

U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

Date of Issuance:

42836-4

NOV 25, 1997

Term of Issuance: Conditional

NOTICE OF PESTICIDE:
 Registration
 Reregistration

Name of Pesticide Product:

Freedom Five Flea and tick collar for Dogs

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

PlasTech Corporation
15606 Wright Brothers Drive
Dallas, Texas 75244

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phase "EPA Registration No. 42836-4".

b. The basic formulation dated June 27, 1997 is acceptable with the following comment: 1) The % by weight in column 13b must be corrected to 53 instead of 58.

Signature of Approving Official:

Date:

2/9

c. Revise "Active Ingredients" to "Active Ingredient", since there is only one.

3. Submit two (2) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Freedom Five

FLEA & TICK COLLAR FOR DOGS

4/4

READ ENTIRE LABEL BEFORE USE. USE ONLY ON DOGS.

PRECAUTIONARY STATEMENTS

HAZARD TO HUMANS AND DOMESTIC ANIMALS

CAUTION: This collar is intended for use as an insecticide generator and is not to be taken internally by man or animal. Not intended for use on humans. Do not allow children to handle or play with this collar. May cause contact sensitization following repeated contact with skin in susceptible individuals. Avoid repeated contact with skin. If sensitization reactions result contact a physician. Sensitivities may occur after using ANY pesticide product for pets. If signs of sensitivity occur remove collar and bathe your pet with mild soap and rinse with large amounts of water. If signs continue, consult a veterinarian immediately. Do not use other pesticides on the dog while collar is worn. Do not use on sick or convalescing dogs. Consult a veterinarian before using this collar on debilitated, aged, pregnant or nursing animals. Do not use on puppies less than 20 weeks of age.

NOTE TO PHYSICIANS/VETERINARIANS: Diazinon is an organophosphate insecticide which is a cholinesterase inhibitor. If symptoms of cholinesterase inhibition are present atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered, but only in conjunction with atropine.

DIRECTIONS FOR USE: It is a violation of Federal law to use this collar in a manner inconsistent with its labeling. Place Freedom Five collar around the dog's neck, adjust for proper fit and buckle in place. Cut off and dispose of excess length. The collar must be worn loosely so that two fingers can be placed between collar and dog's neck. If collar is worn too tightly, it may produce neck irritation. Activity against fleas starts within 24 hours, reaches maximum effectiveness in 3-4 days and continues as long as the collar is worn (up to 150 days). Ticks are relatively harder to kill and die more slowly. Activity against ticks will occur within a few days and will continue killing and controlling ticks for up to 150 days, except for unusually large breeds on which collar aids in tick control in the head and neck area up to 2 months. Fleas and ticks present in the animal's environment that may reappear on the dog will be killed and controlled by the action of the collar. Replace collar when effectiveness diminishes. Collar is not affected by normal wetting such as rainfall; however, it is suggested the collar be removed before bathing.

DISPOSAL: Do not reuse empty pouch or box. After fitting collar wrap pouch or box with excess collar put in trash can. When discarding used collar, wrap inside newspaper and place in trash collection.

EPA Reg. No. 42836-4

EPA Est. 42836-TX-01

This product conforms to its chemical description and is not to be used for the purpose stated on the label when used in accordance with directions under normal conditions of use. Manufacturer is not responsible for the use of this product contrary to the label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to the manufacturer and/or seller and the buyer assumes the risk of any such use.
