Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA provided that you:

- 1. Submit and/or cite all data required for registration/reregistration review of your product when the Agency requires all registrants of similar products to submit data.
2. Note: Under the Environmental Hazards section on page 2, the text "Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters." is not required. As stated on the label, the product is intended for formulation of herbicides only, and is not considered an end use product where such a statement would be required. The Agency has no objection to the additional safety language remaining on the label, though it may be deleted. For further information, consult Table 13 on page 27 of the Dicamba RED. The Dicamba and Associated Salts RED is available at "http://www.epa.gov/oppsrrd1/REDS/dicamba_red.pdf".
3. For greater clarity under the Directions for Use section on page 2, replace "his" with "their" to read "It is the responsibility of the formulator to obtain EPA registration for their end-use products."

4. Under Container Disposal in the Storage and Disposal section of the label on page 2, replace "Plastic or Metal" with "Nonrefillable container. Do not refill or reuse this container." per 40 CFR Part 156. For additional container labeling information, consult "<http://www.epa.gov/pesticides/regulating/containerquestions.htm>".
5. Note: Assure label type point follows the criteria cited in Chapter 3 of the Label Review Manual.
6. Note: Should you wish to add/retain a reference to the company's website on your label, then please be aware that the website becomes labeling under the Federal Insecticide Fungicide and Rodenticide Act and is subject to review by the Agency. If the website is false or misleading, the product would be misbranded and unlawful to sell or distribute under FIFRA section 12(a)(1)(E). 40 CFR 156.10(a)(5) list examples of statements EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore should the Agency find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

A stamped copy of your labeling is enclosed for your records. Submit one copy of the revised final printed label for the record before you release the product for shipment. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.
