**No. 5200
WASP & HORNET KILLER**

**DO NOT USE IN OR AROUND
ELECTRICAL EQUIPMENT
DUE TO THE POSSIBILITY OF
SHOCK HAZARD.**

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Toxic if swallowed, inhaled or absorbed through the skin. Avoid breathing vapors. Avoid contact with eyes, skin or clothing.

FIRST AID (STATEMENT OF PRACTICAL TREATMENT)

If Swallowed: Immediately contact a physician or poison control center. Do not induce vomiting due to aspiration hazard. If Inhaled: Remove victim to fresh air. Apply artificial respiration if indicated. Contact a physician if warranted. If On Skin: Immediately remove contaminated clothing and wash skin with plenty of water. Contact a physician if irritation persists. Wash clothing prior to reuse. If In Eyes: Immediately flush with plenty of water. Contact a physician if irritation persists.

PHYSICAL OR CHEMICAL HAZARDS

Contains under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting. Incineration of container may cause explosion.

DO NOT USE IN OR AROUND ELECTRICAL EQUIPMENT DUE TO THE POSSIBILITY OF SHOCK HAZARD.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters or rinsate.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

OUTDOORS

**SHAKE TWICE ONLY BEFORE USING. HOLD CAN UPRIGHT.
APPLY IN SHORT BURSTS. DO NOT USE INSIDE THE HOME.**

To Kill Wasps: Application should be made at dusk or early morning when insects are least active. Hold can upright. Point valve opening away from face. With wind at back, aim at nests in trees, bushes, under eaves, chimneys, cracks or crevices. **To Kill Yellow Jackets:** Yellow Jackets make their nests in the ground, dead tree stumps, railroad ties, walls of smaller structures. During daylight hours, watch them closely to determine location of nest entrance. Wait until dusk or early morning when insects are at rest. Empty entire can down hole from a close enough distance to direct 100% of spray into hole.

To Kill Hornets: Unless you can clearly see the opening at the bottom of the hornets' nest, never use a hornet spray (or the nest) as hornets may escape and attack you. Hornets usually make their nests in trees, shrubs and under eaves. During daylight hours, determine location of nest entrance. Wait until dusk or early morning when insects are at rest. Direct foam spray into entrance hole. As hornets fall, do not continue spraying until no more are visible or the can is empty. Leave area immediately.

To Kill Spiders, Caterpillars and Eastern Tree Caterpillars: General: When sprayed directly on insects, this spray will kill the insects listed. Caution should be taken when spraying near young plants, young points **WHEN SPRAYING, HOLD CAN 18 - 24 INCHES FROM PLANT.** For best results, spray in the evening or on a cloudy day when air is still. Mist the plants lightly. Use a slow sweeping motion. Avoid wetting foliage with spray. Spray leaves at the rate of 1 foot per second for heavy growth. Spray both sides of row. Repeat as needed. Do not spray when temperatures exceed 90°F. This product is not recommended for use on vinyl siding.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place (preferably locked) inaccessible to children and pets, and away from heat, open flame or other sources of ignition. **Disposal:** This container may be recycled in aerosol recycling centers. At present, there are only a few such facilities in the country. Before offering for recycling, empty the can by using the product according to the label (DO NOT PUNCTURE!). If recycling is not available, wrap the container and discard in the trash.
