Dear Ms. Gaskins:

**Subject: Supplemental Label Submission - Adding Advisory Sorghum Use Statement  
Outlaw  
EPA Registration Number 42750-68  
Application Submission dated October 4, 2004**

The supplemental labeling referred to above and submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable with the following conditions:

1. The portion of the supplemental label that reads "See container label for addition precautions and directions for use", must read "Read the label affixed to the container for Outlaw before applying."
2. The following statement must be added: "Use of Outlaw according to this labeling is subject to the use precautions and limitations imposed by the label affixed to the container for Outlaw."

During your next label printing, or within eighteen months of the date of this letter, whichever comes first, you must incorporate this supplemental labeling into the main product labeling along with the corrections. A stamped copy of the label is enclosed for your records. Please submit one copy of your final printed label before you release the product for shipment.

Sincerely,

ISI

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

Unless otherwise directed in supplemented labeling, all applicable directions, restrictions, precautions and Conditions of Sale and Warranty are to be followed. This labeling must be in the user's possession during application.

### GRAIN SORGHUM, FORAGE SORGHUM

Do not apply to any variety of sorghum after prop root collar development. Application after formation of the prop root collar may result in unacceptable phytotoxicity if product washes off foliage and into the root zone due to a rain or irrigation event.
