U.S. ENVIRONMENTAL PROTECTION AGENCY  
Office of Pesticide Programs  
Registration Division (7505C)  
401 "M" St., S.W.  
Washington, D.C. 20460

EPA Reg. Number:  
42750-66

Date of Issuance:  
MAY 24 2002

Term of Issuance:  
Conditional

Name of Pesticide Product:  
Gly Star Ready-to-Use  
Grass and Weed Killer

NOTICE OF PESTICIDE:  
 Registration  
 Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Mr. Michael Kellogg  
Albaugh, Inc.  
11324 17th Ave. Ct. N.W.  
Gig Harbor, WA 98332

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.
2. Submit the data matrix citing the technical registration which supports this product.
3. Add the phrase "EPA Registration No. 42750-66".

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Submit three (3) copies of your final printed labeling before you release the product for shipment.

Enclosed for your records is a copy of your label stamped "Accepted with Comments".

**PRODUCT INFORMATION** [This section is optional and may not be included on all final labels]**KILLS WEEDS** All types of weeds & grasses [illustration may be included here]

- WHERE TO USE**
- On patios, walkways & driveways
  - In flowerbeds & vegetable gardens
  - Around shrubs & trees
  - Along fences & foundations
  - Other areas in your yard
  - Edging around lawns
  - In large areas:
    - o For lawn replacement/renovation
    - o For garden plot preparation

**HOW TO APPLY** [Instructions for trigger sprayer]

- Adjust nozzle to a coarse spray.
- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds in a flowerbed or vegetable garden, shield desirable plants from drift with a sheet of cardboard or plastic. If desirable plant is accidentally sprayed, rinse off immediately with water.

**IMPORTANT:** Do not spray plants or grasses you like – they may die too. Not recommended for spot weed control in lawns because Gly Star™ Ready-to-Use Grass and Weed Killer kills lawn grasses.

[OR]

**HOW TO APPLY** [Instructions for sprayer hose and cap assembly]

- After shaking product well, remove cap from container and replace with sprayer hose and cap assembly. Tighten securely.
- Turn sprayer nozzle one-half turn counterclockwise. Hold sprayer below the level of container and prime by pumping trigger 10-15 times until product is dispensed. Adjust nozzle to fine spray or jet stream as needed.
- Spray the weeds or grasses you want to kill until thoroughly wet.
- When spot treating weeds in a flowerbed or vegetable garden, shield desirable plants from drift with a sheet of cardboard or plastic. If desirable plant is accidentally sprayed, rinse off immediately with water.
- After each use, thoroughly flush sprayer and hose with water. Return hose and cap assembly to container. Tighten securely. Turn nozzle to "off" position and store above level of liquid in container to prevent leakage.

**NOTE:** If sprayer does not function properly, remove nozzle cover and check nozzle hole and holes in rubber component for obstructions. Check to make sure nozzle is not in "off" position. Replace nozzle cover, return sprayer assembly to container and proceed.

**IMPORTANT:** Do not spray plants or grasses you like – they may die too. Not recommended for spot weed control in lawns because Gly Star™ Ready-to-Use Grass and Weed Killer kills lawn grasses.

**ADDITIONAL TIPS**

For lawn replacement, use Gly Star™ Ready-to-Use Grass and Weed Killer to kill lawn and weeds before planting new lawn.

- Skip one mowing before spraying.
- If soil is dry, water before application and 2 to 3 days after applications.
- If green patches remain after 7 days, reapply.
- Wait 7 days after last application to rake, till or plant with seed or sod.

**WHEN TO APPLY**

- Apply when weeds are actively growing.
- For best results, apply during warm, sunny weather (above 60°F).
- Spray when air is calm to prevent drift to desirable plants.
- Rain or watering 2 hours after application will not wash away effectiveness.
- Apply when weeds are small and before seeds form.
- All ornamental flowers, trees and shrubs may be planted 1 day after application.

[OR last bullet of when to apply would not be used and the following text may be used]

**WHEN TO REPLANT**

- All ornamental flowers, trees and shrubs may be planted 1 day after application.
- The following berries may be planted 1 day after application:  
Blackberry, Blueberry, Boysenberry, Cranberry, Currant, Dewberry, Elderberry, Gooseberry, Huckleberry, Loganberry, Olallieberry and Raspberry (Black and Red).
- The following fruits, vegetables and herbs may be planted 1 day after application: Artichoke (Jerusalem), Beans (all), Beet Greens, Broccoli, Brussels Sprouts, Cabbage (all), Carrot, Cauliflower, Celery, Chard (Swiss), Chicory, Collards, Endive, Horseradish, Kale, Kohlrabi, Leek, Lentils, Lettuce, Mustard Greens, Okra, Onion, Rape Greens, Parsley, Parsnips, Potato, Radish, Rhubarb, Rutabaga, Spinach, Sweet Potato, Turnip and Yams.
- The following fruits, vegetables and herbs may be planted 3 days after application: Corn, Cucumber, Eggplant, Garlic, Gourds, Melons (all), Peas (all), Peppers (all), Pumpkin, Squash (summer and winter), Tomatillo, Tomato (by seed), and Watercress.
- Lawn grasses may be planted 7 days after application.
- Tomatoes from transplant and unlisted fruits, vegetables and herbs may be planted 30 days after application.

**WHEN TO HARVEST**

If used to control weeds around fruits or nuts, wait the following number of days before harvesting:

- Citrus (Citron, Grapefruit, Kumquat, Lemon, Lime, Mandarin, Orange, Pummelo, Tangelo, Tangerine), Guava, Papaya – 1 day.
- Nuts (Almond, Beechnut, Brazil Nut, Butternut, Cashew, Chestnut, Filbert, Hazelnut, Hickory Nut, Macadamia, Pecan, Pistachio, Walnut) – 3 days.
- Apple, Avocado, Banana (Plantains), Berries (except Cranberries), Dates, Figs, Grapes, Loquat, Passion Fruit, Pear, Persimmon, Pomegranate and Quince – 14 days.
- Apricot, Cherries, Nectarine, Olives, Peach, Plum and Prunes – 17 days.
- Cranberries – 30 days.

**HOW IT WORKS**

Gly Star™ Ready-to-Use Grass and Weed Killer enters plants through foliage and moves systematically to the roots, killing weeds by stopping the production of a substance found only in plants. Any product not absorbed by plants breaks down into natural materials, without moving in or on the soil to untreated plants. Weeds yellow and wilt within hours with complete kill in 1 to 2 weeks. Established weeds may require a repeat application.

5/5

**REFILL:**

[Instructions for a 24 fl oz container:]

To this empty container add 2 fl. oz. of Gly Star™ Concentrate then fill with water very slowly to avoid foaming.

[Instructions for a 32 fl oz container:]

To this empty container add 2.5 fl. oz. of Gly Star™ Concentrate then fill with water very slowly to avoid foaming.

[Instructions for a ½ gal container:]

To this empty container add 5 fl. oz. of Gly Star™ Concentrate then fill with water very slowly to avoid foaming.

[Instructions for a 1 gal container:]

To this empty container add 10 fl. oz. of Gly Star™ Concentrate then fill with water very slowly to avoid foaming.

1 fl oz = 2 Tablespoons

**STORAGE AND DISPOSAL**

**STORAGE:**

[For Trigger Sprayer:] Rotate nozzle to "off" position. Store product in original container in a safe place. Keep from freezing.

OR

[For sprayer hose and cap assembly:] Thoroughly flush sprayer and hose with water. Return hose and cap assembly to container. Tighten securely. Turn nozzle to "off" position and store above level of liquid in container to prevent leakage. Store product in original container in a safe place. Keep from freezing.

**DISPOSAL:**

**If empty:** Do not reuse container (except to refill according to the directions provided above). Place in trash or offer for recycling if available.

**If partly filled:** Your local government may forbid pesticides in their landfills. Therefore, call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

**NOTICE**

Buyer assumes all responsibility for safety and use not in accordance with directions.
