous place before use.

**Flies in the Kitchen - House spray:** Hold can 26 inches above floor and direct spray toward floor and lower walls at a rate of 10 seconds per 100 sq. ft. making sure that all floor, side and chair surfaces are contacted. Leave room and keep area closed for 15 minutes. Open and ventilate before reoccupying. Repeat treatment after 7 days or as needed.

**To control Flies, Ticks and Lice on dogs:** Starting at the head, stroke against the lay of the hair, spraying the parted hair in short bursts, directly behind the head to ensure penetrating the coat. Campaign the fur back to the tail. Repeat application weekly if necessary to control infestations. NOTE: Not recommended for use on puppies less than four weeks old.

**To kill Lice and Lice eggs:** Spray in an inconspicuous area to test for possible staining or discoloration. Inspect again after drying. Then proceed to spray entire area to be treated. Hold container upright with nozzle away from you. Depress valve and spray from a distance of 8 to 10 inches. Spray each square foot for three seconds. Spray only those garments and parts of bedding, including mattresses and furniture that cannot be either laundered or dry cleaned. Allow all sprayed articles to dry thoroughly before use.

**Carpet Beetles:** Spray directly on beetles, floors, baseboards, shelves and carpets. Repeat treatment as necessary.

**Clothes Moths, Fleas, Fleas, Mosquitoes, Gnats, Wasps, Hornets, Bees, Black Flies, Stinging Flies, Horse Flies and Saw II Flying Bees:** Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room, moving toward the door. Direct spray to all parts of the room, especially windows and other light sources which attract these insects. Keep nozzle in constant motion. Leave room and keep area closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and discard fallen insects. Repeat treatment as necessary.

**Bedbugs:** Spray mattresses, particularly around tufts and seams. Take beds apart and spray into all parts. Treat baseboards, moldings and floors. Repeat treatment as necessary. Allow all sprayed articles to dry thoroughly before use.

**To control Clothes Moths and Carpet Beetles on wool and silk:** Remove infested articles from storage. Wash thoroughly, and air for several hours in sunlight, if possible. Apply spray liberally to empty chests, closets, bureaus and other storage areas directing the spray into cracks, joints and crevices. After airing, infested articles may be treated by spraying lightly, using nozzle at least three feet from fabric to avoid staining.

**FLIES AND TICKS:** Flies, mosquitoes, ticks, water flying insects, moths, wasps and Yellow Jackets. Allow fog to drift over area. Direct spray toward bushes, or grass from at least 4 to 6 feet away. Give special attention to breeding areas such as garbage cans and compost piles. Repeat as necessary.

**Bed Beetles and Wasp Nests:** Spray mist directly on insects and their nests from approximately 2 feet away. Contacted insects will fly away from fog. Applications should be made in late evening when insects are at rest. Spray into hiding and breeding places contacting as many insects as possible.

**CHARMING INSECTS:** Ants, Cockroaches, including Asian Cockroaches, Crickets, Mole Crickets, Centipedes, and Silverfish. Spray infested surfaces of patio or picnic area, killing as many insects as possible. Also spray legs of tables and chairs to repel ants. Spray ant hills for best control.

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans & Domestic Animals**

**CAUTION:** Harmful if inhaled. Avoid breathing vapor or spray mist. Remove contaminated clothing and wash before reuse. Avoid contamination of food and foodstuffs. Remove pets and birds and cover fish aquaria before spraying. Vacate room after treatment and ventilate before reoccupying. Do not allow children or pets to contact treated areas until surfaces are dry.

**FIRST AID:** If inhaled: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Get medical attention. **IN CASE OF EMERGENCY CALL 1-800-270-6638, EXT. 170.**

**Environmental Hazards:** This product is toxic to fish. Do not apply directly to any body of water. Do not contaminate water when disposing of equipment washwaters.

**Physical or Chemical Hazards:** Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. **DO NOT USE THIS PRODUCT IN OR ON ELECTRICAL EQUIPMENT DUE TO THE POSSIBILITY OF SHOCK HAZARD.**

**STORAGE AND DISPOSAL**

**Storage:** Store in a cool, dry area. Do not train port or store below 32°F. Disposal: Wrap container in several layers of newspaper and dispose of in trash. Do not recycle or puncture. This container may be recycled in approved recycling centers. All present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label (DO NOT PUNCTURE!). If recycling is not available, wrap the container and discard in the trash.

Ranger Corp. and Seler<sup>®</sup>, Inc. will not accept liability for damage or injury resulting from misuse.

SHOCK HAZARD**

**DIRECTIONS FOR USE:** It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**SHAKE WELL BEFORE USING:** Remove protective cap, hold container upright and spray from a distance of 12 to 15 inches.

**INDOORS:** In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before use. Exposed food should be covered or removed.

**Ants:** Spray trails, nests and points of entry. Spray on ants where possible. Repeat as necessary.

**Cockroaches, Waterbugs, Pillbugs, Beetles, Crickets, Scorpions, Spiders, Millipedes, Centipedes, Silverfish, Firebrats, Sawflies and Pillbugs:** Spray into hiding places such as cracks and crevices behind sinks, cabinets, along baseboards and floors, around drains and plumbing, killing insects with spray whenever possible. Repeat treatment as necessary.

**Flies & Ticks (Adults and Larvae):** Remove and thoroughly clean or destroy pet bedding. Spray pet sleeping quarters, bed, entire floor and floor covering, with special attention to cracks and crevices around baseboards and window and door frames. Infested upholstered furniture and mattresses may also be treated with this product. A test application should be made to upholstery or drapery fabrics in an inconspicuous place before use.

**Flies in the kitchen - Repeat spray:** Hold can 36 inches above floor and direct spray toward floor and lower walls at a rate of 10 seconds per 100 sq. ft. making sure that all floor, sills and chair surfaces are contacted. Leave room and keep area closed for 15 minutes. Open and ventilate before reoccupying. Repeat treatment after 7 days or as needed.

**To control Fleas, Ticks and Lice on dogs:** Starting at the head stroke against the lay of the hair, spraying the animal in short bursts, directly behind the head to insure penetrating the coat. Complete the fur back to the tail. Repeat application weekly if necessary to control infestations. **NOTE:** Not recommended for use on puppies less than four weeks old.

**To kill Lice and Lice on eggs:** Spray in an inconspicuous area to test for possible staining or discoloration. Inspect again after drying. Then proceed to spray entire area to be treated. Hold container upright with nozzle away from you. Depress valve and spray from a distance of 8 to 10 inches. Spray each square foot for three seconds. Spray only those garments and parts of bedding, including mattresses and furniture that cannot be either laundered or dry cleaned. Allow all sprayed articles to dry thoroughly before use.

**Carpenter Beetles:** Spray directly on beetles, floors, baseboards, shelves and carpets. Repeat treatment as necessary.

**Cluster Flies, Houseflies, Fruit Flies, Mosquitoes, Gnats, Wasps, Hornets, Bees, Black Flies, Stinger Flies, Blow Flies and Small Flying Bees:** Close all doors and windows and direct spray upward into center of room with a slow sweeping motion. Spray 5-10 seconds for average room, moving toward the door. Direct spray to all parts of the room, especially windows and other light sources which attract these insects. Keep nozzle in constant motion. Leave room and keep area closed for 15 minutes after spraying. Ventilate room thoroughly before re-entry. Sweep up and discard fallen insects. Repeat treatment as necessary.

**Bedbugs:** Spray mattresses, particularly around tufts and seams. Take beds apart and spray into all joints. Treat baseboards, moldings and floors. Repeat treatment as necessary. Allow all sprayed articles to dry thoroughly before use.

**To control Clothes Moths and Carpet Beetles on wool and other proteinaceous fibers:** Remove infested articles from storage. Brush thoroughly and air for several hours in sunlight, if possible. Apply spray liberally to empty chests, closets, bureaus and other storage areas directing the spray into cracks, joints and crevices. After airing, infested articles may be treated by spraying lightly, keeping nozzle at least three feet from fabric to avoid staining.

**OUTDOORS:** Point spray nozzle away from face. Hold can on slight downward angle. For best results, spray when an insect is calm. Allow a few minutes for product to take effect. Spray with wind if breeze is blowing.

**FLYING INSECTS:** Flies, Mosquitoes, Gnats, Small Flying Moths, Hornets, Wasps and Yellow Jackets: Allow fog to drift over area. Direct spray toward bushes, or grass from at least 4 to 6 feet away. Give special attention to breeding areas such as garbage cans and compost piles. Repeat as necessary.

**Mad Bees and Wasps Nests:** Spray nest directly on insects and their nests from approximately 2 feet away. Contacted insects will fly away from fog. Applications should be made in late evening when insects are at rest. Spray into hiding and breeding places contacting as many insects as possible.

**CRAWLING INSECTS:** Ants, Cockroaches, including Asian Cockroaches, Crickets, Mole Crickets, Centipedes, and Silverfish: Spray exposed surfaces of patio or picnic area, killing as many insects as possible. Also spray legs of tables and chairs to repel ants. Spray ant hills for best control.

**PRECAUTIONARY STATEMENTS**

**Hazards to Humans & Domestic Animals**

**CAUTION:** Harmful if inhaled. Avoid breathing vapor or spray mist. Remove contaminated clothing and wash before reuse. Avoid contamination of food and foodstuffs. Remove pets and birds and cover fish aquaria before spraying. Vacate room after treatment and vent before reoccupying. Do not allow children or pets to contact treated areas until surfaces are dry.

**First Aid:** If inhaled, Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Get medical attention.

**IN CASE OF EMERGENCY CALL 1-800-278-6436, EXT. 170.**

**Environmental Hazards:** This product is toxic to fish. Do not apply directly to any body of water. Do not contaminate water when disposing of equipment and washwaters.

**Physical or Chemical Hazards:** Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. **DO NOT USE THIS PRODUCT IN OR ON ELECTRICAL EQUIPMENT DUE TO THE POSSIBILITY OF SHOCK HAZARD.**

**STORAGE AND DISPOSAL**

**Storage:** Store in a cool, dry area. Do not transport or store below 32°F. Disposal: Wrap container in several layers of newspaper and dispose of in trash. Do not incinerate or puncture. This container may be recycled in approved recycling centers. At present, there are only a few such centers in the country. Before offering for recycling, empty the can by using the product according to the label (DO NOT PUNCTURE!). If recycling is not available, wrap the container as 1, discard in the trash.
