

CLEAN QUAT is a Heavy-Duty Industrial Strength Cleaner formulated to provide maximum cleaning efficiency as it disinfects. It is especially designed for schools, institutions and industry. A single application removes moderate amounts of dirt and grime, disinfects and is virucidal. When used as directed, the hard surface disinfecting action of CLEANQUAT will reduce the hazard of cross-contamination.

When used as directed CLEAN QUAT will deodorize toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas and other places where bacterial growth can cause malodors.

**Directions for Use**

**GENERAL CLASSIFICATION**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

CLEAN QUAT is a proven "one-step" cleaner-disinfectant-sanitizer-fungicide-virucide in the presence of moderate amounts of organic soil.

Apply CLEAN QUAT to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when used solution becomes visibly dirty.

**Disinfection** — To disinfect hard, non-porous surfaces, add 3 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. At this use level, CLEAN QUAT is also virucidal and fungicidal.

**Sanitizing** — To sanitize porous or non-porous, non-food contact surfaces, add 1 oz. per gallon of water.

**3 oz. per gallon use-level.** The broad spectrum of CLEAN QUAT has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the AOAC Use-Dilution test:

- Escherichia coli
- Salmonella choleraesuis
- Staphylococcus aureus

**AOAC Fungicidal Test**

CLEAN QUAT is effective against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, shower and bath areas, exercise areas, dressing rooms, etc.

**Virucidal Performance**

\*At 3 oz. per gallon use-level CLEAN QUAT was evaluated in the presence of 10% serum and found to be effective against the following viruses: Herpes Simplex (a member of the virus family that causes the infectious mononucleosis), Vaccinia (representative of the pox viruses), and Influenza A (the Hong Kong flu virus) on inanimate environmental surfaces.

**Sanitizing-Non-Food Contact Surfaces (such as floors, walls, tables, etc.).** At 1 oz. per gallon use-level 2 minute contact time, CLEAN QUAT is an effective sanitizing agent in waters of up to 400 ppm hardness against Staphylococcus aureus and Klebsiella pneumoniae in the presence of 5% serum on porous and non-porous environmental surfaces.

At 3 oz. per gallon CLEAN QUAT will control odors caused by mold and mildew.
