WARRANTY STATEMENT

Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and conditions of application equipment will vary, Seller makes no claims other than those stated on this label.

PRECAUTIONARY STATEMENTS Hazards to Humans & Domestic Animals

CAUTION: Avoid contact with eyes and skin. Use in adequate ventilation and avoid breathing dust.

User Safety Recommendations

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothes.

Personal Protective Equipment Applicators and other handlers must wear coveralls or long-sleeved shirt and pants, waterproof gloves, shoes and socks, and a dust/mist filtering respirator (MSHA/NIOSH) approval number prefix TC-21C. Follow manufacturer's instructions for cleaning and maintaining Personal Protective Equipment (PPE). If no instructions for washable are given, use detergent and hot water. Keep and wash PPE separately from other laundry.

Statement of Practical Treatment (First Aid)

If Swallowed: Call a physician or poison control center. Drink one or two glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. **If Inhaled:** Remove person to fresh air. If not breathing, give artificial respiration, preferably mouth to mouth. Get medical attention. **If on Skin:** Wash affected areas with plenty of soap and water. Get medical attention if irritation persists. **If in Eyes:** Flush eyes with plenty of water. Contact a physician if irritation persists.

Environmental Hazards This product is toxic to fish. Do not apply directly to any body of water. Do not apply when weather conditions favor drift from the treatment area. Do not contaminate water by disposal of equipment wash rinses. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS Use this product only in accordance with its labeling and the Worker Protection Standard, 40 CFR Part 170. This standard contains requirements for protection of agricultural workers on farms, forests, nurseries, greenhouses and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry intervals. The requirements only apply to uses of this product that are covered by the Worker Protection Standard. Do not enter or allow worker entry into treated areas during the restricted-entry interval (REI) of 12 hours. PPE required for early entry to treated areas that is permitted under the Worker Protection Standard, and that involves contact with anything that has been treated, such as plants, soil, or water is: coveralls, water-proof gloves and shoes plus socks.

NON-AGRICULTURAL USE REQUIREMENTS The requirements in this box apply to uses of this product that are not within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries or greenhouses. Keep unprotected persons, children and pets out of the treated area until sprays have dried.

STORAGE AND DISPOSAL

Storage: Store in original container in a cool, dry place out of sunlight. Protect from moisture. **Disposal:** Do not reuse empty container; wrap and put in trash.

GENERAL INFORMATION: Carefully follow the directions for each type of use. This material may be used on edible crops growing outdoors or in greenhouses, up to and including the day of harvest. PPE required for early entry to treated areas prior to the time the sprays have dried, that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water is: long-sleeved shirt and long pants, waterproof gloves, shoes and socks. Use rates will vary with insect populations and adequate control should be obtained using one to six pounds per acre of this product.

Use Rates for the Fruits, Nuts, Vegetables, Field Crops, Ornamentals and Miscellaneous Crops: Use 1 to 6 pounds of product per acre depending upon the insect population. The material can be used either: **As a dust:** The best results are obtained when the plants are wet or dew still remains on the leaf surface. It is suggested that the plants be misted prior to application to obtain the maximum benefits and use the least amount of product for control. Reapply only as necessary; **As a wettable powder,** Apply in sufficient water to obtain maximum coverage. Dilution of the material should be at the rate of one half pound in one half gallon of water or at a maximum of one pound to 25 gallons of water. It is best to keep the material agitated during application. Apply the material uniformly to both the upper and lower leaf surfaces. Reapply only as necessary.

GRASSES, LAWNS, & TURF (INCLUDING GOLF COURSES)

To control Ants, Armyworms, Caterpillars, Chinch Bugs, Cutworms, Fire Ants, Fleas and Ticks. **Use Rate:** Use 16 oz. (1 lb.) per 1000 square feet of area. Apply either as a Dust or as a Wettable Powder.

Fire Ants: Mound Drench or Water Method: Use 0.6 ounces (4 tablespoons) to one gallon of water. For best results, saturate the perimeter of the mound first, working toward the center of the mound in a circular motion (you may want the mixture to puddle). An ant mound 12-14 inches in diameter requires approximately one gallon of mix. Hose-End Sprayer: Use 16 oz. (1 lb.) per 1000 square feet of area. Use a hose-end sprayer for mounds in lawns. Add a small amount of water to the jar and add the amount needed for the pre-measured area, stir to make a slurry, then add the remaining water to the top of the jar. Empty entire contents of the jar on the pre-measured area. As a Dust: For best results, dust the perimeter of the mound first. With a stick, disturb the mound, then dust mound in a circular motion working toward the center until the mound is thoroughly dusted.

Ants, Chinch Bugs, Caterpillars, Cut Worms, Armyworms, Fleas and Ticks: Hose-End Sprayer: Use 16 oz. (1 lb.) per 1000 square feet of area. Use of a hose-end sprayer for lawns. Add a small amount of water to the jar and add the amount needed for the pre-measured area, stir to make a slurry, then add the remaining water to the top of the jar. Empty entire contents of the jar on the pre-measured area. As a Dust: The best results are obtained when applied with a hand or power duster or other suitable means of application to the infested area. Apply lightly and uniformly to the treatment area. Hand Sprayer: Use 0.6 oz. (4 tablespoons) to one gallon of water. It is best to keep the material agitated during application. Apply the contents to pre-measured area.

ANIMAL QUARTERS

Including but not limited to Barns, Dairies, Milkrooms, Poultry Houses, Hous and Stables. For control of Gnats, Fleas, Flies, Lice, Mites, Darkling Beetles, Mosquitoes, and Ticks. **Use Rate:** Use at the rate of 2 oz. per 100 sq. ft. of surface area. Apply with a hand or power duster or sprayer or other suitable means to the hiding places where the pests are found. Repeat treatment as necessary to maintain control. Do not use this product directly on pets.

ON HARVESTED TOMATOES AND FRUIT (Including Grapes)

To Control Fruit Flies and Vinegar Flies. Apply with a hand or power sprayer or other suitable means on tomatoes and fruit in baskets, on trucks or on plants, and row stock stacked in the yard. Apply liberally at the rate of 8 oz. per 100 sq. ft. of area.

AS A GRAIN PROTECTANT

To protect against grain storage insects, dilute one pound in 5 gallons of water and apply directly to the grain at a rate of 4 to 5 gallons per 1000 bushels as the grain is carried along a belt or as it enters the auger or elevator. Monthly inspections should be made. If the top two or three inches are found to be reinfested, retreat at the rate of 1 to 2 gallons of dilution per 1000 bushels of stored product.

IN MUSHROOM PRODUCTION AND PROCESSING

To control Mushroom Flies and Fungus Gnats. Apply dilution at a rate of 5 ounces per 1000 cubic feet of space. Direct spray 8 to 10 feet away from beds and slightly upwards over beds. Keep circulating fans running but turn off refrigerators during application. In processing plants, use at the rate of 5 ounces per 2,000 cubic feet of space.

MOSQUITO CONTROL

May be used on croplands as an adulticide to protect agricultural workers during harvesting. Use 2 to 12 ounces per acre when applied by fixed wing aircraft, helicopters or truck mounted equipment. Do not apply in a manner as to directly or through drift expose workers or other persons. The area being treated must be vacated by unprotected persons.
