TERM OF ISSUANCE

NAME OF PESTICIDE PRODUCT

**NOTICE OF PESTICIDE:**  REGISTRATION  
 REREГИSTRATION  
(Under the Federal Insecticide, Fungicide,  
and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

[Faded text]  
 [Faded text]

**NOTE:** Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

The product is conditionally registered in accordance with 40 CFR 155.301(a)(2) because that person:

1. Is a manufacturer, importer, or distributor of a pesticide registered or being registered under the FIFRA Act, 31(a) 5, and the registrant is a manufacturer, importer, or distributor of the pesticide.
2. Made the label for the pesticide in accordance with the requirements of 40 CFR 155.301(a)(2).
3. Made the label "In Accordance with 40 CFR 155.301(a)(2)".
4. Any reference to "General Use" or "Restricted Use" on the label is in accordance with the Agency's classification system. Labels are not to be used in the case of this product. If a product is labeled for restricted use, the label must contain the following information: (a) The chemical may be applied only by or under the direct supervision of a certified applicator. The label must contain a restricted use statement, clearly stating that the aforementioned restrictions do not apply to a particular pesticide or its use. A restricted use statement may be used only if it is necessary to identify the pesticide.

## SLIMICIDE 338

**ACTIVE INGREDIENT:**

Potassium dimethyldithiocarbamate ..... 50.0%  
 OTHER INGREDIENTS ..... 50.0%

This product contains 5.2 lb. of active ingredient per gallon and weighs 10.4 lb. per gallon.

### KEEP OUT OF REACH OF CHILDREN WARNING

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

**WARNING:** Causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin, or on clothing. Avoid contamination of food. Wear goggles or face shield and rubber gloves when handling. Wash thoroughly after handling.

**STATEMENT OF PRACTICAL TREATMENT:** *In case of skin contact*, wash with plenty of soap and water. Remove contaminated clothing and wash before reuse. *If product gets in the eyes*, flush immediately with copious amounts of clean, cool water for at least 15 minutes. Get medical attention immediately. *If product is swallowed*, call a physician immediately. If patient is conscious, induce vomiting by stroking or tickling the patient's throat or far back on patient's tongue. Emetics such as 2 teaspoonful (10 mL) of ipecac syrup or 1 teaspoonful (5 mL) of dry mustard in warm water to form a paste or even soap in warm water can be used. Repeat until vomit fluid is clear. Then have patient drink plenty of milk, gelatin solution, beaten egg whites, flour and water, or other nonoily demulcent. *Never induce vomiting or give anything by mouth to an unconscious person*

*Note to physician:* Probable mucosal damage may contraindicate gastric lavage.

**ENVIRONMENTAL HAZARDS:** This pesticide is toxic to fish. Do not use in offshore or estuarine drilling operations. Do not discharge effluent containing this active ingredient into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

### DIRECTIONS FOR GENERAL CLASSIFICATION

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Slimicide 338 is used in cooling water systems to control microbiological slime. In cooling systems, add 1.66 gal. of water to the cooling tower sump. In air-washing systems, add 1.66 gal. of water to water-collection trays. Frequency of application as needed. The required frequency depends on relative slime problem.

Slimicide 338 is used to control sulfate-reducing bacteria in every waterflooding operations at dosages of 0.83-1.66 gal. of water treated. Technical assistance in applying Slimicide 338 to a recovery system is available upon request when a design is required.

Slimicide 338 is used to control bacterial and fungal growth in paper mills. Recommended treatment rates are 0.25-1.0 lb. of Slimicide 338 per 1000 gal. of water. Paper produced for periods of 2-6 hours out of each 8-hour cycle. Concentrations and frequency of treatment will depend on the type of paper. Slimicide 338 is added to the white water or stock going to fresh water, slush pulp, broke, or other machine. It is also used to control growth of bacteria and fungi in papermaking additive solutions, pigment slurries, coating formulations, and emulsion resins. Slimicide 338 is added to these materials in concentrations of 0.03-0.2% based on total wet weight of the material.

Slimicide 338 is also used to inhibit the growth of bacteria and fungi in paints or coatings, emulsion resins, caulking-sealants, and other applications. Slimicide 338 is incorporated into these applications in concentrations of 0.03-0.2% based on total wet weight of the material.

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. **STORAGE:** Do not expose to extreme temperatures. Do not stack drums. Drums should be placed in overpack drums for disposal. Spills should be cleaned up and disposed of in a sanitary landfill. Keep container closed when not in use.

**PESTICIDE DISPOSAL:** Pesticide wastes are toxic. Improper disposal is a violation of Federal Law. If these wastes cannot be disposed of by other means, contact your State Pesticide or Environmental Control Agency, or the nearest Regional Office for guidance.

#### CONTAINER DISPOSAL

**PLASTIC** (Triple rinse for equivalent). Then offer for recycling or disposal in a sanitary landfill, by incineration, or if allowed by state and local authorities, by other procedures approved by state and local authorities.

**METAL** (Triple rinse for equivalent). Then offer for recycling or disposal in a sanitary landfill, or by other procedures approved by state and local authorities.
