Valdosta, GA 31604-2127

JUN - 8 2012

Subject Corrected Notice of Registration Dated May 21, 2012
Product Names Fomesafen + Imazethapyr SC
EPA Registration Number 42750-239
Associated Decision Number 457078

Dear Mr Gaskins

During a review of our records for EPA Registration Number 42750-239, an error in the original Notice of Registration dated May 21, 2012 was discovered. The error has been corrected in the attached revised Notice of Registration. The revised Notice retains the original date of product registration in order to avoid both internal and external confusion.

The error in the company number has been corrected changing 42570-239 to 42750-239. While this may seem like a minor error, we believe issuing a revised Notice of Registration is critical to assuring accurate documents are maintained by the Agency and made available to program stakeholders.

The revised Notice of Registration is intended to replace the original Notice of Registration and will remain on file here as a replacement bearing the same date. As the replacement document, the revised Notice of Registration will be uploaded with the original stamped label to the Pesticide Product Label System (PPLS) where it will remain accessible to our State regulatory partners and the general public. No action is required by you regarding this matter.

If you have any questions regarding this revised Notice of Registration, please feel free to contact Mike Walsh by telephone at 703-308-2972 or via email at "walsh michael@epa.gov"

Sincerely,

A handwritten signature in black ink that reads "Kathryn V. Montague".

Kathryn V Montague
