RE: Notification to Add Pest
EPA Registration Number: 42750-155
Date of Submission: April 20, 2007

Dear Mr. Gaskins:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 dated April 19, 2007, for the product Imidacloprid 1.47% FL. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the actions requested fall within the scope of PRN 98-10. The label submitted with the application has been stamped "Notification" and will be placed in our records.

If you have any questions, please call me directly at 703-305-6249 or Joyce Edwards of my staff at 703-308-5479.

Sincerely,

A handwritten signature in cursive script, appearing to read "Linda Arrington".

- Coverage for Trees: X inches of distance around tree(s) Shrubs: Y (2 ft tall)
- Outdoor trees and shrubs, including listed fruit and nut trees
- Use once a year or when insects are present
- Trees Use: 1 ounce per inch of distance around trunk
- Shrubs Use: 3 ounces per foot of height

DIRECTIONS FOR USE	
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For best results, read and follow all label directions.	
BEFORE YOU USE Read and follow directions when using.	<ul style="list-style-type: none"> • Do not apply near lakes, streams, rivers, or ponds. • Do not apply to soils which are water-logged or saturated. • Bucket or measuring utensils should not be used for any food or drinking water purposes after use with this product.
HOW TO USE	Determine the amount to use by measuring the distance around the tree trunk or height of the shrub. Pour the required amount into a bucket of water and empty the bucket around the base of the tree/shrub.
FOR USE ON	Outdoor trees and shrubs including listed fruit and nut trees:

DIRECTIONS FOR USE	
HOW TO APPLY	<ul style="list-style-type: none"> • Fill a bucket or watering can with 1 gallon of water. [For trees with circumference greater than 50', use 2 gallons of water.] • Shake the bottle of IMIDACLOPRID 1.47% FL well. • Remove the measuring cup. [Each marking inside is one ounce.] • Carefully measure required amount of product into bucket. • Slowly pour the solution evenly around the tree. For best results, pour as close to the TRUNK/main stem of the tree/shrub as possible. • Fill the bucket with clean water and pour it around the trunk as well.
FOR BEST RESULTS	<p>Use this product as part of an overall tree and shrub health care program before problems start [preferably in the fall]. However, IMIDACLOPRID 1.47% FL can be applied anytime except when the ground is waterlogged or frozen. These conditions inhibit the movement of the product down into the root zone.</p> <p>During prolonged dry periods [spells], water the tree/shrub well the night before making an application.</p> <p>For severe infestations, treat with a foliar insecticide labeled for use on ornamentals then use IMIDACLOPRID 1.47% FL as part of a routine care program.</p>
HOW IMIDACLOPRID 1.47% FL WORKS	<p>The insecticide dissolved in water moves down through the soil, where it is absorbed by the roots. Once absorbed, it moves up through the tree or shrub providing year-long insect protection. IMIDACLOPRID 1.47% FL even moves into new growth after application, thus protecting it, too. To get complete protection, the insecticide must distribute completely through the tree/shrub. Depending on the size and health of the plant, this may take one week to three months (for very large trees). Rain or water cannot wash off this internal protection.</p>

(NOTE: Application to trees heavily infested may not prevent their eventual loss due to existing pest damage and tree stress)

IMPORTANT- DIRECTIONS FOR STORAGE AND DISPOSAL
<p>Store in original container in a cool, dry place, out of the reach of children, preferably a locked storage cabinet.</p> <p>IF EMPTY:</p> <ul style="list-style-type: none"> • Do not reuse container. • Place empty container in trash or offer for recycling if available. <p>IF PARTLY FILLED:</p> <ul style="list-style-type: none"> • Call your local solid waste agency for disposal instructions. • Never place unused product down any indoor or outdoor drain.

NOTICE: Research and testing have determined that the "Directions for Use" are appropriate for the proper use of IMIDACLOPRID 1.47% FL under expected conditions. The Buyer assumes responsibility for lack of performance or safety if not used according to the directions.
